TUESDAY, NOVEMBER 1.

BIRDS OF A FEATHER.

The ostentatious assistance which Mr. Ross is rendering to the Dominion Government in this election is noted and recognized throughout Ontario, but the full meaning and ultimate effect of this assistance are perhaps not fully appreciated.

If Ross' boast that he will "see Laurier through" is fulfilled it means not only the use of "Minnie M" methods wherever the Ross machine is put into operation, but what is equally important it means that if Laurier is successful in the present campaign, he, and his associates must in turn "see Ross through" in the next Ontario election—now rumoured for December—that all the assistance and power of the Dominion Government must be brought to bear in Ross' favor when he goes to the country. Whether or not the Laurier Government is in sympathy with the methods or desires the assistance of the Ross machine in his election is beside the question—it will accept the assistance, shut its eyes to the methods—trusting to give Ross his "pound of flesh" in the shape of a good majority when his turn comes. To help Laurier now is the most potent way of helping to saddle Ross and his methods on the people of Ontario for another term. Let the independent elector consider this carefully, and appreciate the full significance of his vote on November 3rd.

The appearance of the Hon. Mr. Stratton on Sir Wilfrid Laurier's platform at Peterborough on the 20th ult., confirms Ross' promise to Laurier. Stratton's name, rightly or wrongly, is associated with nearly all the dirty work of the Liberal party in Ontario. Laurier, Stratton and besmirched Ontario is now the battle cry.

THE AUDITOR-GENERAL'S APPEAL.

There is something grandly pathetic in the appeal of the Auditor-General to the people of Canada for their assistance in helping to prevent too much of their "sweat-stained money" going to the people who have earned it.

There could not very well be a sadder comment on the Government of the day than the fact that a public officer, occupying the peculiar position the Auditor-General does, should feel it necessary to appeal to the people to help him protect their interests. He is the one solitary officer in the whole country whose duty it is, and in whom the people have the utmost confidence, to stand between the taxpayers and the reckless jobbery of party politicians and grasping corporations. He was appointed to office by the Mackenzie Government, and his record for strict impartiality and integrity is as freely acknowledged to-day, after his long years of trying and difficult service, by one party as by the other. The Liberals were proud to boast of his unquenchable courage and his indefatigable seal, when they were in office; the Conservatives, however, often they might have tried to circumvent him, eventually paid sincere tribute to his honesty and his watchfulness by yielding in the end. It remained for Liberals of other days, for men who had forgotten the traditions and the standards of Mackenzie's time, to force upon this genuine servant of the people the conviction that his usefulness was gone.

In reconsidering his decision to resign he does so, as he tells the people in the appeal which he has just issued, because he has ground to expect that the people will in their own interests see the necessity of instructing their representatives to so amend the Audit Act as to enable the auditor to discharge his duties with some degree of freedom and satisfaction. "It doesn't seem necessary to say," he adds, "that I couldn't hope to keep out of an asylum for the insane, if I attempted to do our great work here with the immense additions so soon to come to it, without this help, and therefore I should leave. Surely, such an appeal will not be in vain. Should it be in vain, the Auditor-General leaves no room for doubt as to what the result will be. If your representatives don't take up the Audit Act earnestly in the first session, I shall quit this office with the superannuation I have earned, if possible, but if I cannot get that, then without it."

The construction of the Grand Trunk Pacific, whichever party may be in power, renders an Auditor-General, tried and trusted and with ample privileges to enable him to discharge the duties of his office, an absolute necessity.

Ship-Stephens.

Cheer for Clements.

Punish the pledge-breakers.

The workers are voting for Clements.

WASTING AWAY

It's the small but constant loss of flesh that indicates physical waste—the gradual slipping away of healthy flesh, pound by pound, which no ordinary food seems to restore. Scott's Emulsion will restore it. This Emulsion is the greatest flesh builder obtainable. Scott's Emulsion first stops the wasting—that's one gain. Then when it supplies new flesh and takes one back to normal strength and weight, that's another gain and a big one.

We'll send you a sample, free
SCOTT & BOWNE, Chemists, Toronto, Ont.

The young man for the young men.

The labor vote is with Clements.

Keep your ear to the ground.

It's the swing of victory all right.

The young men want to be represented in parliament.

The size of the Clements majority will be an eye-opener, see if it isn't.

Give the young man a chance.

Canada's hope is in her earnest young men.

Keep your eye on the township vote.

The farmers are onto George Stephens.

The only thing now in doubt is the size of the Clements majority. Make it big, Mr. Voter.

The Morning Planet, Mr. Elector, will tell you all about it at your breakfast table Friday.

Wonder why all these corporation fellows and bonus-seekers are so anxious to see George Stephens elected?

We can't all be wealthy corporation bonus promoters, you know. A few of us have to work for our livelihood.

Never mind the ridiculous yarns the Stephens organ publishes. You know what Mr. Gundy said about them.

The Stephens millionaires aren't sneering at the "presumption of a young clerk—only an ordinary working fellow," any more, you'll notice.

The mechanics, clerks and laborers are with Clements. They have a right to be represented in parliament.

The corporations shouldn't have everything.

Will Mr. Stephens kindly continue sending John G. Kerr out to rough it at political meetings. He is a great vote-getter—for Clements.

Does George Stephens sell nails, locks, hinges, and the hundreds of ordinary hardware articles required by the people any cheaper to-day than he did in 1896?

If you see it in the Stephens' organ you can bank that it's not so. Even the Liberal speakers score the Stephens' organ's statement as untruthful and distorted.

Everyone is invited to the Grand on Thursday evening where the election returns will be announced from the wires. Balcony reserved for ladies and their escorts.

The Montreal Star, in summing up the Ontario prospects says, "A CONSERVATIVE GAIN IS PRACTICALLY CONCEDED IN WEST KENT." Say, they've heard the hum away down there!

If E. Emerson Parrott were an Adonis—and he will pardon us for suggesting that he is not—he might with better grace ridicule the appearance of a young political opponent. But at the same time it is not good politics.

Don't forget that, although asked in these columns about a score of times, the Stephens organ hasn't yet dared to give any reason why George Stephens was afraid to let Reeve Purser and Councillor Boyer speak at his Dover meetings after challenging them to be present.

NOTHING LOOSENS UP COLDS

On the chest and relieves that tight feeling and hard cough like Nerviline, writes E. P. Benshall, of Sutton. "I never used any other remedy but Nerviline and find it serves as a general household liniment best of all. Children's colds and inflammatory pains are quickly cured by Nerviline, and its action on colds, coughs and sore throat is unequalled by anything I ever used. Nerviline is both powerful, pleasant and reliable." Every mother should use Nerviline. Price 25c.

Manhood cannot grow under patronage.

Sore Throat and Coughs

A simple, effective and safe remedy for all throat irritations is found in

NEW MARKET FOR CHATHAM

Prospects at Last Point to the Securing of the Much Needed Building—By-Law Prepared

Ald. Edmondson Submits the Proposition—Other Business at the City Council Session

The City Council meeting last night was short but business like. There was not much new business outside of the regular routine and the passing of accounts. Probably the most important matter brought up was the proposed erection of a new market building.

Ald. Edmondson brought the matter up. He said that in committee he and Ald. Westman had disagreed as to the kind of building to be erected. He himself was in favor of erecting a whole new market but Ald. Westman was in favor of repairing the present market and erecting a new market shed. Ald. Edmondson thought the council should erect some building from which the city could derive some benefit in the way of rents.

The Mayor—On the same plan as the Government owned railway, as it were.

Ald. Westman thought that the present walls and foundations of the market building are as good as could be erected.

The Mayor—What will a new market cost?

Ald. Edmondson—About \$35,000. I would like to have a by-law prepared and submitted next January. There is a good up-to-date market in Woodstock. I would like the Mayor to appoint a committee to go to Woodstock and see their market and then report back to the council on the information gained.

Ald. Piggott—I move Ald. Martin goes. He criticized me when I went to Detroit on the Lake Erie question and I would like to see if he could get as much information about markets as I did about railways.

Ald. Martin—I am sure they would be very courteous to me.

The Mayor—If Ald. Martin can get as much valuable information as Ald. Piggott got in Detroit, we had better send him.

The Mayor was in favor of a free market shed but Ald. Edmondson pointed out that a new market building could be made a source of revenue to the city in the way of rentals for meat markets, etc. It would be a good building to hold Police Court in so that the present unsanitary Police Court could be done away with. It was decided that the Property Committee and an architect should go to Woodstock, see the Woodstock market and then report at the next meeting on the information obtained. A by-law will in all probability be submitted at the next municipal election.

There were present at the meeting Mayor McKeough, and Alds. Marshall, McKeough, Westman, Edmondson and Martin.

The Collegiate Institute Board asked for \$1,330 from the Council for salaries and books. The request was granted.

This will make the Collegiate Board overdraw their estimates.

The Mayor explained that the Board of Health have provided an isolation hospital on the corner of St. Clair and Poplar Streets, for the treatment of diphtheria patients and other contagious diseases.

The Massillon Fire Brick Co. offered blocks for sale at reduced prices.—Referred to Board of Works.

A communication from the Warren Paving Company re the cheque held back by the city for improvements to Queen Street, was received.

A request from E. Wint to cut down a tree, was referred to the Chief of Police.

R. J. Marshall asked permission to use punching machines, etc., in his shooting gallery.—Received.

A communication was received from Blight & Fielder, notified the council that this firm would not be responsible for damage done to their walk put down in the rear of McCorvie's store, as the walk had received improper treatment.

A resolution from the Police Commissioners, appointing A. Mounter truant officer, at a salary of \$12 per month, was received. This was considered by the council a wise move on the part of the commissioners.

The Bell Telephone Company asked permission to erect poles on Adelaide Street.—Referred to Property Committee.

The Chaplin Wheel Works asked for a fire alarm box to be placed near their factory.—Referred to Property Committee.

Owen Sawyer asked permission to haul earth from the city lot to fill in his new property on the corner of 7th Street and Stanley Avenue. He was willing to pay for the earth.—Referred to the Engineer with power.

Ald. Edmondson drew attention to a bad sidewalk on Selkirk St.

Ald. Martin asked for the answer of the Finance Committee in reference to the claim for damages of Mr. Tyrell. It was referred to the Finance Committee some time ago.

Ald. Martin—I am his solicitor.

Ald. Marshall—I gave no advice in the matter.

Ald. Martin—I am not asking advice. I want your answer.

Ald. Marshall—We disclaim any liability.

Ald. Martin—Why didn't you say that before. I didn't go to Ald. Marshall for advice.

Ald. Marshall—You might go to some one worse.

Ald. Martin—That may be so, but it's my business.

ANOTHER WEEK OF Big Dress Goods Selling

We start off November Month with the best Dress Goods Values we have offered this season. Every yard of these goods were bought this season and is of the latest style, weave and colorings. The prices you will find to be fully 15 to 25 per cent. lower than you would be asked to pay for equal qualities elsewhere—see these before you buy.

Rich heavy pure silk, French feta, full yard wide, best dye finish, will not cut, much better where at \$1.25 a yard, our special at

SEVEN STORES The NORTHWAY CO'Y, Limited TWO FACTORIES

Ald. Piggott brought up a request from the Canada Flour Mills Company to put down another spur in front of their property.—Referred to the Industrial Committee.

Ald. McKeough moved that the amount held back from Pollock, Kennedy and Beatty as a guarantee of their work of cleaning the streets be paid back to these gentlemen, as their work has been highly satisfactory.

The motion was seconded by Ald. Piggott.

The matter of putting down a drain on Sandys street came up. Tenders were asked for and the Council is now waiting on the Township of Dover to see if they will bear their part of the expenses. The matter was left to the Board of Works with power to go on with the work as soon as word is heard from the Dover Council.

In reference to the request of L. J. Marshall, Ald. Westman notified the Council that he would bring in a motion to amend the by-law in order to let Mr. Marshall run these machines for a fee of \$12 per month. The machines are a grip test, punching machine and a machine for the trial of strength.

The matter of settling with the Dominion Paving Co. re \$321.30 held back for improvements to pavements put down in Chatham was left with the Board of Works with power.

A by-law to amend by-law 846 was put through its several readings and finally passed.

The following accounts were dealt with:

Gas Co., \$12.65—referred.

R. W. Turner, \$2.04.

Park Bros, 80c.

Blight & Fielder, \$118.45.

Blight & Fielder, \$160.00.

Samuel Glenn & Sons, \$125.

McKeough & Trotter, \$13.75.

WHAT IT IS

The Mucous Membrane and the Important Part it Plays in the Health or Sickness of the Body.

The Mucous Membrane is the inside lining of the body, and of all its vessels and organs. The moment this mucous membrane becomes out of condition, never so little, illness, follows swiftly, in some form or other.

In ninety-nine cases of a hundred disease has its beginning in some derangement of this Mucous Membrane.

It is very delicate and extremely sensitive, and consequently very liable to disease.

If you are not feeling well you may be sure that the Mucous Membrane of some organ is sick and requires immediate treatment.

There is one medicine that is intended to act, and does act, directly and curatively on the Mucous Membrane. It is Dr. Leonard's Anti-Pill.

Dyspepsia, Bileusness, and Constipation disappear as soon as Dr. Leonard's Anti-Pill has restored the Mucous Membrane to its natural healthy condition. 50 cents a bottle, at all Druggists, or The Wilson-Fyle Co., Limited, Niagara Falls, Ont. Sole agents for Canada.
