

pan, and empty it among the eggs; then stir in lightly the flour and the other ingredients, and whisk them well for a half an hour; paper the bottom and sides of the pan, and empty in the cake. Bake as above.

#### GOOSE PUDDING.

Half a pound of bread crumbs soaked in a little boiling milk,—when cold add two or three eggs, a little salt, pepper, majoram, and thyme, a spoonful of oatmeal, a good handful of suet, and an onion, chopped fine. Spread it in a dripping-pan, and bake it under the goose.

#### TO PICKLE TOMATOES.

As you gather them throw them into cold vinegar. When you have enough take them out, and scald some spices tied in a bag, in good vinegar, and pour it hot over them.

#### YEAST.

Yeast for home-made bread is easily manufactured, thus: Boil one pound of good flour, a quarter of a pound of brown sugar, add half an ounce of salt, in two gallons of water for an hour. When nearly cold, bottle and cork it closely. It will be fit for use in twenty-four hours, and one pint will make eighteen pounds of bread.

#### CURE FOR WARTS.

Cut off the tops of the warts with a pen-knife, so that they may bleed, and then drop in a little oil of vitriol with the end of a quill, or bit of wood cut to a point,—it causes pain for a few minutes, but they soon heal.

#### TO CLEAN SILK.

Quarter of a pound of honey, quarter of a pound of soft soap, two wine glasses of gin, three gills of boiling water. Mix and let stand until blood warm. Dip a nail brush into the mixture, and rub the silk well, especially where there are stains, or the most dirt or spots, and with a sponge wet the whole breadth generally, and rub gently. Then rinse the silk in cold soft water, hang it up to drain, and iron it damp. The quantity stated is for a plain dress.

#### TO REMOVE SUNBURN.

Of scraped horse radish, take as much as will fill a tablespoon. Pour on it half a pint of warm milk, use it before washing, allowing it to dry on the skin, before applying the water. The milk may be cool, but will not keep fresh so long,

### EDITORIAL NOTICES.

#### BOARD OF AGRICULTURE.

In the list of members belonging to this body, printed in the January number, the name of J. I. MARKS Esq., of Kingston, was accidentally omitted.

AGRICULTURAL SOCIETY OF STORMONT, DUNDAS AND GLENGARY.

The grant of £40 from this Society to the funds of the Provincial Association for 1851, having been paid to the Treasurer of the Local Committee at Brockville, and accounted for in their expenciture, the

same does not appear in the Balance Sheet of the Society's Treasurer, as published in the January number.

#### REPORT OF THE TEMPLEMOYLE AGRICULTURAL SEMINARY FOR 1850.

We have been favored with the reading of a recent report, of this well known School in Ireland, by Wm. HURTON, Esq., late of Belleville, now of Quebec. A farm of 172 Statute acres, beautifully situated on a healthy and picturesque locality is attached to this seminary, and the pupils are regularly instructed in the rudiments of a sound English Education, in connexion with the theory and practice of Agriculture. It was established in the year 1826, and has turned out a considerable number of pupils who now occupy superior situations, as bailiffs or land stewards; and upon the whole, the Institution seems to have done much good, and its present condition appears satisfactory.

### Advertisements.

#### WANTED,
