

Antimony is of a fine quality, and a few days ago it was discovered that the Antimony is impregnated with silver. The tests go to show that a ton of Antimony will yield eighteen hundred oz. of silver, which, if correct, will make it equal to the richest silver mines in Mexico. There is no silver in the Antimony of the other mines. There is a prospect that these mines will very favourably affect the interests of the Prince William congregation."

To continue the narrative of the meetings held by the three Brethren in connexion, the next and not the least interesting, was held in Rev. Mr. Stirling's church in Fredericton. The audience was not we confess so large as we anticipated; but in other respects the meeting was all that could be desired. Here we gained the acquaintance of the Hon. Mr. Wark, a member and Elder of Rev. Mr. Law's church Richibucto; and he presided and spoke with most excellent effect. Speeches were delivered by Rev. Messrs. Sedgwick, McGregor, Morton by Dr. Brook, Dr. Hard, and by our old acquaintance and friend, Rev. Mr. Lathern, who finished off with true Wesleyan tact. The people sat with deep interest listening from 7 till 10 o'clock, and gave a collection of \$8.40, to the Coolie mission, besides paying the expenses of the Deputation.

We staid at the Barker House, but not from necessity, for we had kind invitations from Rev. Dr. Brook to a place in his house and family, as well as from our friend and brother Stirling to try the skill and kindness of his hostess in making ministers comfortable.

The following Sabbath found us occupying the pulpits in St. John and Carleton. We had large and attentive congregations, and we feel safe in saying that there was some faithful and effective preaching. We know that the people heard the word, and theirrapt attention betokened lively interest, and we can say that the singing was quite inspiring. If our people would just increase the volume of praise—if just double the number would sing and with some small increase of energy, we seem to have talent enough and taste enough to produce such congregational music as would surpass in real power and pathos, any union of instrumental and vocal music which we have been privileged to hear.

Brief statements of the objects of the deputation were made in the respective places of worship, on the Lord's day, and Mr. Morton, gave the leading facts connected with his mission in St. David's and in Carleton.

On Tuesday evening we met to hold a Missionary Meeting, in St. John's Church, Rev. Mr. Bennet in the chair. Rev. Dr. Baird offered prayer, when the chairman introduced Mr. Morton, who laid before the meeting a most interesting statement of facts respecting the condition of the Coolies, their spiritual destitution, and the way in which he had been led to offer himself, and the Synod to accept him as a missionary. A collection having been taken amounting to \$17.60, for the Coolie mission, and Mr. Morton being on the point of leaving for Windsor, special prayer was offered on his behalf and on behalf of the mission by Rev. Wm. Elder.

The addresses of the deputies were heard evidently with much interest, and we feel assured that the bonds of affection between the Churches of St. John and of New Brunswick generally, and the churches on this side of the Bay of Fundy, are becoming decidedly stronger. We love our brethren more sensibly, and we feel assured that the affection is reciprocated. A resolution was unanimously adopted on motion of Rev. Messrs. Gray and Donald, expressive of thanks to the Synod and to the Deputies. The meeting was large, and from the account published in the *Colonial Presbyterian* we feel warranted in representing it as every way successful. We should add that liberal collections were made in the City churches towards the expenses of the deputation; and the brethren had a time of great enjoyment, both in their public ministrations, and in their social intercourse with the ministers and people of St. John. Having met with the Presbytery they received a fraternal welcome from the brethren in their official capacity as a constituted church court, and arrangements were made for the visitation of the congregations of Rev. Messrs. Donald, Gray, and Jack. We must postpone the sketch furnished us descriptive of these visits, &c., till next number.
