And it's easily made if you are a next sewer, for the center is of heavy linen lace surrounded by a very broad band of English eyelet embroidery on batiste, and that, in turn, is finished off with a border of broad lace put on plainly, as the loth must lie flat upon the table's surface. A Present to the House.
The present to mother often means gift to the whole household-that is, something that is enjoyed as much by the family as it is by the mater. Such a gift is to be found in the new candelabra of mahogany that are just the

A Novel Receptacle.

Much neater looking than the waste paper basket is the new substitute for it—the scrap box with its big bow decorated lid swinging on ribbon hings.
The scrap box is made by covering with fancy paper, cretonne or tapestry the medium sized pasteboard receptacle in which your medium sized autumn hat was sent home and lining it with aspestos sheeting. This lining is necessary because a match thrown by a careless person into a wastehasket is likely to prove dangerous. These waste paper boxes make very individual presents if the recipient's preference in colors is remembered.

Napery of Handsome Quality WHAT TO GIVE MOTORIST.

Small Pillow an Excellent Gift For the Woman Who Takes Long Ridge. A small pillow that she can use in the motor during the day when off on Some Helpful Hints to Giv- trips and at night as a head rest has been arranged by one girl who likes creature comforts and yet knows that small space for luggage is allowed her in the car. Have a cushion at her back when driving she will, and also she likes a small one to place beneath her head at night. To be allowed to take two she was not, and she found her self confronted by a problem.

The reason of this was that the only practical covering for the rubbing and dust of the day wear was soft leather, and leather, as every one knows, has a strong odor and is not pleasant to

sleep on. So finally she hit upon the plan of making her own leather cover so it would slip on and carried linen

Buying two soft skins, she cut the case the size suited to the cushion, add-ing an extra inch to turn under. On three sides, she stitched it, turning the four corners that those at the edge to be left open should be square and well shaped. Then she bethought that un-less there was some protection dust of the day would settle in the open side,

soiling the white pillow.

To avoid this she cut a flap four To avoid this she cut a flap four inches wide, the length of the case. This she basted inside across the open, making it serve as a wide tongue. Then, basting back underneath the extra inch of leather, she put the case in the machine and sewed it, using heavy twist, making the effect of a wide hem about the whole cushion. At each corner of the tongue she sewed a small hook and an eye to correspond on the laside of the case to hold the corner. hook and an eye to correspond on the inside of the case to hold the corders down when the cushion was in.

To close the two edges there were eather buttons and buttonholes. To slip the pillow into this was the work of only a moment, and the fasten-ings held it securely protected from lust. When she wanted to use it in the house the cushion was taken out, the leather case put saide and one of white linen substituted. For the fair motorist who is not so utilitarian in her tastes is designed the attractive cushion pictured. This comfortable head rest is smart if carried out in eather and stenciled in a conventional pattern in several shades of brown and

and you'll find it a valuable art as Christmas approaches nearer and nearer and your pocketbook grows thinner and lighter, for these ribbon bags tost very little, and they make a won-lerful showing for the amount of mon-sy expended upon their material.

The most effective bags are woven from ribbons of inch width in two colors or in two shades of a color, and to make a receptacle of moderate size there must be five and a half yards of each tone. These strands are woven faitly, after the manner of a cheap latly, after the manner of a chear int basket, into a square measuri splint basket, into a square measuring a few inches over a quarter yard. When finished this woven piece is laid smoothly over a square of plain satin or taffeta, and two of its sides are ribbon bound in order to prevent fraying. The square is then doubled once, the two ribbon bound sides stiffened with strips of whalebone and the tops of the lining and ribbon weaving sewed over a good sized embroidery ring.

They are very pretty young girls, but one of them has three hands. One left hand rests on the left hand is round her companion's waist. Doubtless the artist Trumbui painted both hands to see which pose he preferred and then forgot to paint

No Use For Fresh Air.

Old time doctors had no faith in the virtues of fresh air. Andrew Boorde in his "Compendyous Regyment or Dietary of Helth." published 1542, writes: "To bedward and also in the morning use to have a fire in your chamber, to waste and consume evil vapours within the chamber, for the breath of man may putrify the air within the chamber. In the night let the windows of your house, specially of your chamber, be closed, let your nightcap be of scarlet, and this, I do advertise you, to cause to be made a good thick quilt of cotton, or else of pure flocks er of clean wook and let the covering of it be of white fustian, and lay it on the feather bed that you do lie on."—London Chronicle.

## NO DRINKING MAN NEED DESPAIR

The Neal Cure-Greatest of All Modern Discoveries-Offers a Means of Escape from the Curse of Drink. A cure of the Drink Habit is Guaranteed in Three Days no Matter Whether the Patient is a Hard and Constant Drinker, Social Tippler or Goes on Occasional Sprees.

There was wandering in the streets of Toronto lately a homeless man, who at one time held a splendid position, but drink was his downfall. To-day his wife, a cultured woman, works out by the day, epdeavoring to support herself and little family. Think of it, you wives and mothers, who have homes of comfort and all that makes life worth living, what it would be to you to be deprived of these and forced to face the wash tub for an existence, as this poor wife has to do to-day?

But this home which was made a hell on earth through strong drink—as every drunkard's is—may be made into a heaven upon earth, as many have been made, as a result of the Neal Treat-ment. Three days only—the wonder of it—to effect a cure and make the victim of strong drink a new man, physically, morally and mentally.

We undertake to guarantee to effect a cure of the Drink Habit in Three Days, no matter whether the patient is a hard and constant drinker, social tippler, or goes on occasional sprees. Are you interested in a poor fellow going down, down,

through the curse of drink? Then bring youn influence to bear on him and bring him to the Neal Institute for treatment, drunk or sober, and we will undertake to remove the awful appetite for strong drink and deliver him to you a new

Here is an opportunity for REFORMATION SOCIETIES for INEBRIATES or any institution for the reformation of the drunkard, to test our ability to change the hard drinker into a new man, physically and mentally, in THREE DAYS' treatment.

We invite these Societies of any institution interested in the poor drunkard and the problem of dealing with him, to send us for treatment any victim of the drink habit, it makes no difference how much enslaved, and we guarantee to effect a cure in each and every case. Can you spend your money to better advantage or in a way that will bring in greater returns than in redeeming these victims of strong drink and giving back to their families kind fathers, brothers, husbands, and to the country most desirable citizens?
