

Commissioners Are at Colon

Colombian Emassaries Arrive on Steamer Canada on Peace Mission.

Great Excitement Takes Place But U. S. Marines Preserve Order

Colon, Nov. 19-5:45 p. m.—The steamer Canada, from Savannah, is now approaching her dock. General Reyes and other members of the delegation sent by the Colombian government on a peace mission are on board.

Marines from the American warships have been landed and are on duty on the wharf.

Other prominent Colombian generals on the Canada are General Garcia, General Bustamante and Caballero are prominent members of the Liberal party, and joined the peace commissioners at Savannah, but were delegated by the Bogota government.

Admiral Coghlan, who just arrived from Panama, extended an invitation to the commissioners to come aboard the Mayflower, but the admirals' invitation was also declined. It is understood that General Reyes and other Colombian officers will remain on the Canada until tomorrow night, possibly until Sunday evening when they will leave for Port Limon, for which destination all had taken tickets. The commissioners sent a telegram to the United States asking for a conference there tomorrow, but the Panamanian government declined to accept the request. It is expected, however, that a representative delegation from Panama will arrive here tomorrow and confer with the commissioners on board the Canada.

The Colombian generals were not permitted to land at Colon, and it is considered absolutely certain that their mission, like that of the commissioners from the department of Bolivar, will prove altogether futile.

A handsome addition was made to the Allison fund last night when the employees of the Savoy Hotel handed over to the cashier of the Colonist the sum of \$25. It was subscribed as follows by the staff:

- SAVOY EMPLOYEES.
- Generous Contribution From the Staff of Popular Local Theatre.
- Savoys: J. W. Z. \$1; H. Graham, \$1; W. M. Hall, \$1; F. J. Jewell, \$1; J. Hillson, \$1; W. H. Shuman, \$1; J. Smith, \$1; Geo. Barnes, \$1; K. Nicking, \$1; E. Thomson, \$1; R. Ward, \$1; Hart, \$1; M. A. Sawyer, \$1; Geo. Keown, \$1; G. Towles, \$1; Jas. J. Shevan, \$1; J. McDonald, \$1; Juanita, \$1; Estelle, \$1; Mrs. Dobbins, \$1; Lillian Laurie, \$1; George Verdell, \$1. Total, \$35.50.

J. E. Cowan, secretary of the committee appointed to take charge of the distribution of the Allison fund, has been indefatigable in the work of collecting subscriptions for this worthy cause. He has some \$257 in hand, of which \$40.50 was subscribed by the employees of the Water Bros. This is of course, entirely apart from the money collected at newspaper offices and other places.

INDIAN CHIEF STABBED.

Lockport, Nov. 20.—Wm. Jacobs, a Tuscarora Indian chief on the Lewiston reservation, was probably fatally stabbed in a fight with three other Indians tonight. Warriors have been issued for the arrest of Hurley Chew, his squaw, Elberta Chew and Phillip Chew. They cannot be found on the reservation and it is believed they have crossed the river into Canada.

RAILROAD ACCIDENT.

Many Notable Persons Killed in Wreck on Portuguese Line.

STEAMER ATHALIE SAFE.

St. John's, Nfld., Nov. 20.—The steamer Athalie, 21 days from Glasgow for Tilt Cove, has arrived here with her machinery disabled. The accident occurred fifteen days ago in mid-ocean. Repairs to the Athalie will not be completed for two days. The gale which swept the coast last night sunk the schooners Isabel and Hether. The crews and captains escaped.

STRENGTHENING SAFE.

St. John's, Nfld., Nov. 20.—The steamer Athalie, 21 days from Glasgow for Tilt Cove, has arrived here with her machinery disabled. The accident occurred fifteen days ago in mid-ocean. Repairs to the Athalie will not be completed for two days. The gale which swept the coast last night sunk the schooners Isabel and Hether. The crews and captains escaped.

Pandora Range.

MEALS ON TIME.

If a dinner, which should be cooked with a light fire, is fixed for the hour of twelve, you can use a light fire and absolutely depend upon the "Pandora" to cook it by twelve—no waste of fuel in keeping up an unnecessarily strong fire, "just to make sure." And the same accuracy can be depended upon if a strong fire is necessary.

The hot-air flues force all the heat around the oven twice and directly under every pot hole, which means that every atom of heat is used, and only another goes up the chimney; also facilitates the work of cooking.

"Pandora" Range is entirely new, and is equipped with every latest feature for cooking in a hurry, saving fuel, and lessening kitchen troubles generally.

If your local dealer does not handle it, write to us for Catalogue.

DISORDERLY ELECTIONS.

Bellevue, Nov. 20.—The final Prussian Diet elections, which are usually very quiet assemblies of the electors chosen by the electors in many districts.

CONDUCTOR ARRESTED.

New York, Nov. 20.—Martin Stevens, conductor of the forward train of the Brooklyn Elevated railroad, in which two men were killed last night, was arrested on a charge of criminal negligence. The motorman and conductor on the following train were killed in the wreck.

A MADMAN'S ACTS.

San Diego, Cal., Nov. 20.—E. Frendell today rushed into a telegraph office at Lake Side station, sent a telegram to relatives in Albany, N. Y., asking for \$10,000, and then threw himself to death in front of a passing train.

Government Will Prospect Quartz

Mining Expert Engaged to Investigate Yukon Ledges With Diamond Drill.

According to advices from Dawson, Mining Expert Temple, recently engaged by the government, will begin work in Yukon territory within a short time with diamond drills. Commissioner Congdon announces that Mr. Temple, who is now here, is preparing for work in the field as soon as possible.

Stumps And Roots Being Taken From the Klondike's Winter Roadway.

It was the intention, says the commissioner, to have Mr. Temple go to the Klondike to begin work on the copper properties there this month, but he was not able to get away on the last boat and is still here, it is a little uncertain as to just where he will undertake the initial work here.

Stumps And Roots Being Taken From the Klondike's Winter Roadway.

It is possible that Mr. Temple will do some prospecting work for the government in time with placer drills such as are used extensively in California and in the Klondike this summer by two companies. However, quartz development is still the chief object at which the government is aiming here at present, and he will confine his work to that line for the time.

Stumps And Roots Being Taken From the Klondike's Winter Roadway.

Thousands of stumps and roots have been removed within the last six weeks from the course of the overland highway between Dawson and White Horse. This report is brought by Dan Steere, who has returned from Minto, where he, in charge of a party of twenty men, completed the work of one of the sections of the road. He says:

Stumps And Roots Being Taken From the Klondike's Winter Roadway.

Bridges, culverts, turnouts and roadway work and the like has been supplied all along the route, and the highway is in better condition than ever before. Roadhouses are preparing to open all along the route.

Stumps And Roots Being Taken From the Klondike's Winter Roadway.

Steele's party left here August 22nd, and was gone two months lacking one day.

Stumps And Roots Being Taken From the Klondike's Winter Roadway.

Many people, unwilling to wait for the Dawson-White Horse trail to become good for stages, are walking from Dawson to Minto as they have left here in possession, and the work is open for guests.

Stumps And Roots Being Taken From the Klondike's Winter Roadway.

Contractors' Claims.—W. T. Dalton, chairman of the board of arbitration appointed by the provincial government to adjust the claims for extras preferred by the contractors for the extension of the Government's residence, yesterday handed the decision of the board to the chief commissioner of lands and works. Hon. Robert Green, it is understood that the recommendation is to allow the full amount claimed. The members of the commission were: A. Maxwell Muir, representing the contractors, and W. T. Dalton, independent. The evidence taken was most voluminous.

Stumps And Roots Being Taken From the Klondike's Winter Roadway.

Panama's flag is a trifle ahead of her constitution, but then a milliner can design a flag which it takes brains to frame a constitution.

The spring of eternal youth lies in some real interest or ambition in life; it goes away ahead of cosmetics or drugs.

A Rubber Tale

FROM BRAZIL TO CANADA

Down in tropical South America, amid the virgin forests of the Amazon and the Oronoco, the natives are busy gathering pure Para gum to be made into "Granby" Rubbers for the Canadian people.

It is the dry season now, the time when the trees are "tapped" and the milky juice exudes. The tapping is done in the evening and, as the sun sinks in the west, the woods are alive with the "brown men" at work.

Granby Rubbers

are composed largely of pure Para rubber, which ponderous machinery, time, patience and human skill have transformed from the sap of a tree into one of the necessities of winter wear. And "Granby" rubbers are a real necessity. No other make of Rubbers has the great wearing quality of the "Granby," or the same graceful shapes and easy, comfortable fit. They are easy to wear and hard to wear out. Every where one hears people say, "Granby Rubbers wear like iron."
