HYBRID QUEENS.

I have still some good Hybrid Queens, mostly of the Heddon strain (not purely mated), which I will sell at

2 FOR \$1.00.

One Queen with one pound of Bees during June for \$2.75.

These are splendid bees for honey gathering, and I believe superior to the ordinary hybrids, being not so cross and better comb builders.

I will have about the 25th June some good Queens reared from swarming cells from selected Queens which I will sell at the same price as those advertised during March, April and May.

Address,

G. A. DEADMAN,
Druggist and Apiarist, Brussels.

\$ QUEENS.

We can now furnish laying \$ Queens to any reasonable demand.

PRICES AS FOLLOWS.

Each.....	\$1 00	Per 2.....	\$1 90
Per 3.....	2 60	Per 4.....	3 20
Per 6.....	4 50	Per 12.....	8 00

Orders filled in rotation. Cash must accompany order.

VIRGIN QUEENS.

Each.....	\$0 60	Per 2.....	\$1 00
Per 6.....	2 75	Per 12.....	5 00

These are from good stock selected for honey gathering qualities. Above prices are by mail postpaid.

THE D. A. JONES CO., LD., Beeton, Ont.

W. Z. HUTCHINSON,

ROGERSVILLE, GENESEE, CO., MICH.

HAS received scores of unsolicited testimonials in regard to the excellency of his little book—

"THE PRODUCTION OF COMB HONEY."

and it is with pleasure that he publishes the following selections:

Success to the little book of fresh and live ideas.—E. E. Hasty, Richards, O., March 28, 1887.

It is the best book on the production of comb honey I ever read.—F. W. Holmes, Coopersville, Mich., March 29, 1887.

I congratulate you on getting up such a complete treatise upon the subject in so small a book.—W. H. Shirley, Mill Grove, Mich., March 27, 1887.

Your little work on "The Production of Comb Honey" is a valuable acquisition, and coincides with my experience.—Dr. L. C. Whiting, East Saginaw, Mich., April 23, 1887.

It is simply at the head in every respect, so far as it goes. All can say that there are larger books—those that cover more ground, but none that cover their ground nearly as well.—James Heddon, Dowagiac, Mich., April 2, 1887.

You have given us a valuable work. Though terse, it lacks nothing in completeness. We need more such books—those that give facts in the fewest words. For four years I practised essentially the system you give, and know its superior worth.—Dr. G. L. Tinker, New Philadelphia, Ohio, April 17th, 1887.

Your book received last night and read through before I could sleep. To be sure I knew the most of it from your articles in the bee-papers, but it is nice to have it all together in a neat little book like yours. You just more than boiled it down, didn't you?—Dr. A. B. Mason, Auburndale, O., Mar. 29, 1887.

Friend H: Have just received your little book. Much that it contains will be found new, I think, with the majority. The cost in production must in some way be lessened. You set out the primary elements by which such lessening of cost may be made. I say heartily that I think your little book should be studied carefully by every producer of comb honey. With kind regards.—J. E. Pond, Foxboro, Mass., March 28, 1887.

Your lovely little book gave sister and me much pleasure and the author will please accept many thanks. Since criticism is invited, permit me to say that we reach the conclusion too soon. Had the book been less interesting we might not have discovered the fault—might even have thought it a merit—but since the book is as good as it is pretty, its brevity is a serious fault; a fault which will surely be amended in the second edition. With the hope that it may receive the cordial welcome that it merits, I am yours truly.—"Cynla Lipswik."

Price of the Book, 25 Cents. Stamps taken either U.S. or Canadian.
