By Way of Comment.

An act passed by the New Zealand Parliament on Sept. 15 last shows that colony to be far in advance of America and England in respect to automobile legislation. It has not only made a grand success in handling the problem of automobile traffic, but it has also made a grand success in handling the problem of automobile traffic.

A bit of turf gossip from the old land says that Mr. Frank Gardner, who won the English title, has sold all his horses in England, but proposes to continue racing in France. Among the lot disposed of was the American-bred Lady Marnsey, who is regarded as one of the best "leppers" in England. She met with an accident shortly before the sale, and instead of the 1000 guineas and more she was expected to fetch, she only commanded 750 guineas, and it is thought will join Mr. Gardner's French stable.

The discipline in both St. Louis teams in 1902 was a great improvement over preceding seasons, says Sporting Life. Donovan deserves commendation for eliminating rowdism from the ranks of the Cardinals. He made some progress in this direction in 1901, but the turbulent element was not altogether subdued. Burkett, who has always defied the umpire and the public, was not so pernicious as he had been under the new regime, but he indulged in an occasional outbreak during a game. Padden was also prominent in several disgraceful scenes. Powell and his associates were also guilty of some of the same kind of conduct.

Barney Dreyfuss can go to his home and dig up a clever player almost any month in the year, but he has not kept the record of the secretaries and will have trouble in finding a successor to Harry Pulliam, who was elected president, secretary and treasurer of the National League. President Dreyfuss admits that his son will be a heavy one, but he says he had too keen an appreciation of the service rendered to him by his friend and assistant to stand in the young man's way when the promotion was offered to Pulliam by the league.

Further onslaughts met a Chinese wall and the game was over.

It is an early day, says the Detroit Press, to begin to talk of our chances of winning the Canada's cup races this year, but a few straws have begun to blow, and we have an idea of what the yachting on this side of the lakes are going to bump up against in Toronto Bay next July.

The Canadians have rather fallen down on the defenders they had in view. Three months ago no less than five different boats were proposed. Then there came a slump in Wall Street and a stock in which a lot of our Canadian brothers had expected to make the price of the boats and something more, and for the time being the dream of the present and it looks as though he would be a very substantial dream, at that.

THE RING.

Pittsburg, Dec. 22.—The much-heralded meeting between Terry McGovern and Young Corbett may be pulled off in Pittsburg. Tonight M. E. McNamara, president of the Emerald Athletic Club, of this city, sent telegrams to the managers of McGovern and Corbett stating that if the fight could not be pulled off in Detroit, he would guarantee to pull it off in this city on the evening of Jan. 16.

McNamara also sent a telegram to Sam Austin asking him if he would come here to referee the fight. As to the terms, the club will likely agree to give McGovern and Corbett 50 per cent of the gross receipts, and the balance for training and other expenses, and liberal purses.

McNamara says he can provide seating capacity for 10,000 people, and he is confident he can pull off the fight without interference.

O'BRIEN CHALLENGES CARTER. Philadelphia, Dec. 22.—Jack O'Brien is so anxious to prove to his friends that he is good at a man's job, that he has decided to concede a great deal to make a challenge issued some days ago by Carter's manager, Joe Macias.

When Carter issued his challenge he agreed to take on O'Brien at 162 pounds, and knock out the great Philadelphia middle-weight or forfeit all claims to the purse.

Now, however, O'Brien says he will allow Carter to weigh 162 pounds at 4 o'clock, the afternoon, and will box the Kid in a ring 20 feet square.

If satisfactory to Carter O'Brien is ready to meet him about the middle of January before the club offering the best inducements.

TO SERVE AS WAITERS. Toledo, Ohio, Dec. 22.—James J. Corbett has offered his services as head waiter at the St. John's dinner to the poor. John L. Sullivan will also assist.

HOCKEY. NOTES OF THE ST. JOHN'S. A. teams has been decided, and the Watford and the two Londoners are in the same bunch, the prospect of a good start is assured for the St. John's A. C. The St. John's last year took the Watford team into camp on two occasions, and are more than confident of repeating the trick this season. At all events, there will be large doings when the old rivals meet.

Claude Waggoner as trainer. Mr. Waggoner is an expert, and has spent two seasons with Johnson, Sanger, and others, the fastest bicycle riders in America.

GROUPING CHANGED.

Toronto, Dec. 22.—Secretary W. A. Buchanan, of the O. H. A. said today in reference to the complaints regarding the grouping of the clubs in the western districts that a mistake had been made in putting the Ingersoll Colts in the junior instead of the intermediate series. The name confused the committee. A rearrangement will be necessary, therefore, in groups of ten and twelve, Watford being transferred from the latter to the former and Ingersoll taking Waterloo's place in group 12, as follows: Group 10—Sewth Regiment (London), Watford, St. John's (London) and Waterloo. Group 12—Woodstock, Simcoe and Ingersoll. Convenor, G. W. Price, Woodstock. Meet at Stratford.

BASEBALL.

A BIG SALARY. During the league meeting word was received from New Orleans that Delahanty had signed with New York for a term of three years for \$8,000 a year. He is to play right field and captain the club when called upon to officiate in that capacity. He received \$8,000, the first year's salary, in advance. His contract calls for pay whether he plays or not.

WILL HOLD DELEHANTY. New York, Dec. 22.—Notwithstanding the threats of some of the American League magnates, the effect that all peace negotiations between the National and the American will cease unless the New York club repudiates its claim to Ed Deleahanty's services, the New York management has no intention of sending that player back to the Washington American League club.

AMERICAN LEAGUE ANNUAL. Chicago, Dec. 22.—The annual meeting of the American League, which was to have been held here today, was changed into a special meeting, and the annual will be held in New York Jan. 1. The principal business transacted today was the appointment of a committee to meet the National League at Cincinnati, Jan. 5, to confer on peace terms between the two baseball organizations. The question was quickly disposed of, however, by the adoption of a resolution giving President Johnson absolute power to appoint his own committee or to be the sole representative of the league at the joint American League. President Johnson thought it would be the better plan to have a committee meet the National League at the conference and so decided. The committee appointed is composed of President Johnson, Charles A. Comiskey, of Chicago, H. Killilea, of Boston, and Charles Somers, of Cleveland. No action was taken in regard to the placing of a team in Pittsburgh. The report that Tom Lottus, of Washington, was to go to New York, to have charge of the American League team in the latter city, was denied by President Johnson.

INDOOR BASEBALL. THE TORONTO WON. Toronto, Dec. 22.—The picked team of Toronto officers scored a big triumph Saturday evening, when they trimmed the Forest City aggregation by 36 runs to 25. The Forty-eight "highlanders" band was in attendance. The 1,200 spectators were quite impartial in cheering the good plays of both sides. The game abounded in sensational plays, in which nearly every player came in for his share of applause. The Toronto won the toss, and chose the bat. They started at once to hit Becker hard, three doubles and three singles, and with the assistance of an error, nine runs were accumulated. After this London never succeeded in getting on even terms. But replaced Becker in the second, and though he was an improvement, he was hardly good enough to stop the hard-hitting locals from slaughtering the leather.

THE RIFLE.

THE DETROIT TOURNAMENT. Detroit, Dec. 20.—The first Grand Sportsman's Handicap shooting tournament will be held at Detroit, Mich., Feb. 10-14, open to the world. This event will be under the auspices of the Tri-State Automobile and Sporting Goods Association; \$500 in cash will be added, besides the Sportsman's Handicap Live Bird Championship trophy, a silver trophy in target event, and a trophy under expert rules, and a trophy under expert rules, and a trophy under expert rules.

that was said to be a coming world-beater, and made a trip to that state to buy him, but found that he was only an ordinary horse after all. While he seemed to him to be all that the one he went to see was claimed to be, and he paid \$2,500 for him and took him back. This horse is called Billy Buck, and in the hands of a countryman he took a record in 2:16 1/4, winning the five races in which he started. When Geers first saw him his front feet were loaded down with immense toe weights and he was otherwise badly rigged. Shod with light shoes the Alabama trotter pleased Geers as few horses have done, and one morning he told the Memphis railbirds he was going to show them something. A rain had fallen the track muddy before Billy Buck was brought out for his trial, but he amazed the onlookers by stripping a mile in 2:13, the last he has made, and the last quarter in 31, and he did it in as good-gaited a way as The Monk could have done it. A big offer was refused for the horse right after his exhibition for Geers thinks he has a really great horse in the gelding. His breeding is not in the height of fashion, although it is good, as he was sired by Saint Cloud, a son of Wilkes Boy, jun., dam by Cleveland, 2:29 1/4, son of Zilecadi Goldust.

THE OAR. WILL NOT ROW AT HENLEY. Ithaca, Dec. 22.—At a meeting of the Cornell Athletic Council, held Saturday night, a resolution discontinuing further consideration of a trip to Henley for the Cornell crews was passed.

DAY RACE FOR CORNELL CREWS AT ITHACA. The day race for Cornell crews at Ithaca and the Poughkeepsie regatta were ratified. It was announced that Harvard and Pennsylvania had already entered crews for the Memorial Day race.

AN IMPORTANT FOOTBALL CONFERENCE OF graduates was also held. Plans for next year were thoroughly discussed, but no coach was engaged. A committee was appointed, consisting of J. W. Buchanan, C. E. Wyckoff and Lynn Tracy, to assist the local football committee in the final selection of the coaches. No definite action was taken on a schedule, but efforts will be made to bring the Princeton game to Ithaca, if such a result is possible.

TALKING ON NEW HENLEY RULE. London, Dec. 20.—Land and Water today says the Henley rule barring professional coaches will have a most satisfactory result in view of the general opinion expressed by the general public. The rule will have little effect on British crews, but the proposal is regarded by foreign crews as a direct discouragement. If their appearance at Henley is desirable they should compete on the same footing. The expense of sending crews to regattas is considerable, and if coaching is also paid for, the poorer clubs are severely handicapped. On the ground of expense, coaching was barred at Oxford some years back. The reported decision of Cornell not to send an eight to Henley seems to be unnecessary, in view of the six clear months' amateur coaching called for.

YACHTING.

A BEAUTIFUL BOAT.

London, Dec. 22.—The Clyde correspondent of the Field is authority for the statement that Messrs. Denny Bros., Dumbarton, "are well forward with the placing of the frames of the Shamrock III. The work of superintending the construction of the yacht is wholly in the hands of Mr. Pife, the designer. As is well known, the Shamrock III. is being built of mild steel, and she will be painted from keel to rail instead of being polished, as in the case of her predecessors. The new challenger will probably show a considerable difference in design from the more recent type in respect to the ground sogg; nevertheless that flat floor, the hull will have an easy full section. In point of fact, the departure is in the direction of providing a safe, strong, and wholesome yacht in place of a racing machine.

FOOTBALL.

GLASGOW 11, CANADIANS 3.

Glasgow, Dec. 20.—The match of the combined teams of Glasgow against the All-Canada footballers resulted in a victory for the Scotchmen by a score of 11 to 3. Rain had made the ground soggy; nevertheless there was a crowd of 4,000 to see the game.

The Canadians put up a great game, and showed a great improvement over their form in Ireland. Glasgow was considered a first-class team and difficult to beat.

Ogilvie and Dumoulin, on the forward line, did magnificent work for the Canadians. Powers made the most sensational run of the entire match. Craig also put up a splendid game. Some members of the Glasgow team, making their calculations from the result of the matches in Ireland, did not anticipate such a hard game as the Canadians gave them. Tait played with the Canadians today, and played well, too.

The Canadians feel confident that they are improving with each game, and will be able to hold their own in the contests to follow. Others of the team say that had the ground been hard they would have won, being much the speedier.

CHILDREN IN HOLLAND.

you see the wooden shoe is a very useful article. During the week it is natural that these shoes should get dusty or muddy from tramping around, but Saturday is the great cleaning day, and the children are expected to scour their shoes till they are as white as snow and fit to wear to church on Sunday. When the Sabbath morning comes, they are put on and worn as far as the church door, but there they are left until the long sermon is over and their owners are ready to return home. Then if any little urchin has been noticed as being restless or mischievous (the shoes) are put to a very good, practical use—the mother applies one as a rod of correction and discipline.—Exchange.

CHILDREN IN HOLLAND.

Their Funny Wooden Shoes Which They Sometimes Use as Boats.

How many of grandma's children would like to wear wooden shoes, as the Hollanders do? I am sure your little feet would ache and feel very awkward and look very clumsy in such coverings, and yet the little Holland children clatter around as easily in these wooden shoes as you walk, dears, in your dainty boots and slippers. In Holland the vessels seen on the river are shaped like one of these shoes, and the children in the illustration given have taken one for a model and trimmed a shoe with sails and are launching it for an imaginary voyage.

Sometimes when the children are at play and get thirsty they stop at a stream, take off one of their shoes, fill it with water and drink as eagerly as though it were from a silver goblet. So
