Will the Hohenzollerns Return?

Following the German elections, it was found impossible to form a party capable of undertaking the responsibilities, or backed by a sufficient majority, to make its position secure. Several attempts to create a Coalition Government failed, and then Dr. Luther, who had never made any secret of his sympathy with the Nationalists, submitted to President Ebert a list of Cabinet Ministers which was accepted.

Among those who have been appointed to office are Martin Schiele, Minister of the Interior; Count Kanitz, Minister of Food, and Herr Neuhaus, Minister of Economics. The latter, when the Republic was established, refused to take the oath to the new Constitution and resigned his post. Other appointments are Drs. Stinger, Brauns and Gessler, who occupy the departments of Posts, Labour and Defense respectively. These men have all been recruited from the Nationalist Party, which stands openly and avowedly for the Junkers or Hohenzollerns. Dr. Stresemann's retention of the Foreign Office may be taken as an indication that the Dawes Plan will not be upset.

The German Republicans view with considerable misgiving the placing of the reins of Government in the hands of the Luther Ministry, and that their fears are not unwarranted, is shown by the fact that already the Cabinet have discussed the question of the restoration of the Monarchy.

The oath of office which the holders are obliged to take reads as follows:—"I swear fidelity to the constitution, obedience to the laws and the conscientious performance of my public duties." The general terms of the oath, and the latitude of interpretation which it allows have made it possible even for the most ardent opponent of the present constitution to take it, and save his conscience at the same time. As a matter of fact, one of the members of the Party is also a member of the Monarchist Order of St. John, an organization which requires of its supporters an oath of allegiance to the King of Prussia.

Time will show to what extent the fears of the Republicans are justified, but the enthusiasm with which the ex-Crown Prince has been received wherever he has made a public appearance since his return from exile is sufficient to indicate that the regard in which the world's greatest assassin and his brood was formerly held still exists.

Bird Hunters Rescued by Tug

Yesterday Inspector General Hutchings was informed that two men in an open boat were adrift about two miles off the Narrows. He communicated with the Minister of Marine and Fisheries who quickly dispatched a tug to the rescue. The men had been out bird shooting and failed to make land owing to a fog. They attracted the attention of the keepers of Cabot Tower and Fort Amherst by firing guns and putting up a signal of distress.

A PROBABILITY.—It is probable that Farquhar & Co. will send the Stella Maria to the icefields this year. The ship it is said will prosecute the fishery in the Gulf.

St. Andrew's Congregation

UNANIMOUS FOR FEDERATION.

Mr. J. C. Hepburn presided and a large gathering attended the special meeting of the congregation of St. Andrew's last night when the following resolution was discussed and passed unanimously:—

"Realizing that success in life depends to a considerable extent upon education, and that co-operation of all educational effort would be productive of greater efficiency with decreased expenditure; BE IT RESOLVED, that the congregation of St. Andrew's Presbyterian Church, of St. John's, Newfoundland, declares itself in favour of federation with the various educational bodies in St. John's or such of these as are willing to become a part of such federation, and that the persons being Directors from time to time of the Presbyterian College, together with such others as the congregation may nominate, be appointed a Committee and empowered to meet with representatives of other educational bodies, and to negotiate and report to the congregation for their approval."

A committee consisting of Messrs. D. Baird, J. C. Hepburn, Dr. N. S. Fraser, C. U. Henderson, (Secretary of the Congregation) and J. H. Baird, (Treasurer of the Board of Managers) was appointed with the School Board to carry on the negotiations. The above will confer with the Board of Governors of the Methodist College and any other body which takes to associate itself with this educational movement. Following the general meeting the Board of St. Andrew's met and discussed various matters in connection with the movement generally.

Laird as Singer

Mr. Hugh Campbell, who gave a vocal recital at Aeolian Hall recently, is grand-nephew and heir of Sir Henry Campbell-Bannerman, and laird of Strachan, Brechin. He is taking up singing as a profession, after having studied at the Royal College, and under Mr. Plunket Greene.

His Career. Educated at Winchester and Trinity College, Oxford, Mr. Campbell, who is now in his thirty-sixth year, became assistant private secretary to Sir John Anderson at the Colonial Office in 1913. During the war he acted as a liaison officer with the Black Watch and for some time in 1917 acted as A.D.C. to the Governor of Newfoundland.

Installing Wireless

Mr. W. A. Brown, assistant superintendent of the Marconi Company, is at present engaged installing a new wireless apparatus for the steamer "Thetis". The job will take about three weeks to complete. The wireless sets on board the other ships will be thoroughly overhauled and tested by the Marconi people before they make their departure.

Festival of St. Blaz Observed at Long Hr.

The festival day of St. Blaz was celebrated with great pomp and ceremony in St. Jerome's Church, Long Harbour yesterday, February 3rd. Rev. Francis Cacciola sang the High Mass and preached a glowing sermon on the life and labors of the Saintly Bishop, who underwent terrible sufferings under the impious emperor Diocletian. St. Blaz bishop and martyr wrought many cures and is called the patron of sore throats. The blessing of the throats of the people and children by the pastor, Rev. Francis Cacciola of Bar Harbor parish was observed at the close of Mass yesterday in St. Jerome's Church, Long Harbour and its dependencies.—COM.

Llewellyn Club

Rev. J. B. Elliott, President of the Llewellyn Club, will continue his course of lectures. The subject for tonight is: "John Wesley, The Power of Christ to Quicken." After the lecture there will be an informal debate on Interdenominational Education, and an interesting evening is assured all who attend.

Shipping.

S.S. Sable 1, left St. Pierre 4 p.m. yesterday and is due here this afternoon.
S.S. Silvia left New York at noon Wednesday and leaves Halifax on Saturday.

"My Irish Cinderella"

The greatest attraction this season Mr. Perrin presents to your view is the Artie Marks Players, so plainly will give of their best to your view. So visit to-night the Casino. And you will declare, we are sure, that such a show never was seen in our dear native city before.

Come each pretty lass, bring your "fellah".
Marks Players are all reckoned smart. Come see "MY IRISH CINDERELLA".
The better than "Peg O' My Heart".
Six big vaudeville acts in addition.
And all of them breezy and bright.
You'll be VEEED if you make an omission.

By not going to see them to-night.

Merle Scott is a girl smart and winning.

The Violin sweetly she'll play.

Billy Phillips will keep you all grinning.

With his antics and jokes of the day.

A master of dance never taught in His school such a pupil I bet.

As the nimble Miss Bessie McNaughton.

Whose known as the dancing Soubrette.

With Song, Act and Dance, you'll feel gaily.

Marks Players are all a fine lot.

I know it, because my poor wife, Clarence Kane sing, see Jim Daley.

Whom they designate "The Jolly Scot".

You'll forget all about the cold weather.

For your heart they'll make happy and bright.

WITH A BREEZE FROM THE LAND OF THE HEATHER.

SO BOOK FOR CASINO TO-NIGHT.

Tentative arrangements have been made between the Governments and the Company from time to time in order to stage off a closing down of the mines or to further relieve the company from complying with the full terms of their agreement. If it is found that any branch of agreement has taken place in this instance, it should be made the occasion for a complete understanding to be arrived at without further delay.

PEPYS BEHIND THE SCENES.

Feb. 4th.—This day, meeting Povey, he tells me the Department of the Controller is now closed, and will remain so till Monday next, being that there is now a stock-taking on there. This annoys me greatly, since if I had known it before, I might have bought me enough ale for the weekend and am now left without a bottle of it. Anon to the apothecary's and to obtain some physicks for my poor wife who has to keep her bed, being in great suffering from her throat, and all because of my neglect, which I am a mighty sorry for. I will take more care of her in the future. Coming home to lunch, the food poorly cooked, and indeed the worst meal I have eaten this long while, which do give me proof of what difference my wife's being well do make.

This afternoon to the hockey game, which is very close, yet a poor game. To Povey's for tea, and then to the Ritz to see the St. John's football team. I have seen the best football game I have yet seen, and might have said that I did give up my place on the Council of the Ritz, being so much to watch this game than to play it. Coming home, do hear how there is again labour trouble on Bell Island, and I believe, because the mine owners would have the men work more hours each day and so obtain greater production than by the system of long 10 hour days, with a bonus for extra cars. Indeed, it do seem how there will never be an end to their labour troubles on the island, and strong action is necessary on the part of the Cabal.

Work at Bell Isle Ceases

INTRODUCTION OF NEW SYSTEM CAUSES FRICITION.

All work at Bell Island mines ceased to-day due to trouble over the introduction of a clock checking system by the Becco management which required the new regulation they would not be permitted to work, and threatening to close down operations. Neither the men nor the Government were made aware that the company intended to introduce this new system. Under the present arrangement it appears the men are required to put in a ten hour day under ground.

For years past the practice has been that the men work on a contract basis—that is, when two shovellers had finished loading their 20 cars of ore they were at liberty to cease work, or they could remain longer and earn a bonus. A short while ago whilst the Commission on the Labrador Boundary was in Canada arrangements were made for the resumption of work at Bell Island and employment was promised for 800 men, on what was thought to be the old terms. At least nothing was said about a new system. The Government is taking the matter up and has wired to the management at Bell Island for full particulars.

From present knowledge the move on the part of the company looks like a breach of agreement. Should this prove to be the case a strong demand may be expected on the part of the Government.

Radiology

(By DR. HAM.)

G.N.R.A. Moncton, is perhaps the best station for Newfoundland Radio Fans. He was certainly good on Tuesday night, and the only fly in the ointment was the squalls and howls from the neighbours.

Radio reception will never reach perfection until we have learned to "Do Unto Others as you would have them Do Unto You." Let this be the Golden Rule of Radio. Moncton has been heard from California to British Isles.

Last Saturday night, Pittsburgh, the pioneer broadcasting station of the world, announced that its programme was being relayed in Germany, and Australia. Radio is world wide.

There has been a decided improvement in the broadcasted programmes from local stations, and everyone, nowadays, is talking valves or catwhisker crystals. You will never be lonely if you own and operate a receiver.

The symmetry dial, etc., on the front of your panel should be a secondary consideration. The efficiency and low loss are synonymous terms in Radio. Therefore see that the parts you use in the construction of your receiver are the best obtainable. Good parts and strict attention to your wiring diagram, make for efficiency and economy. Remember the old saying: "A chain is no stronger than its weakest link."

A New Service

It is stated that Farquhar & Company propose operating a steamer on the South Coast during the coming summer. The ship will be no more needed for all important points between Port aux Basques and Burin. On the following trip the Bay of Islands ports of call will be Moncton, the Stella Maris, will be made. Should this service be put in operation it will mean a big loss to the trade in St. John's as it furnishes a means of direct dealing with the neighbouring continent.

M.C.L.L.—Fifty-eighth Session meets Thursday, Feb. 5th, at 7.45 sharp, in the Rooms of the M.C.A. Queen St. Debater. Resolved: That the general acceptance of a version of Scripture in Contemporary English would help to vitalize religion. Affirmative: Rev. R. E. Fairbairn, Messrs. Watson Clarke, M. Personal

Mr. J. Alderidge, who dislocated his knee cap in the hockey match yesterday, is returning from the hospital to-day, where he was conveyed after the accident, to have the dislocation reduced. We are to learn that apart from the injury he is none the worse from the fall, but will have to rest up for a week or more.

DANCE—To-morrow, Friday, February 6th, (not February 9th and 11th, as previously advertised), "Gaiety" Hall, Music by Charles Foster and his Orchestra. Tickets: Gent's, \$1.00; Ladies', 75c.; at Hutton's and Garrett Byrne's. Last chance to dance to this splendid Orchestra. Feb. 5.

Obituary

MR. ANDREW BLACKWOOD.

A highly respected citizen passed away yesterday in the person of Mr. Andrew G. Blackwood, who had been ill for many months and recently underwent an operation in the hope that it might bring relief.

Mr. Blackwood in spite of his four score years was remarkably active right up to the time of his illness and for the past thirty years was engaged in the commission business. Formerly he was a partner in the firm of Blackwood & Blair which carried on an extensive business on the site at present occupied by the Bank of Nova Scotia Building. Mr. James P. Blackwood, K.C., the senior partner of the law firm of Blackwood, Emerson & Winter, is the only son surviving.

The funeral takes place at 2.30 p.m. on Friday, from 55 LeMarchant Road.

Government Boats

Argyle left Haystack 1.30 p.m. yesterday.

Glencoe left Pushthrough 1.40 p.m. yesterday, coming east.

Kyle leaving Lunenburg this afternoon.

To-Morrow Night's Dance

"GAIETY" HALL.

In Aid of Reduction of Debt on C.C.C.

"Gaiety" Hall.

To-morrow night's Dance at the "Gaiety" Hall promises to eclipse last Thursday's Dance which proved such a splendid success.

The dates have been somewhat conflicting, as first it was advertised to take place on the 11th, then it was changed to the 9th, then put back to the 11th, now it takes place to-morrow (Friday) night, February 6th, definitely. This was due to the fact that the "Silvia" on which the Coloured Artists had booked passage, sails on the afternoon of the 11th, and to-morrow (Friday) will be the last chance to Dance to this wonderful Dance Orchestra. Therefore, get your tickets at Hutton's or G. Byrne's Bookstore to-day, as they are limited to 200. Prices: Gent's, \$1.00; Ladies', 75c. The Dance starts at 9 p.m. to the music of a special Orchestra from the Mount Cashel Band, and they will play extras until the arrival of the Coloured Orchestra at 10 p.m., when there will be a full programme of Dance and Extras. Don't miss this one.—Feb. 5.

Trains Stopped by Birds

Not long ago a bantam held up a train in a Yorkshire station. It had been strutting up and down the line, defying all efforts to catch it, and when a train came in the bantam disappeared beneath the engine. The train could not proceed until the bantam was dislodged, unhurt, from its perch on the axle.

A flock of starlings stopped a train in a curious manner. An engine ran into them while they were on the wing, and the impact knocked the vacuum brake bag from its fastenings, thus pulling up the train.

Similar incidents are by no means uncommon. An engine-driver was startled by the smashing of his look-out window. He was cut about the face and stopped the train, thinking that a hold-up was being attempted. But the accident had been caused by a wild goose which had flown against the glass.

Another train was held up through a partridge flying against the engine lamp and putting it out. This was noticed by a signalman, who stopped the train to demand an explanation.

**New Disease Puzzle**

BOMBAY—It is announced that an apparently new disease has broken out on the Afghanistan frontier, causing many deaths. The symptoms consist in the victims turning yellow and having a violent headache, fever, and a cough. Patients coughing up blood recovered, but if no blood were brought up death followed.

Medical men here are cautious in their opinions on the nature of the disease. One suggests that it may be a new form of pneumonic plague. There are three forms of plague, writes a medical correspondent, the bubonic, the septic, and the pneumonic. The last named attacks the lungs and is very infectious. Cases of the disease in Essex some years ago gave anxiety to the health authorities, but strict measures of isolation put a speedy end to the outbreak.

Town Sinks Ten Feet

FLOOD DISASTER FEARS.

At a meeting of the Ebbw Vale (Monmouthshire) Urban Council, held to discuss means of preventing the flooding of houses and public buildings in the suburb of Cwm, the clerk, Mr. W. A. Jones, stated that he had been informed on reliable authority, that within comparatively recent years the whole township of Cwm had dropped 10 feet owing to subsidences.

Several members expressed the opinion that the erection of a river wall was useless, as the subsidences, helped by a huge shale tip, were rapidly closing in the river.

Mr. Leach, a member of the council from the Cwm district, said that it only needed a slight move in this tip to bring down the whole of it as well as a large proportion of the mountain side, completely blocking the river and flooding out the district.

Mr. Dan Davis suggested that this would blot out the whole of Cwm. The position was alarming.

It was decided to proceed with the erection of a river wall in concrete as an unemployment scheme and to hold a conference with the Ebbw Vale company who own the shale tip.

Cwm is a suburb of Ebbw Vale, with a population of more than 12,000 people. It contains two of the largest collieries in Monmouthshire. The river, which passes through Ebbw Vale, is not very dangerous in normal times, but at the moment it is in high flood and subsidence on a large scale is taking place all over the district.

Neglected

At the Magistrate's Court, Probation Officer James the veil of secrecy was lifted on the case of a resident of St. John's who was charged with children, disclosed a case which Judge Morris used as "a disgrace to the community." Last week the family was filthy surroundings, and the Officer to inquire into the case yesterday, and worthy said he visited Friday morning at 8.00, accused his son, aged 15, sleeping in what was a pound. There was no other way for a person to enter the sleeping quarters, which were in a hole in the wall. The house was said to be a central portion of a building built in lieu of a was piled a heap of manure. The kitchen belonged to the oldest boy, aged 17, who was in the room, and a counter served as a smoky stove complete. There was no fire, and this was used for cooking, and two years ago manure was piled there about the sanitary and Probation Officer said court in the room, a hole chopped in the manure pile. The feature in the story of this was that the child were not hungry when placed on the table was at present in a tenement home. His mother and the other five of the girls ranged from thirteen years. The child himself slept in the kitchen, and the mother, after called, all he could do was to cry. The accused always done every power to make his wife happy and contented. Judge Morris, pointing out, Act empowered him to try of six months imprisonment, anyone who had neglected to do so, and a severe dressing down to have the house made otherwise as he would be sent to the term. The Probation Officer, to see that the child was not neglected, and as a shoeblack, but made several years ago. He is owner of a house, and according to the law has sufficient money to pay for a division of the house, and the other injured the Magistrate.
