Tied to Torture Wheel. New York, Sept. 15.—A special cable to The Herald from London tells of a weird occurrence at the Earl's Court Exhibition last week. In the Rue de Paris there is a side show, one of the features of which is a reproduction of a dungeon in the Bastille. In its gloomy recesses stands an old torture wheel with fixed knives, against which the unfortunate wretch on the wheel would be forced when the instrument of torture was revolved. To make the picture more realistic a wax dummy of a man is placed upon the wheel. Early in the morning one day last week one of the employees of the Exhibition heard groans coming from the Bastille building. On entering he found that a living man had been substituted on the torture wheel for the dummy which was lying in a corner. With assistance he cut the cords and lifted the man from the wheel and carried him into an adjacent building. The man silently acknowledged that he had been placed upon the wheel by two men, one of them an Algerian with whom he had quarrelled and who was connected with a stall at the Exhibition. It appears that the man who was the victim of the outrage had been paying a Belgian girl particular attention. This was resented by the Algerian and a violent quarrel took place. The two men then apparently made friends again, and the victim had been drinking coffee and liqueurs with the Algerian at his stall. He declares that he must have been dragged off, he grew drowsy and dropped off to sleep. He remembered nothing till he awoke on the wheel in dreadful pain from the tightness of his bonds.

Since the Zulus were killed by the Boers in the Vryheid district, the paper continues, a bitter feeling has prevailed among the natives. Expelled From Europe. Amsterdam, Sept. 15.—Mr. Reitz, formerly State Secretary of the Transvaal, will sail on September 25 for New York, to give a series of lectures, both on behalf of his own finances and for the benefit of the Boers. This unexpected early departure of Mr. Reitz from the United States is said to be due to the insistence of the Boer Generals Botha, Dewet and Delarey that the British propaganda in Europe must be moderated.
