

THE FARMERSVILLE REPORTER.

NEWS OF THE WORLD.

At the Ottawa police court on Wednesday morning a saloon-keeper holding a Dominion license was fined \$20 and costs for selling without a license.

A little orphan girl named Sarah Newell, adopted out of the orphan's home at Toronto by Miss McKinlay, of Surnia, has fallen heir to \$75,000 left her by an uncle in Ireland. Private detectives in Toronto searched her out.

The longest bridge in the world crosses Lake Ponchartran at New Orleans, and is twenty-two miles in length. It is trestlework on piles, and made of cyprus wood which was first saturated with creosote oil which renders it impervious to moisture and proof against the attack of barnacles.

A hotel is to be built in Pittsburg seven stories high, with the kitchen on the top floor, and an electric fire-escape in each room. The escape is to be operated from the office. By touching a button there the guests are simultaneously aroused, every window thrown open, and a flexible ladder loosened that reaches to the ground.

A Wonderful Clock.

Probably the most wonderful piece of mechanism ever heard of is a clock described by a rajah belonging to a princess in Upper India. In front of the clock's disk was a gong, swung upon poles, and near it was a pile of artificial limbs. The pile was made up of the full number of parts for twelve perfect bodies, but all lay heaped together in seeming confusion. Whenever the hands of the clock indicate the hour of one, out from the pile of limbs crawled just the number of parts to form the frame of one man, part joining itself to part with quick, metallic click; and when completed the figure sprang up, seized a small mallet, and walking up to the gong struck one, the first hour. When two o'clock came, two men arose and did likewise, and so through all the hours of the day, till at noon and mid-night, the entire heap sprang up and marching to the gong struck one after another, each his blow, making twelve in all and then fell to pieces again.

The Sailor's Bride.

My wife is just as handsome a craft as ever left a milliner's dry dock; is clipper built, and with a figure-head not often seen on a small craft. Her length of keel is five feet six inches, displacement twenty-seven cubic feet; of light draught, which adds to her speed in the ball room; full in waist, spare, trim.

At the time we spliced she was newly rigged, fore and aft, with standing rigging of lace and flowers, in i-sail part silk, fore-stay sail of Valenciennes, and st'u'n sails trimmed with orange blossoms.

Her frame was of the best steel, covered with silk, with whalebone stanchions. The rigging is for fair weather cruising. She has a set of storm sails for rough weather. I have been told that in running down street before the wind, she answers the helm beautifully, and can turn round in her own length if a handsome craft passes.
