ACTUALLY DEAD, WOMAN COMES BACK TO LIFE

Woman Collapsed and Died While Undergoing Operation but Heroic Action of Surgeons Restored Her to Life Again

Los Angeles, Dec. 10.—A modern wonder of medical science was consummated here at the Good Samaritan Hospital, according to the statements of three physicians who say that Mrs. Walter W. Akers, of 1022 Gramercy Place, wife of the California manager of the International Fruit Products Company was restored to life after having been dead for ten minutes.

"The raising was not from a theoretical death, or state of coma, as it is ordinarily understood," said Dr. P. M. Williams, who, with Dr. C. S. Hutchinson, were the attending surgeons.

"Mrs. Akers was actually dead. Her heart had stopped its functioning; there was no pulse; the eyes were fixed in the glare which spells for every medical man the eternal sleep; there was no response to the usual tests. The patient was dead.

"The end came during the progress of a major operation for laparotomy. The operation was progressing in due course when our attention was directed by Dr. W. S. Holman, who was administering the anaesthetic, to the woman's complete collapse—to her death in fact in fact."

Mr. Akers, who was awaiting the result of the operation in the adjoining room was summoned. The doctors went to work. Nurses began the administration of oxygen. Dr. Williams vigorously applied himself to producing artificial respiration.

Massaged the Heart.
Dr. Hutchinson then inserted his hand through the incision made in the abdominal wall until the diaphragm was reached. One finger grasped the top of the heart, his thumb was at the bottom. A slight compression, another and another followed, until the physician's hand was contracting and dilating the organ in simulation of the heart throbs. The lungs reluctantly again took up their burden.

After that the patient rallied with a marvellous rapidity, it is said, and in a few minutes was so far recovered that it was necessary to administer new anaesthetic in order that the original operation might be concluded. The operation lasted more than two hours.

Dr. Hutchinson said that the patient was in normal and satisfactory condition, with every chance in her favor for a complete recovery.

A complete report of the case is to be made to medical authorities.

STEBAURMAN'S OINTMENT
St. John's, N.F.,
March 15th, 1914.

Mr. Stebaurman.
Dear Sir,—I have much pleasure in informing you that I am perfectly cured of my stomach trouble after having used two bottles of your medicine. I feel as well as ever. I was fifteen years suffering. Doctors said they could do me no good and told me I would never be cured. I gave up hopes of getting better till a friend advised me to try your medicine, and after using two bottles I am well.

You are free to make any use of this that you think proper. I feel that I am completely cured and I trust that other sufferers will find the blessing of health again by using your medicine.

Yours truly,
MRS. STACEY.

HAD NO "BRACES" COULDN'T ESCAPE

Ingenuous Way in Which the French Made Sure of German Prisoners

London, Nov. 17 (by mail).—Mrs. Neave, wife of a British army officer, brings the following story from France:

"One touch of comedy which would have made me rock with laughter at ordinary times I encountered at Lyons. Some fifty German prisoners had just arrived from the front, and I noticed that they nearly all had their hands in their trousers' pockets. I remarked on this to an official, and he replied in a matter-of-fact way: 'Oh, yes. They tried to escape, so we took away their suspenders. That is why they have their hands in their pockets.'

"The prisoners were in rags or in old garments, which the French seem to have given them. I was astonished that there was no demonstration. Two small boys spat at them, but they were told to stop.

"A troop of soldiers were leaving Lyons that day. Fine looking fellows they were, all well over forty, but they presented a curious appearance, for each man had a large flat cake of bread strapped across his breast and a bottle of water. From Lyons to Paris is one vast camp, and we travelled in zig-zag fashion, picking up soldiers here and there.

"At one siding a trainload of British wounded arrived from Soissons. It was funny to hear the Highlanders exchanging greetings with the French. 'Good-bye mon,' said a Scot. 'Bon souvenir,' replied a Frenchman. The Highlander pointed to his wounded leg, and said: 'Yes, souvenir de Soissons.'

Germans Used Ypres Town Hall As Supply Store
Their Action in Sparring the Building Led to Discovery of Depot and to Mayor's Execution.

London, Dec. 10.—A British officer writes home from the front telling of the curious avoidance by the Germans at first of shelling the town hall at Ypres. He says:

"Some suspicious were aroused about it and the place was searched. In the vaults underneath it which are of very great extent, was found an enormous quantity of German stores and ammunition sufficient to last them a month and serve as a depot for their attack on Calais. It had been put there with the connivance of the mayor at the time the Germans were in occupation. This explains their desperate efforts to capture the town again.

"The traitor mayor was shot. Immediately afterward the Germans shelled the place, smashed up the building, and set it on fire."

The Bear's Onward March

In the eastern theatre of war, the success of the Russian Bear seems assured. Winter is coming on—the Russians are prepared. They are a hardy race and cold does not affect them. We in Newfoundland consider ourselves hardy, but nevertheless we must also prepare ourselves to withstand the elements. To be comfortable during winter, dry feet are essential. You can have them by wearing only the Best Rubbers, i.e., **Bear Brand**. You can buy them from Monroe & Co. (have you seen the bear in their window?) W. R. Goobie, Nicholle, Inkpen & Chafe, Steer Bros., Jesse Whiteway and J. M. Devine.—decl

How About Your Filing System?

Is it not improvable? If so, we believe you would be interested in the simple and reliable "SAFEGUARD" system of Filing and Indexing. Every point that could save time, labor and expense has been featured in the "Globe-Wernicke" Office Equipments. Why not ask us more about this?

BAIT!

Or rather the want of it, is one of the principal drawbacks to the fisheries of Newfoundland, and as it is tolerably certain that we shall have good markets and high prices in 1915, now is the time to prepare to capture **Bait** fishes.

As a means to this end we are making

Cheap Light Caplin Seines

that will be easily handled, and as one good haul will pay for the outfit, every Schooner should have one.

We are making **SQUID TRAPS**, which will be most effective.

We are making **SMELT NETS**, in all sizes.

We are making **GILL NETS**, various sizes.

We make **COD TRAPS** and **COD SEINES**, Hemp and Cotton.

We make superior **HERRING NETS**, Standard and **Crescent** brands.

We make Hemp and Cotton **LINES** and **TWINES** of Superior quality.

We make **CORDAGE** and **CABLES**, of all sizes.

In fact we make everything required for the fisheries, and we ask all our people to support **Home Industries** by using everything that is home made where ever possible, and so keep the money in circulation in Newfoundland.

SOME CHALLENGE!

TIME TRIED **CAILLE PERFECTION** STORM TESTED

The Trouble-Proof Engine.

PERFECTION WATERPROOF IGNITION SYSTEM.

No Coils—No Batteries—No Timer

Only One Wire on the Whole System. The only safe equipment for boats that must be used every day.

No danger of your engine stopping if caught in a storm.

Advantages of Perfection Igniter.

No batteries, no coil to need adjusting, no complicated wiring, no variation in current, no adjustment, not affected by water, makes an easy starting engine. Runs in either direction. Spark does not depend on speed of engine. Simple and durable.

Test shown in photograph was made to prove that "Perfection" igniter is absolutely waterproof. We challenge any engine manufacturer in the world to produce an engine with an ignition system that will stand a similar test. Every part of the ignition system was submerged in water and engine continued to run, showed the same power and speed as when running perfectly dry, proving beyond any doubt our claim **AN ABSOLUTE WATERPROOF IGNITION SYSTEM.**
