Uric acid in the blood is the cause of nearly all disease, it visits every part of the body and is liable to fasten disease on any organ; the duty of the kidneys is to extract waste from the blood; a cold will stop this action, a pain in the back follows, and unless relief is obtained, permanent inability of the kidneys to perform their functions follows, which may terminate in liver complaint, dyspepsia, blood disease, dropsy, diabetes or Bright's disease. Dodd's Kidney Pills assist the kidneys to natural work, and cure all complaints and results arising from the same.
