

HOCKEY TEAM.

Brantford Players Hurt in the Railway Accident.

Will Rebuild—Organized a Citizens' League.

(Special Despatch to the Times.) Brantford, Jan. 15.—In spite of the severe blow to the Brantford professional hockey team in yesterday's wreck near Guelph on the Grand Trunk Railway, Manager Brown has been active in securing stars to replace the injured men, Markes and Miller, who will probably play no more as a result of their injuries; Ward and Laviolette of MacNamara, of the Montreal Shamrocks, will play against Galt to-night in this city. News of the serious injuries to Marks and Miller caused a gloom here last evening, where the public has gone hockey mad, in the effort being put forth to contend for the Stanley Cup. The team has not lost a game in the Ontario League thus far, and was going at a fast clip when yesterday's hard luck was experienced. Marks had no superior as a right wing player, his speed and checking ability being wonderful. With an arm broken in six places below the elbow, two ribs fractured and hurt internally, the player will hardly venture in the strenuous game again. Miller's hand is lacerated to the bone, while his hip is said to be badly hurt. Both are at the hospital in this city.

ABOUT THE DISASTER. Messrs. Fred Westbrook and Hugh Howie, who were in the front coach of the train, told a thrilling story of the wreck of the rear coach when interviewed last night. They were among the more fortunate of the passengers, and were untouched. When the rear coach left the rails, the whole train shook sufficiently to tear off the hat hooks on the wall. For a hundred yards the rear coach hit the ties and rails in a tremendous crash before it finally broke loose. Marks, Miller, Smith, James Bradley, Tom Hutton and the women in the car all extricated themselves, but as soon as they were freed from the debris collapsed from the terrible shock. Mr. Westbrook stated last night that nothing but a miracle prevented a big death list of the 25 passengers in the car, which was dragged for 100 yards on its side until it remained a splintered, disjointed mass of broken glass, twisted iron and debris.

GENERAL NOTES. Hon. James Duff gave an address in the council chamber last night to the horticulturists of the city. The attendance was small. Manager Hampel, of the paper box factory, which was destroyed by fire here early yesterday morning, announced last evening that rebuilding operations will be commenced immediately. The dairymen's convention, which was the most successful gathering in the history of the association of western Ontario, closed here last night. The Citizens' League was permanently organized at a meeting in Welland Hall last evening, and the canvass of all the words in the interests of local option will be commenced immediately.

HELD UP

But Dramatic Company Got Good Horses in Hamilton.

The big western dramatic company which will present "Bucco in Arizona" here arrived in this city this morning, coming from Buffalo in their own special cars. At the border their horses were stopped by Canadian officials on account of the Government regulations to prevent the introduction of the foot and mouth disease among horses and cattle. Arrangements were made with local livestock keepers, however, for a supply of horses for the performances here. A band of Indians is with the company.

AN UNUSUAL EVENT.

In another column will be found the announcement from Mr. Norman Ellis, before stock taking had decided to give his many patrons the benefit of a 25 per cent. reduction on every article in the store. This should prove a boon to close buyers, as it is seldom an opportunity presents itself of this character, particularly when the goods are all up-to-date and purchased for the Christmas season. Diamond rings, ranging from \$5 to \$500, are to be found, perfect gems, bearing their personal guarantee. Sterling silver and silver plate from the best English and Canadian manufacturers. For those who contemplate purchasing wedding gifts this affords an exceptional opportunity to get them at wholesale prices. Buy now, as the sale will not last long.

Ashes Replace Coal.

The use of ashes for replacing pillars in coal mines is being extensively practiced in the anthracite region in the vicinity of Scranton, Pa. At a number of large power plants in these mining regions the ashes are flushed into the vacated workings by water carried in flood-enough troughs, which are diverted to fill abandoned breaks or gangways. After this filling it is usually found possible to remove the pillars of coal which were left during the mining.

Saturday \$7.00

Judging from the heavy selling here all this week and from the number of people who have been watching our windows we are going to have a big day on Saturday, when the price will be \$7.00 for your choice of about 200 men's and young men's suits and overcoats, which we sold regular at \$10.00, \$12.00, \$13.50, \$15.00 and \$16.00.

Remember, every garment in this lot is from our own big wholesale tailors—the Sanford Co.—and it is this means we adopt to clear out all the lines we do not want to carry over into another season. We keep our two big windows filled with sample garments—Suits and Overcoats—of the best lines on sale each day, so of course, the best lines are sure to be sold first. For Saturday the Sack Suits are mostly good tweeds and chevots and some smooth finished worsted, nearly all dark colors, of course. Then there are some morning coat suits of plain black worsted—real fine qualities. The Overcoats are plain black beavers, meltons, vicunas, and Oxford grey chevots and tweeds in both light and dark mixtures. Watch our windows.

CAUSE OF STRIKE

New York, Jan. 15.—Seventy-five hat factories employing from 20,000 to 25,000 persons will be affected by a decision of the Associated Hat Manufacturers, promulgated to-day, to discontinue the use of the union label in all the factories represented in the association. The issuance of the order was followed by strikes in the hat factories of Orange, N. J., where 4,000 men went out and in Brooklyn, where 500 men employed by Samuel Mundheim & Co., went on strike. Samuel Mundheim is president of the Hat Manufacturers' Association. He said to-day that the reason for this action was that the union of employees had failed to keep a working agreement made with the Geyer Hat Co., of Philadelphia. Under this agreement, he said, the men were to continue work pending a settlement of disputes by arbitration, but that the men quit work in that factory three weeks ago and have since refused to return, although the manufacturers have been trying to induce them to do so.
