stocks closed lower. American securities opened steady but most of the list declined during the first hour under the lead of United States Steel. Later trading and the market closed steady.

Toronto, July 17.—The profit taking by Rio and Sao Paulo shareholders toward the closing of yesterday's market was carried further today. Rio prices suffered the most. The stock always boxing me."

Bobby—"Papa's the captain of our ship and mamma's the pilot." His Teacher—"And what are you "Bobby—"Papa's the captain of our ship and mamma's the pilot." Bobby-"Papa's the captain of our

in one of the largest in the history of the the Carstairs district are making a Carstairs district, as all tame and good growth this year, and with favor-prairie grasses have attained a marprairie grasses have attained a mar-velous growth through the great quanable weather during next month the is bound to be a large one. The large number of sunshiny days during May and June gave an impetus to the crop that will do much toward the ready to start having and fair weather ripening in August. Up to the first of this month ground has been been a good one in this district and a moisture, a condition that was ideal However, so far this month it has been the reverse. Heavy rains coming a cold wave, a rapid development of crop is stopped until warmer weather feature of our climate-it either cangets started. However, all crops This will all be of the finest quality: are now ahead of what they were at this time last year, and it is yet much | growth

state of the weather next month, when with the balance of the season as all grains must do their ripening and prevent the large harvest now in pros pect. Land values will undoubted!; Fall wheat suffered a great deal early this spring, appearing to get be affected with a rising tendency, through the winter in elegant condition, but in March the thawing of days and freezing up of cold nights killed the delicate plants. There considerable acreage in this staple in this district yet which now gives omise of a large yield. Most of it is from two to three feet high and all that stock could do this morning was headed out, and is only waiting for warm weather, when it will come early maturity in good condition.

A large acreage was seeded to spring wheat in this district, and so far it wheat should easily average 170m 35 is testified by the fact that they are parson Burroughs for twenty-five ready for market any day in the year, years or more—about the time his fame quality wheat.

Oats in the Carstairs district are eing from twelve to eighteen inches high, and most of them are about eady to head This is the chief crop of this district, and accordingly the acreage is large. Every field has that riant growth and that they will give a good accounting at maturity. expected average yield is 75 bushels to the acre, and possibly better. The early sowing appears to be in better shape than the rest, and some of the late sowing will make only green feed, but as this has a large feed value i will answer a good purpose. Every year is seeing more and more oats sown for green feed, as it is easy to

Barley is another valuable crop o

Under weakness in stocks was attributed to foreign exchanges, London sending over quotations, some of which were much under yesterday's close. United States Steel was beaviest abroad, the selling being associated with fears of an adverse report by the congressional committee appointed to trick where it is making a good yeld

BURNED AT THE STAKE Horrible Atrocities Disclosed by Foreign Office in Rubber Industry

in Peru. IN ONE NIGHT London, July 17 .- The disclosures as to the state of affairs in the rubber industry in Peru, published in the blue book, just issued by the foreign office as the result of Sir Roger Casement's investigations, attract a great amount of attention and have caused By Breathing the Soothing, Healing comparisons to be drawn between these wholesale atrocities and those at one time reported from the Congo Free State. The British consul general at Rio Janeiro fully confirms the charges It's simply wonderful to think how dujckly a bad throat or catarrh can ish concern, formerly engaged in rub-

This is a primitive country. Drinking and bathing water is drawn from
the sea, condensed, and delivered to
residents in wagons at one-half cent
a gallon.

There is no plumbing and modern
bathroom fittings are conspicuous by
their absence. We use bathtubs for
coughs are removed.

of the lungs, bronchlal tubes, and
