PRESCRIPTION 1920

IMPROVED HYPQPHOSPHITE MEDICATION.

SPRING TONIC.

In days gone by it was common practice to give what was known as a "Spring Tonic." This practice has gone more or less into disuse. Is it not a fact that the Winter months call upon the organism for an increased expenditure of energy, and as Spring approaches persons in all walks of life and at all ages feel, more or less, the effects of nervous exhaustion? During the early Spring, before the school children, anaemic from indoor confinement, and men and women exhausted by business or social duties, can get away to the country or the seaside with its much needed sunshine and fresh air, it will be found good practice to prescribe Prescription 1920?

SPECIAL NOTE.

Prescription 1920 is supplied in the form of a syrup and is also put up without sugar for use in cases where sugar is contra-indicated as in diabetes. Stocks of both forms of this improved combination of the hypophosphite salts are now in the hands of your local druggist. We solicit your prescription for same.
