HOME LIFE OF DOUKHOBORS

"One of the most interesting bodies of people on this continent are the Doukhobors," says a writer in the Oct. 1907 issue of the New Idea Woman's Magazine. She continues thus: "Interesting not alone because of their peculiar religious beliefs, but because they are a people who have succeeded for six years in conducting a large social community with comparatively little friction, and with material gain to themselves. They came to Canada from Russia penniless, but today own land, stock, and the latest and most approved agricultural implements, while all business is conducted on a community basis." The many photographs which accompany the article attest to the primitive simplicity of the Doukhobor life. Their success is based on their mastery of many practical trades as well as their ability to withstand the greatest hardships. The intense religious ardor of these people has affected their mode of life in many curious ways, which will be of great interest to all readers.

Feed Value of Straw

This year, when coarse fodder is certain to be scarce, the following statement from the American Agriculturist will be found of value: "The importance of cutting grain promptly or at an early stage of maturity is not sufficiently felt by many of those who feed more or less of the straw. The value of straw for feeding is greatly enhanced when it is cut in good season. This is not so much on account of the adverse influence which maturity has on the nutrients in the straw as on the palatability of the same."

A.H.S. Vs. Plum Hollow

On Monday last there was a large attendance at the first football game of the season played by the recently organized A.H.S. team. Plum Hollow team were their opponents and they proved to be a very lively bunch. Individually they played a great game but were weak in combination, so the Athens boys were able to hold them well in check throughout the whole game. Not a single goal was scored by either side and Athens' defence proved so effective that the goal tender was called upon to block only one ball. It was a very interesting match and demonstrated that with practice the home team will be able to travel in fast company before the season ends.

Following was the line up:—
Athens: Halladay, Goal; Jacob, Full B.; Donovan, Half B.; Willson, Half B.; Kerr, For'd; Parish, For'd; Hughes, For'd; Wiltsie, For'd; Smith, For'd; Earl, For'd; McGhie, For'd.
Plum Hollow: Bart, Goal; Dixon, Full B.; Day, Half B.; Porcival, Half B.; Burt, For'd; Wiltsie, For'd; Marshall, For'd; Murray, For'd; Gifford, For'd; Koapp, For'd; Wendling, For'd.
Umpire—Mr. Herrington.

Permanent Muscular Strength

There is this to be borne in mind in these days when so many young men are giving so much attention to physical development, in gymnastic and athletic exercises, that there cannot be permanent muscular strength where there is not blood strength. Hood's Sarsaparilla gives blood strength, promotes digestion and assimilation, and builds up the whole system.
