## FRUIT AND VEGETABLES IN LARGE QUANTITIES

Fruit and vegetables were very plentiful on the market this morning. Most vegetable prices are the same as yesterday except green corn, of which there was a large supply, causing the price to go down to 12 and 15 cents a dozen. Tomatoes sold at 40 to 50 cents a basket for imported, and 90 cents for home-grown. Cucumbers are 20 to 40 cents a dozen, and are plentiful. Beets, cabbage, parsnips, carrots, asparagus and spinach sold at the same prices a quoted in the table. A large quantity of apples were sold

75 cents a bushel and 20 cents a peck. Peaches were selling at 75 cents a basket and plums at 50 cents. few crates of raspberries sold at 11 to 12 cents a box. Hay was very firm, and most loads sold at the high price of 13.50 a ton. One load of wheat straw sold at \$8. Oats were scarce, and the price was firm at \$1 to \$1.13. A shipment of live hogs was made yesterday at \$9.75, which was a higher price than is being paid on the Toronto market. Dressed hogs are firm at \$13,50 a hundredweight. All other prices are the same as in the PRODUCE

A Queer Card .- The police depart ment of this city is in receipt of a queer postal card from a woman in Clinton, who signs herself Mrs. Rebecca Kinley, 58 Huron street. The card is of the usual one-cent variety but both sides of it are covered with writing, in the middle of which is discernible: "To Mounted Policeman No. 30, London Police Station, London, Ont." The woman urges the officer to send one of the highest policemen on the force to the store of a King street merchant, and there, after "leaping upon him, to gull him." The card continues that "G. only knows a curse of a widow, who is in need of money, which this merchant owes to me, and please make him pay it to my daughter at once." The card looked very much like a Chinese puzzle, with its queer chirography, and it took two reporters, the court clerk, his sten ographer, and several officers some time to decipher it this morning.

FOR ALL BEEF Board of Health Will Discuss Ouestion of a Public Abattoir.

GOVT. STAMP

## MANY BEEVES AFFECTED

Government inspected meat for London, and all beef designed for local consumption killed in a public abattoir will, it is expected be given another impetus at the meeting of the board of health this afternoon. For years the poard has been battling for a public abattoir for London. Reports on the day, are expected to be the necessary teps to secure definite action at last. isit to the abattoir of the Dominior Abattoir, Limited. There they witlessed the Government inspectors at work in going over all meats, both before killing and after it had dressed. What they saw only strengthttoir here.

Many Condemned. Condemnation of meat, which had it not been killed in a plant of the type of the Dominion one, would have been

sold on the market here for consump ion by local citizens, gave the mempers something to think over saw carcass after carcass condemned ecause of the taint of tuberculosis. It was only the Government inspection that prevented this meat from being sold to unsuspecting Londoners, and the board wants to have every ounce of beef used in this city inspected in a similar manner as a safeguard against spread of disease through impure and

The argument of fairness is another that the board members will urge. The abattoir firm here have to shoulder of preventing disease, dissuading peothe loss of all carcasses condemned. Those butchers who have no Government inspection sell this meat. cause of inspection, and therefore safeguarding, the bigger companies los The smaller ones lose nothing and at the same time are allowed to ispose of their meats to local butchers who in turn sell it to their customershe local consumers.

The board, as a whole, is anxious to see that London meat is properly inspected. The method-whether agreement is made with an abattoir company or whether the city builds one itself, is immateral so long as the in spection is made, say the members.

London, Aug. 12.—The International question that are to be submitted to- Medical Congress, which the delegates from all parts of the world attending it regard as the most successful and Some time ago the members paid a most comprehensive ever held in the history of medicine, was brought to an end this afternoon by a speech by the Right Hon. John Burns, president of the rocal government board, who addressed the full conclave of physicians in the Albert Hall on the subject of the reationship of medicine to the public health

Reduce Death Rate. Mr. Burns, after paying a tribute to the doctors for the improvements they had effected in the science of cure and prevention of disease, emphasized his point by showing that as the result of the combined application of medical and sanitary science to the problem o healthy living, there had been 772,811 fewer deaths in England and Wales in the years from 1909 to 1911, than there would have been had the death rate of two decades earlier continued. Work of Future.

Mr. Burns thought the ideal of the future work of physicians lay in advising the world as to the best means ple from habits inimical to their health and discovering early symptoms which if neglected would produce serious dis

The speaker considered the prospect of gaining complete control over tuperculosis quite promising, and intimated that general medical research was about to receive assistance from the state on a scale not heretofore contemplated. The chief impediment in he way of the Government making this expenditure had been wastefulness and one source of waste expenditure-armments-stood head and shoulders above all others. If that was to be prevented, he continued, gigantic sums would be released for reforms which were waiting to be financed.

McCutcheon. No Other Course. In view of the attitude taken by he department at Toronto there was no other course open to the committee and the meeting Monday night was simply for the purpose of adopting a formal report as to the information given out. There was more significance o it, however, than the mere drafting of a report. It will be the forerunner of an investigation into the Collegiate iasco on the part of the board itself. The action of the department has shifted the onus of responsibility to the shoulders of the board members. It is now up to them. The board recognizes that with the principal's efficiency being constantly attacked. something will have to be done, and done quickly. Those present at last night's meeting were Chairman E. R.
