The Right Brush

HE is using the Pro-phy-lac-tic Tooth Brush, brushing the upper teeth downward and the lower teeth upward, and employing a rotary motion so that the twisted bristles can reach between the teeth. The curved handle enables him to clean even the backs of his back teeth.

Save your teeth and your money by visiting your dentist four times a year.

Frequent examinations cost little—delays are expensive.

Clean the teeth regularly twice a day with the Pro-phy-lac-tic Tooth Brush.

Adult's, youth's, and child's sizes. Always sold in the yellow box. For sale by leading druggists.

Distributed in N.Y. by
 GERALD S. DOYLE,
 St. John's.
