shows the highest temperature for every day.
The column for Minimum Thermometer
shows the lowest temperature for every day.

Miscellaneous.

FOOD FOR CONSUMPTIVES.

**Scott's Emulsion of Cod Liver Oil with
Hypophosphites,** is a most wonderful
food. It not only gives strength and in-
creases the flesh but heals the irritation of
the throat and lungs. Palatable as
milk and in all wasting diseases, both
for adults and children, is a marvellous
food and medicine. n 17-4w.

Wanted.—The name of the goldsmith

who made the wedding ring.
Ayer's Sarsaparilla acts directly and
promptly, purifying and enriching the
blood, removing the impurities, strength-
ening the nerves, and invigorating the
system. It is, in the truest sense, an
alternative medicine. Every invalid
should give it a trial.

A girl does not want a chaperone

who has a chap of her own on a Saturday
afternoon.
If people, troubled with colds, will
take Ayer's Cherry Pectoral before go-
ing to church, they will avoid coughing.
The Pectoral soothes and heals the ir-
ritated tissues, and controls all disposition
to cough.

A BENEFACTOR.

If a man is a benefactor who makes
two blades of grass grow where but one
grew before, how much more is he a ben-
efactor who should succeed in doubling
the number of the people of his country.
Such a result is in a fair way to be ac-
complished, and that very soon. The
very best of Shiloh's Catarrh Remedy
to make him say, will not only re-
sult in doubling the egg product, but will
revolutionize the whole poultry industry.
During the autumn of 1885 and winter of
1886, a thorough trial of Shiloh's
Powder to make hens lay, was made by
thousands of intelligent poultry keepers
and the result was most satisfactory and
convincing. Not a man or woman who
made the trial got less than double the
average number of eggs. Because they dis-
turbed me in my writing, dear. "And
did they allow you to understand them
quietly?" that one in the corner
screamed dreadfully. Wife—"That
one in the corner? (Goes and peeps.)
Why, bless me, that's Freddy Schmidt
from next door!"

SHILOH'S CATARRH REMEDY—A

positive cure for Catarrh, Diphtheria and
Canker Mouth. Sold by E. Lee Street.
"The season's over," said Fogg as he
captured the pepper box.
"HACKMATAK," a lasting and fragrant
perfume. Price 25 and 50 cents.—
Sold by E. Lee Street.
The song of the sandwich man is: "O
for a thousand tongues."

SHILOH'S CURE WILL IMMEDIATELY RE-

lieve Croup, Whooping Cough and Bron-
chitis. Sold by E. Lee Street.
The fall style of thermometers are be-
ing built with basement attachments.
n 3 m.

The Providence Star says the chimney-

pot hat now worn by the ladies do
not suit the gentleman.
If any of our readers that are afflicted
with Rheumatism have never tried
West's World's Wonder or Family Lin-
iment, we advise them to do so at once,
and be convinced of its extraordinary
merits. It will positively cure you. It
is a never-failing remedy for Cuts,
Sprains, Bruises, Burns, Scalds, and
quitting external treatment. Price 25
cents and 50 cents per bottle. Sold by
Geo. C. ALLEN, Newcastle; Geo. E. Frost,
Campbellton, Druggists. n 5 m.

It is wrong to speak of a "respectable"

emblem as a "good man gone wrong."
He is a bad man found out.

Investigation.—Every man should be

willing and be willing to be very
anxious to investigate everything which
is so likely to benefit all mankind as the
discovery of Davis' Quinine Iron and
Wine, because it is now being used with
the most beneficial results for Dyspepsia,
Indigestion, General Debility, &c. Price
50 cts. Prepared only by **Geo. H. Davis,**
Frederickton.

A somewhat weather-beaten tramp

being asked what was the matter with
his coat replied: "Innomia; it hasn't
had a nap in ten years."

For Kidney trouble use Minard's Lin-

iment freely internally and externally; it
will relieve you in one hour and make a
permanent cure.

The Leather Reporter has an article

headed "How to take the hide off a calf."
The best way to take the hide off a calf
is to lead the calf into politics.

For cramp in the stomach, cramp, col-

ic, inflammation of the lungs or bowels,
warm Minard's Liniment, rub freely and
cover the affected parts with brown pa-
per well saturated with the Liniment and
take it internally according to directions.
A cure guaranteed.

For Diphtheria, Pains and Lameness

in any part of the body, Sore
Throat, Headache, Neuralgia, Tooth-
ache, Cramps and Colds, use Baird's
Care-All Liniment. Keep it on
hand, it may save your life.

"I think I've covered the whole

ground," remarked a Chicago man in an
argument. "No doubt of it," replied the
St. Louisian; "but if you will lift
up one foot it will give room for the
other four of us to stand."

For Dyspepsia, Debility, Loss of

Appetite, a Stomach and Liver
Tonic, use **Baird's Quinine and Iron**
Tonic. There is no preparation, old
or new, that will so completely cre-
dicate all impurities from the sys-
tem. It makes Pure, Rich Blood.—
Price 50 cents. n 17-2w.

"Sir," said the customs officer to the

traveller who was trying to learn country ways.
"Nothing but your personal wearing ap-
parel is in this trunk." "So I did."—
"Well, how do you account for the pres-
ence of a dozen bottles of brandy?"—
"Oh that's all right. They are night
caps."

THE COMMON SENSE EYE WATER

is the best remedy known for eyes made
weak by overwork, or for inflamed and
sore eyes. Sold at the drug stores—
Try it.

"Say, Pat, whatever made you go to

work for old Uncle Dan? He's the
meanest man in the country." "Man-
y's!" said Pat; "why about here? I
foolish, aisyest-kin country I ever had;
behold! he gives a man fifteen hours to
do a day's work!"

We are pleased to learn that Geo. C.

Allen, Newcastle, Geo. E. Frost, Camp-
bellton, our enterprising druggists, have
received the agency for the truly cele-
brated **West's Pain King**, a certain cure
for all bowel difficulties, colic, cholera
morbus and cholera. Only 25 cts.

Stumps, the farmer, has married a city

girl who is trying to learn country ways.
She has heard her husband say that he
must buy a dog, and responds: "Oh,
yes! I do. I'll buy a dog, a dog, a dog—
He can be a watch dog at night and set
on the eggs all day, for I can't take the
hens set, though I've held them down an
hour at a time."

THE REV. GEO. H. THAYER, of

Bourbon, Ind., says: "Both myself and
wife owe our lives to SHILOH'S CON-
STRICTION CURE." Sold by E. Lee Street.

"Mr. Smith gone abroad, Mrs. Smith?"

"Yes, he is visiting Canada for his
health."
"What, what, what?"
"There was a weakness of the spinal
column of his ledger."

ARE YOU MADE miserable by Indig-

estation, Constipation, Dizziness, Loss
of Appetite, Yellow Skin? Shiloh's
Vitalizer is a positive cure. Sold by E.
Lee Street.

A mild criticism does one good.—

"What was the sermon about this morn-
ing?" asked a mother of her child.
"He said to be good," replied the child.
"Let me see—it was about twenty minutes
too long; that's all I remember."

WHY WILL YOU cough when Shi-

loh's Cure will give immediate relief?
Price 10 cts., 50 cts. and \$1. Sold by E.
Lee Street.

Wife (returning home)—How is this,

Karl? What made you put the children
to bed so soon? "Because they dis-
turbed me in my writing, dear." "And
did they allow you to understand them
quietly?" that one in the corner
screamed dreadfully. Wife—"That
one in the corner? (Goes and peeps.)
Why, bless me, that's Freddy Schmidt
from next door!"

SHILOH'S CATARRH REMEDY—A

positive cure for Catarrh, Diphtheria and
Canker Mouth. Sold by E. Lee Street.
"The season's over," said Fogg as he
captured the pepper box.
"HACKMATAK," a lasting and fragrant
perfume. Price 25 and 50 cents.—
Sold by E. Lee Street.

The song of the sandwich man is: "O

for a thousand tongues."

SHILOH'S CURE WILL IMMEDIATELY RE-

lieve Croup, Whooping Cough and Bron-
chitis. Sold by E. Lee Street.
The fall style of thermometers are be-
ing built with basement attachments.
n 3 m.

FOR DYSPEPSIA and Liver Compl-

plaint, you have a printed guarantee on
every bottle of Shiloh's Vitalizer. It
never fails to cure. Sold by E. Lee Street.

A NASAL INJECTOR free with each

bottle of Shiloh's Catarrh Remedy.—
Price 50 cents. Sold by E. Lee Street.
William Smith sat down hard on a can
of dynamite. Later on his wife went
around and collected her bill.

Read the advertisements of seed,
stock, etc.
The Jersey is styled the "gentle-
man's cow."—*Farmer's Advocate.*

THE COUNTRY BOY.

The country lad who is trained to
simple ways and homely virtues, and
who learns while a dollar is worth by
actually earning it, under the laws
of imperative necessity, has a trem-
endous advantage over the town boy.
The country schools are far in-
ferior to the town or city school,
but this is counter-balanced by the
fact that the country boy is trained
to work from the time he can pick
up corn cobs to run the kitchen stove,
till he goes out to his own home.

The country boy has a mile or so to

walk to and from school which gives
him vigorous appetite and health.—
The country boy or girl is face to
face with practical realities. He
sees how slowly money is made on
the farm; he is taught from youth
up the need of economy; he has the
nature of saving first explained to
him every day in the week; he is
not exposed to the temptation of the
saloon or ball-room; he is not tempt-
ed so much to be a lady's man before
he has occasion to use a razor on his
downy cheeks. He may be a trifle
rude, he may not feel easy in com-
pany, but in the long, closely con-
tested race of life, it is the clasp that
trudges to school bare-footed in sum-
mer and in stags in winter, whose
mother cuts his hair with the sheep
shears, and leads the chap that goes
to the city school with the starched
shirt front and fancy slippers, and
whose head is shaved with the lawn
mower in the barber shop.

Such has been our observation, and

we think we know what we are talk-
ing about. Speaking from experi-
ence, we never read any book with
such avidity as those we devoured
while the horses were resting at the
end of the plow land. The boys we
envied forty years ago, because they
were cassimere and laughed at our
jeans, have dropped so far back in
the race that we have almost forgot-
ten the name of the champion who
of money at college, and the city-
bred fellows, have not been as a rule
heard from much since; while the
country boys who wore the plain
clothes and kept close to their books
in the old college, are leading the
thought in Iowa and other States to-
day.—*Iowa Homestead.*

VALUE OF FALL PLOWING.

In the Northwest fall plowing is
the rule. With us in Western New
York it is the exception. It is prob-
able that in many cases plowing
so late in the fall, which we intend
to plant in the spring, is injurious
rather than beneficial. Further-
more, we can plow soil land in the
spring when other land is too wet
to work. In this section, therefore,
and still more in sections where the
winters are milder, we are willing to
admit that there is usually little to
be gained by fall plowing and har-
rowing, but in the case of corn-stubble
or any other land not in grass or clover,
we can see no possible objection to
fall plowing. There is nothing
growing on the land, and whether
plowed or not plowed, there is just
as much danger of loss of nitrates
from washing in the one case as the
other, and the advantage of plowing
is certainly very great. At this ses-
son of the year land is in admirable
condition for plowing. We are not
very busy with our horses, and
every acre we plough now is an acre
less to plough in the spring. Any
raw clay soil that is turned up now
is exposed to the ameliorating ac-
tion of sun, air and frost. But the
great and paramount advantage lies
in the fact that we can get our spring
crops in several days or even weeks
earlier, and we are not so hurried
that we cannot do the work properly.
It is a grand thing at all times to be
able to push the work and not let
the work push you.

ORCHARD AND FRUIT GAR-

DEN IN NOVEMBER.
Caring for and disposing of the
harvested crops, and extending the
plantations, whether of orchard or
small fruits, will make this, in mild
localities, a busy month. Care of
what we have should be the first con-
sideration. See that fences and
gates are secure for the winter.
Young trees in windy places may
have a mound of earth drawn up to
their trunks to stiffen them, or they
may be staked. A mound of earth
a foot high will keep away mice.—
Trap or shoot rabbits; they are fat
and good at this season.—**Planting**
Trees.—Where the autumn is mild,
apple trees may be planted. For
planting next spring, order trees
now and heel them in, to be ready
for planting. If not already done,
make a list of the orchard, so that
the name of each tree may be known
by its position.—**Keep Apples** in
barrels under a shed until freezing
weather; then take to the cellar,
which should be kept open as long
as possible.—**Cider** should be made
in cool weather, when fermentation
can go on slowly.—**Prune** grape-
vines and currant bushes, saving the
prunings for cuttings.—**Raspberries.**
Bend down the canes of tender sorts

and cover with earth.—*Strawberries.*

Cover the beds with straw. Cus-
tards are a good substitute.—*Amer-*
ican Agriculturist for November.

FISH OFFAL.

Hitherto, owing to the absence of
any important manufacturing indus-
try along the coast of the Gulf of St.
Lawrence, an immense quantity of
fish offal, which could have been con-
verted into excellent artificial man-
ure, has been thrown away and
wasted. This state of things, we
are glad to hear, will not continue.
A sample has recently been received
in London of fish guano, manufac-
tured by Mr. Emile Bonnet, on the
coast of Gaspe which will compare
with advantage with other similar
articles introduced into our markets.
This sample has been submitted for
analysis to Messrs. Willis & Woot-
ton, and they report as follows:—

Guano of fish bones..... 50 per cent.
Nitrogen (calculated as ammonia)..... 6 per cent.
Phosphoric acid..... 14 per cent.
Ash (consisting principally of cal-
cium and potassium phosphate)..... 22 per cent.
Moisture..... 6 per cent.
