Oh. What a Cough.

Will you heed the warning? The signal perhaps of the sure approach of that more terrible disease, Consumption. Ask your selves if you can afford for the sake of saving 60 cents, to run the risk and donothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup and Whooping Cough at once. Mothers do not be without it. For Lame Back, Side or Chest, use Shiloh's Porous Plasters, Sold by Drs. DeBlois & Prinrose, Bridgetown, and Dr.

The signal almost checrless since the law went into effect, and I know that if the matter were put to a vote the people who like hand-organ and street-bands would overwhelm those who don't like them.

Prevailing Sickness.
The most prevalent complaints at this season are rheumatism, neuragia, sore throat, inflammations and congestions. For all these and other painful troubles Hagyard's Yellow Oil is the best internal and external remedy.

distinct form of nervous disease produced in Canadian women by worry about servants and overwork in caring for the home. This distinct form of is only too true. It is why we see so many ladies pale, weak, languid, and suffering from headaches and innumerable weak-

nesses. They cannot stand the strain upon their nervous system. Many of them have found the means to sustain their failing strength, to give color to the cheeks, and new life and vigor to the body, in Paine's new life and vigor to the body, in Paine's Celery Compound. This pure and scientific remedy is especially adapted to the needs of woman, and is daily making the most remarkable cures. Mrs. W. E. Cooper, 60 St. Hypolite St., Montreal, was for a long time troubled with nervous headaches, loss of appetite, low spirits, etc. After using the Compound, her headaches disappeared, appetite was good, and her spirits revived. Annie Gourley, of River Beaudette, P.Q., found the Compound a certain cure for weakness, and now teels as well as she

ever did.

Many a Canadian lady has the same reason to be grateful.

Women, Read the Papers.

ADVICE FROM A WOMAN LEADER THAT
NEWSPAPERS WILL APPROVE.

Frances Willard urges women to read the newspapers. She says; 'Women are a set of passivities on this subject, as a class; and I am never more annoyed for my sex than when the newsboy goes trotting through at full speed, never dreaming that they want a paper. I clutch his sleeve with a vim, and buy one of every variety he has, and ask him what he is thinking about, to lose patronage in that way.

I have to dream will you dress Willie this morning? I'm in such a hurry, and is won't take you but a minute or two.'
Certainly,' replied Mr. Bixby, cheerfully, 'I'd just as soon dress the little chap as not. Here, my little man, come and let pape and ress you. I'll have you as neat as a pin in a jiffy.'

Willie, aged four, comes reluctantly from his playthings and Bixby begins:
'Now, let's off with your nighty gown, and—keep still, dear, or I can't unbutton it. There now, we'll—sit still child. What makes you squirm around like an act of passivities on this subject, as a class; and I am never more annoyed for my sex than when the newsboy goes trotting through at full speed, never dreaming that they want a paper. I clutch his sleeve with a vim, and buy one of every variety he has, and ask him what he is thinking about, to lose patronage in that way.

paper than to gossip about the neighbors.'
Not all women have access to newspapers as those engaged in the public walks of life, but no woman in this land where newspapers are scattered broadcast, almost like leaves of the forest, need be ignorant of the passing events of the day. By reading, not only will the common drudgery of life be forgotten for the time, but both whereal and mental rest will be secured.

If be forgotten for the time, but both physical and mental rest will be secured. If be forgotten for the time, but both physical and mental rest will be secured. Men who sit in the dark, work in shops, or on the farm during the day, rest in the evening time, slippered feet and easy chair with the newspaper. Why do women not do the same, and not only so, but when tired during the day, snatch a moment now and then to read a bit of news? Thus will she keep pace with the husband in topics of the day, whether political or otherwise. Especially do mothers need to read the newspapers, and the story, the carpenter would say at once:—

STEAMING PLUSH AND VELVET.—'The old-fashioned way,' said Mrs. Brown, 'is to set a hot flat-iron up on end, put a wet cloth smoothly around it, and draw the back of the velvet tightly across it, moving it as fast as the steam has struck through and raised the map.' I never liked this way; the shape of the iron was often left on the velvet, as well as finger-marks where the damp velvet had been held. The way that the end of his patience, the doctor one morning called for a bowl, a spoon and some fresh butter, and began stirring the butter round and round with an air of grave importance. The ladies gathered about him inquisitively, but he gave them no attention, until, at last, curiosity becoming rampant, they cried in chorus: 'On, doctor, do tell us what you are going to do with the butter?'
