

LIVELY TIMES IN ERIN.

Many a Knock-Down Argument Used at Political Meetings.

POLICE PROTECT O'BRIEN.

A Dublin cable says: A serious political riot took place at Waterford on Friday night. Two political meetings were held in different parts of the city. At one, the principal speaker was Mr. J. E. Redmond (Parnellite), who represented Waterford city in the last Parliament. At the other meeting Mr. David Sheehy (Anti-Parnellite), who sat for South Louth, was the principal speaker. Both meetings were well attended, and the usual style of campaign oratory was indulged in. There was some trouble at the meetings, but later the supporters of the Parnellite faction, headed by a band, stormed Mr. Sheehy's committee-room. The Anti-Parnellites fought the attackers desperately, but the latter were in too strong force. The police charged the assailants, but their efforts were useless, and the committee-room was captured. During the fight many of the participants on both sides were wounded, including Mr. Sheehy, who was wounded in three places. Several arrests were made.

While Mr. William O'Brien was addressing a meeting at Limerick in support of the candidature of Mr. F. A. O'Keefe (Anti-Parnellite), the assemblage was attacked by a band of Parnellites armed with sticks. A fierce fight followed, during which several of the participants were wounded. The police arrested the rioters, and escorted Mr. O'Brien to his hotel.

Mr. Timothy Healy addressed a meeting in Dundalk to day in the evening, and held a similar one for North Louth. The town was the scene of violent disorder all day. Prior to Mr. Healy's arrival a number of contingents of his country supporters on entering the town were attacked by Parnellites and a serious fight ensued, many being badly injured. When Mr. Healy arrived, his supporters paraded the town and frequent fights occurred along the line of march. The meeting which was held in the afternoon in the market square was attacked by Parnellites with sticks and stones. The Parnellites were repulsed after a fierce contest, in which many were injured on both sides. Afterward the police kept the two factions separated. Fighting was renewed later in the evening.

A DASTARDLY SCOUNDREL.

Impersonated a Marshal and Abducted Fourteen Girls. Springfield, Ill., despatch says: In a recent case, a man named James J. McCarthy, pleaded guilty to six indictments for abducting fourteen girls. He operated extensively in the western portions of the country, and women are numbered among those who were injured on both sides. After getting them away from their friends, frightened them to their will. No fewer than twenty women testified against him in a grand jury. It is thought that the man had a marshal's pose in the United States, and a marshal's pose in the United States, and a marshal's pose in the United States.

Browned in a Cistern.

Am. July 3—Lieut. Col. Salter M. ... yesterday in a very melancholy mood. He was found by his family dead in the basement of his house in connection with a system of kerosene. The cause of his death is that while inspecting the cistern he was seized with a fainting fit and fell in. The deceased was a Republican and a member of the Queen's Own. In politics a Conservative, and in religion an Episcopalian. He leaves a widow and two children.

Burglars at Newmarket.

NEWMARKET, July 3.—Yesterday evening two burly, suspicious-looking men were seen prowling about the town. They are the parties who broke into the G. T. R. station during the night. The locks of every room were smashed, but only four cents were secured from the till. They then forced the doors of the freight sheds adjoining and looted themselves with liquor, some cases of which were stored there. It appears the same interesting routine has been followed by them at Richmond Hill, King and Aurora stations, and detectives are now on their track.

THE DANGEROUS WAR CANOE.

Six Members of the Grand Trunk Boating Club Drowned.

HELP REACHES ELEVEN.

A Montreal despatch says: The St. Lawrence River opposite Montreal was the scene of a terrible boating fatality yesterday afternoon by which the lives of six young men were lost. Early in the afternoon a party of 17 members of the Grand Trunk Boating Club rowed over to St. Helen's Island, the canoe is 32 feet long, and has just room for 17 people. The men spent the afternoon on St. Helen's Island, the current in this portion of the St. Lawrence is very strong and treacherous. The canoe had just reached Moffat's Island, opposite the St. Lambert's wharf, when it gave a sudden lurch, and without a moment's warning the canoe was capsized and the 17 men were thrown into the rapid current. The accident was so sudden that the occupants of the canoe were wholly unprepared, and a desperate struggle for life ensued. Nearly all the young fellows could swim, and those who could made for the shore. Fortunately the accident had been noticed by some men who were bathing on Moffat's Island, and they at once took to their boat and made to the rescue of the capsized canoe. People also put out from St. Lambert's shore, and eleven of the men were picked up. Six of the occupants of the canoe were drowned before they could be rescued.

The following are the names of the drowned: Thomas O'Brien, 22 years old, captain of the canoe, employed in the Canadian Pacific Railway, and living with his folks on Burgess street, Point St. Charles; Howard Hanson, 23 years old, employed in the Canadian Pacific Railway, the only son of his family, who live on Magdalen street, Point St. Charles; Ernest Lee, 20 years old, employed in the rolling mill, Paris street, Point St. Charles; Edwin Steep, 20 years old, employed in the Singer Sewing Machine Co., and living on Legarde street, Point St. Charles; John Milligan, 23 years old, employed in J. Whitaker's boot and shoe factory, living with his family on Conde street, Point St. Charles; a young man whose name has not been ascertained, but who accompanied one of the members. The rescued were brought to St. Helen's Island and then taken home. The bodies of the drowned will probably be carried some distance down the river by the strong current.

ARE YOU A MOTHER?

If You Are, This Will Interest You. Just a word to mothers who are obliged to feed baby artificially. There is nothing more neglected than the "feeding bottle," and a large measure of baby's happiness depends upon it. The "feeding bottle" and "teats" should be attended to with the most scrupulous attention. After feeding baby, the bottle should be put in ice cold water to which should be added a teaspoonful of good baking soda to each pint of water. The "teats" should also be placed in this same solution in order to prevent them becoming sour.

Good should never be put into an unwashed "feeding bottle"; and food should not be allowed to remain in the bottle after feeding, and fed again in the child's interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphia, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves.

Babies fed regularly on Lactated Food as indicated above will be strong, healthy and vigorous; they will sleep well and soundly, and will pass safely through the excessively hot weather. We strongly advise mothers to try the celebrated Lactated Food. Already it has become a household word from the Atlantic to the Pacific, and thousands of little lives have been saved by its use.

DANN BEHIND THE BARS.

The Buffalo Bank Defaulter's Debt Growing Bigger Hourly. A Buffalo despatch says: Bank defaulter Dann was arrested yesterday on a warrant secured by Ald. John White. Dann is now confined in the police cells, where he will probably remain until at least the 4th. The amount of bail has been fixed at \$100,000. Ald. White's party has put \$3,014.34 to his credit, while the bank ledger showed but \$434. Dann paid over \$10,000 to the bank on Friday, but within an hour after work was through the bank yesterday morning this amount was swept out of existence. New discoveries during this time aggregated \$10,000 deficit. The total deficit is not known, but it is estimated at from \$300,000 to \$500,000.

Suspected Horse Thief Caught.

WELLAND, July 2.—A man giving his name as Frank Armstrong was brought before Police Magistrate Helms to-day for horse stealing. The theft was committed in Brantford or vicinity, and the thieves have been a week or so driving to the American border. One escaped after being fired at, but the other was captured by Constables Augustine and Snider at Humberstone. The criminals are evidently experienced hands at the business. The prisoner will be sent up for trial.
