Recent Juvenile Crime Proof That Such Court Is Needed.

"To my mind, Ald. Harley's scheme 4s' excellent," commented Rev. H. B. Ashby today, referring to the juvenile court problem in the city of London. Mr. Ashby was a member of the committee which met last fall and discussed the advisability of establishing a ju-

"I certainly feel that the city requires a court of this nature," he continued. "We have sufficient need for one, and as a matter of fact, it is my opinion that we should have had one opinion that we should have had one before this. I am heartily in accord with the scheme proposed recently by Ald. Harley, and in the person of Mr. Graydon I do not think that it is possible to select any better to act as judge. In dealing with children's problems, especially do I believe him to be the many that is both kind and convery fine. He is both kind and con-

siderate, and the judgeship could well be left in his hands."
"In selecting Edward Lance, secre-tary of the Soldiers' Aid Commission, and W. E. Kelly as probation officers, I believe that we should have two competent, painstaking officials, and I feel confident that they would leave nothing undone to create success and general

Sufficient Answer.

It is pointed out by interested parties that the present epidemic of crime among boys under 15 years of age is a sufficient answer to those critics who eel that London does not need greater scope in handling delinquent children.
As with juvenile court powers the judge
will be enabled to handle these boys efore they have committed some crime and that brings them to the attention of

LOT MORE RED TAPE ne police.
It has been stated upon several occasions by officials working among children that a great many cases that should be dealt with by some official in authority are not brought before the magistrate because their appearance in police court would require the laying of an information, charging them with ome crime. This, it is said, does not actually prevent their continuance in crime, but rather embitters them Among the many baleful influences which the new emergency tariff act will have as far as Canada is concerned, not the least will be the considerable additinal red tape and work which will be involved in the making of consular gainst society.

were limited to fractions. Mexican
Petroleum was the only exception, reacting a point and then rallying moderately. Other Mexican oils were irregular on publication of figures which
indicated that the export tax imposed
by the Mexican Government in some
instances equaled or exceeded the
sales price. Steels, equipments and
rails were firm. Exchange on Londou
reacted slightly from yesterday's rally.

1:30 p.m.—Oils were under renewed
pressure during the mid-session, California Petroleum losing 1 point. American Tobacco also became heavy, but
American Woolen and obscure specialties, such as American Ico and Endicott-Johnson seemed to be favored by
bull pools.
