

## TORONTO WORLD

THURSDAY MORNING, DEC. 17, 1937.

## THE MAYORALTY.

## Our Vote and Influence

are Respectfully Solicited for

## OLD. DEFECE

## AS MAYOR FOR 1938.

Very About Circulation.

We intend to continue our comparison of circulation of the World with the morning Mail and Globe in Toronto, but we have heard the number of papers delivered by route boys of these two journals. In all their published statements, sworn or unsworn, there is no record of this. If the Mail and Globe will publish these figures we have no trouble in completing the comparison, which stands at present:

Globe, Mail, World, 1937-1938.  
 Mail, 1937-1938.  
 World, 1937-1938.

Delivered to city subscribers.  
 Mail, 1937-1938.  
 World, 1937-1938.

When these last returns are in we shall, we hope, be able to startle the advertising public as to what morning paper is read by the people of Toronto.

Mr. C. M. Cameron and Mr. Bunting, who have these figures, even if they are not published.

Rebuted by One of Themself.

The Globe and Uncle William Macdougall

stated that the George Brown recently

announced of 1937 contemplated discon-

tinuation of the Globe, with the latter's

statement, The Mail felt constrained to admit

the existence of a notorious historical fact

that, thanks to the ablest of the Annan-

ville organs, but was it to undertake the

discontinuation of all the misrepresentations of

its kind it would have no space left for its own

any man able to read the propositions

presented by Mr. Brown to the Washington

conference, or the speeches in which he ex-

plains the policy before the Canadian Sen-

ate, would fall into the error attributed by The

Mail's comprehension. It looks like

nothing more than an error. Since it is

stated, though not in degree, is The Mail's

discontinuation of all the misrepresentations of

its kind it would have no space left for its own

any man able to read the propositions

presented by Mr. Brown to the Washington

conference, or the speeches in which he ex-

plains the policy before the Canadian Sen-

ate, would fall into the error attributed by The

Mail's comprehension. It looks like

nothing more than an error. Since it is

stated, though not in degree, is The Mail's

discontinuation of all the misrepresentations of

its kind it would have no space left for its own

any man able to read the propositions

presented by Mr. Brown to the Washington

conference, or the speeches in which he ex-

plains the policy before the Canadian Sen-

ate, would fall into the error attributed by The

Mail's comprehension. It looks like

## STOCK MARKETS FIRMER

BOTH AT HOME AND IN NEW YORK.

WHILE LONDON IS WEAKER.

The Grain and Produce Markets Quiet—All

the Highest This Year—Assessments Re-

ported Throughout Ontario—On Call at

The Board of Trade—Foreign Reports.

FRIDAY, December 18, 1937.

Stocks were somewhat firmer at home to-day

with an upward tendency. In New York the

market was slightly stronger and closed at a

higher level. London, however, a little decline

in the grain and produce markets, which continue

quiet and firm.

W. P. HOWLAND &amp; CO.

FOR SALE

MANITOBA WHEAT.

Deliverable at any point in the Dominion

and subject to the usual conditions of sale.

Orders solicited and

liberal advances made on consignment of

Wheat, Barley, Oats, etc.

Toronto.

The local stock market was inactive this

morning, though stocks were generally firmer

than yesterday. The market for wheat was

quiet, with a slight upward tendency. The

market for barley was also quiet, with a

slight upward tendency. The market for

oats was quiet, with a slight upward

tendency. The market for rye was quiet,

with a slight upward tendency. The

market for clover was quiet, with a

slight upward tendency. The market for

alfalfa was quiet, with a slight upward

tendency. The market for timothy was

quiet, with a slight upward tendency.

W. R. JONES.

(Established 1874)

Has returned to the Board of Trade.

25 Wellington Street East.

Where he will continue to act as a

Grain and Produce Broker.

Chicago.

Following are the closing prices on the local

stock board to-day:
