## The Best Investment,

And where to get it.

From the published statements of various Building and Loan Associations, we note that they estimate stock to mature in from seven-and-a-half to ten years, and that a monthly payment of from \$6.00 to \$10.00 for that period will produce \$1,000,

Provided the owner of the shares both lives and pays.

THE MANUFACTURERS LIFE will guarantee to a man aged 30 for a premium of \$8.00 per month, an endowment policy of \$1,000, which will mature in ten years, with profits estimated to amount to one-fifth of its face value, and should the death of the investor occur before maturity, the policy will mature at once for its full face value of \$1,000.
