Duliness continues to be, and is likely to be the prominent feature in the local money market until after harvest. The demand at the banks for accommodation is quite moderate; good mercantile paper is still discounted at 7 per cent, and loans can be obtained on approved collaterals at 5 per cent on call, and about 6 on time.

WREALY REVIEW OF THE CITY WHOLESALE TRADE.

Almost all branches of the city wholesale trade have continued quiet and steady since the date of our last review, so that there is not much calling for special mention. Reports from commercial travellers indicate that country nerchants are wisely refraining from ordering forward delivery to any extent, as they prefer, although anticipating great things after harvest, to wait the turn of the tide, and thus he on the safe side; past experience has taught them the wisdom of this course. Our wholesale merchants, we are glad to safe, are enconaging this causious policy, and thus contributing to a sounder commercial basis. Renewals in some lines of business are now scarcely ever solicited. The local produce market has ruled very quiet during the week; holders of flour and wheat, however, still maintain the recent advance, notwith-tanding the recent "break" in the we-tern wheat markets. A few 1,000 barrer lots of superior extras have been sold at \$500, and smaller lots at about Tuesday, July 29.

extra superfines sales have been made at about \$5.10. doring extras sell rather stonly at about \$1.90. The following were to-day's prices:—

BOOTS AND SHOES.-Orders from travellers BOOTS AND SHOES.—Orders from travellers for fall goods are coming in rather freely to many of the manufacturing houses, which are now kept pretty busy, and business is gradually improving from week to week. Nooks in the country are said to be small, and should dealers not cut their own threats, so to speak, by cutting rates too closely through competition a very remunerative business seems likely to be done between now and the close of the fall season. It is satisfactory to note that the curtainnent of the credit system is finding favor with manufacturers, and the practice of filling orders on 80 days only is rapidly extending. Remittances are very fair.

DRUGS AND CHEMICALS—The demand from country dealers continues light, and only to meet immediat—wants. Stocks of quinine here are small, and the market is rather active at the recently advanced rates; it is reported that the largest manuacturing houses in England have all they can do to fill orders. Opium is dull, and prices are nominally 25c lower. In heavy chemicals there is not much doing; the arrivals were light, but the prospects for a good fall trade are good. The exports from Newcastle-on-Tyne to Canada for June, '79, comprised to tons of soda ash and alkall, 21 tons of bleach, 24t tons of crystals, and 112 tons of bl-arbonate. The export of alkalles from Liverpool to Canada list June, compared with the same month a year ago, were 24) tons of soda ash, against 33 last year; 125 tons of crystals, against 6 last year; 115 tons of bicarbonate, against 43 last year; 115 tons of bicarbonate, against 43 last year.

DRY GOODS.—Trade in this branch has been failly active at some waolesale houses, and very quiet at others during the week. European fail importations have been received in some cases, and travellers for the majority of our city warehouses are now on the road with full sets of samples of fail goods. The orders being received from them are not large, but fairly assorted; the disposition of western buyers generally seems to be to wait until the result of the crops now being harvested is known before ordering fully. The prospects as to the near future of this branch of business, however, are decidedly bopeful The stocks held to day could not be replaced in any department at the prices paid for them, and especially sliss, values for which have recently advanced, some advices state, 20 to 40 per cent, in consequence of the failure in the raw crop. For the same reason prices for manufactured DRY GOODS,-Trade in this branch has been For the same reason prices for manufactured cottons also indicate a decided appeard tendency, and it is well known that woolien goods will be considerably higher. Remittances at this midseason are never very large, but they are considered fair.

considered fair.

FREIGHTS.—A further advance has been established for ocean freights from this port during the past week, and the tendency is still upward. Engagements by steamer are now made at 5a, 3d, to 5a, 6d per quarter on grain to Liverpool and London, respectively. To Glasgow, 5a, to 5a, 3d, is asked. Vessel accommodation is very scarce, and several large orders of wheat remain unfilled for want of room on steamers. cemain unfilled for want of room on steamers. GROCERIES.—Trade has been reported rather quieter than during the previons week. The demand for all kinds of goods from western jobbers continue good, and prices are generally steady, unless for teas and sugars, which have been advancing. Coffee has been in very light demand; prices unchanged; Javas, 28c to 39c: Mocha, 3cc to 39c; Plantation Collon, 28c to 39c: Maricaiho, 27je; Rico, 17c to 19c. Fruits—Valencia raisins are firmer, worth 6jc to 6jc, but the demand is not active; stocks, however, are Maricatho, 22je; Rico, Ire to 19c. Fruits—Valencia raisins are firmer, worth 6je to 6je, but the demand is not active; stocks, however, are in one or two hands; other fruits move off more slowly, as is usual at this season. Rice has continued in good request at \$4 to \$4.25 per cwt; in small lots there has been a fair movement at 43c to 4je, but large lots will not bring over 4c; about \$0 to 440 bags have been reported sold. Sugars—There is not much movement in 'ow grades just now, as all below 7je have been sold out at the refinerles. Some very fine Porto Rico have been sold in bis during the past few days at 7c. Raw and refined are both in good demand. Prices are: Dry crushed, 8je to 9je; grundulated, 8je to 8c; extra C, 8c to 8je; bright yellow, 7j to 8c; fair yellow, 7 to 7je; raw, 6j to 7je. Spices.—There are no sales of any consequence Prices remain steady. Allspice, 14c; black perper, 8je; white do 14je; ginger 20c; caca 18c; cloves 8je. Teas—The new crop of lapans have been arriving steadily, and selling in small lots at an advance of about 25 per cent over prices of last year, at a range of from 45c to 55c. The prices are generally thought to be too high, and there is a wide difference between buyers and sellers. Starthe importations have come overland, but in future they will likely come via Suez canal or sail, which will be apt to materially reduce freight charges. The cost of the same teas, however, is not likely to be lower in Japan. Sales of about 200 The cost of the same teas, however, is not likely to be lower in Japan. Sales of about 200 half chests of Young Hysons are reported at 30c to 35c. Leaf tobacco is reported 2c to 3c higher in the South, but there are no advances here as yet. Coarse salt is in fair demand, and for several lots of eleven to the tob a fraction under 50c has been accepted. Quotatious are: 50c to 52c per bag, and factory 50c to \$1.

52jc per bag, and factory \$5c to \$1.

HARDWARE, IRON, ETC.—Trade continues dull, as is usual at this season, and no quotable improvement is expected until the fall trade sets in. Sorting up orders are reported as numerous and as large as in former years. Euglish advices indicate no improvement; prices show a downward tendency in the home markets, and here there are no important changes to note Pig from is selving in small lots on the spot, and we understand that there have been a few large fales on western account for forward delivery during the week; they were made, however, on pt Canada and tin plates move off slowly, at rather easier prices. For shelf soods there is a moderate jobbing demand. Remittances have somewhat improved.

HIJFS AND SKINS.—There is a fair demand

somewhat improved.

HIPFS AND SKINS.—There is a fair demand for small lots of butchers' green hides, at 8c, 7c and 8c respectively for Nos. 1, 2 and 3, from first hands. The openings, however, are small, and orders from tanuers cannot be filted rendily by dealers, for want of the supply. The continued large shipments of cattle to Europe has, to a c-rtain extent affected this trade injuriously. Sheepskins—Good ones are brought to market very slowly, the recent enormous shipments having the same effect to lessen the supply, as in the case of the cattle and hides; prices range from 75c to 90c, and lambakins are quiet at 40c to 45c, as to size; clips, 25c each. Calyskins very quiet, at 9c to luce per 1b.

HIPS.—The local market continues excited,

quiet, at 9c to luc per lb.

Https:—The local market continues excited, and buyers and sellers are apart in their views. The Canadian crop this year promises to yield beavily, but the crop in Europe, from present prospecies, seems doubtful. Brewers here have large stocks on band, but no sales have been reported upon which to form an estimate of values, but the ranges is probably from 5c to 7c per lb.

per lb.

LE 'THER—Business has been reported quiet and steady, at unchanged quotations. The dimand for No. I sole leather has not been so active as a fortnight ago; more of this description will be required by shoe manufacturers during the next two months. At present they are onlying merely to meet present requirements, and no large sales of any kind have been heard of. In New York there has been a rather active enquiry for hemlock sole, and purchases there have been large at firm quotations. There has been a fair demand here for No. 2, which has been a fair demand here for No. 2, which has been a fair demand here for No. 2, which has been a fair demand here for No. 2, which has been a fair demand here for No. 2, which has been a fair demand here for No. 2, which has been a fair demand here for No. 2, which has been a fair demand here for No. 2, which has been a fair demand here for No. 2, which has been a fair demand when the stocks of all kinds o black leather are very moderate, and any speculative demand would have a tendency to advance prices, as stocks in first hands re light. Remittances fair, but they might be better.

PROVISIONS.—The wholesale provision trade

might be better.

PROVISIONS.—The wholesale provision trade here could not be more inactive, with any business at all doing. In butter there is hardly enough doing o warrant quotations, which are nominal at from life to 12c for Morrisburg and lit to 13c for T waships as to size of order and fineness of selection; creamery, 15c to 15je; western is very dull, and it is difficult to get buyers to offer any poles for it. Cheese is quiet and unchanged at from 5c to 5je for fine to finest stock. The depressed condition of the English market for cheese continues, and of course this reacts upon our market here. Hog products are quiet and unchanged at our previous quotations. Chicago pork is stronger to-day. Fggs are firm, and selling in small lots at 12je to 13c, to grocers.

wait the turn of the tide, and thus be on the safe side; past experience has taught them the wis dom of this course. Our wholesale merchants, we are glad to safe, are employed and thus policy, and thus contributing to a sounder commercial basis, one steps are now scarcely ever solicited. The local produce market has ruled very quiet during the week; therefore, very little demand for the now scarcely ever solicited. The local produce market has ruled very quiet during the week; therefore, very little demand for the holders of flour and wheat, however, still maintain the recent advance, notwith tanding the recent "break" in the western wheat markets. A few 1,000 barrel lots of superior extras have been sold at \$5.20, and smaller lots at about Boston market is reported quiet and unchanged.

There is, therefore, very little demand for the short that the figures quoted. A vices from the last-named description a few small sales have been recorded the strong for the best qualities, and prices for England report the markets steady, and the Boston market is reported quiet and unchanged.

So to buyers was good, and under a moderately be very initial week; manufacturers of active demand, business was tolerably active demand, business was tolerably active. About 200 head of cattle reported demand for the strong the receipts altogether comprised and the receipts and the receipts altogether comprised and the receipts altogether

THE PARMERS MARKETS. Bonsecours and St. Ann's-Prices at

Farmers' Waggons, etc. TUESDAY, July 20.

The amount of business done on the farmers' markets to-day was perhaps largest, in certain kinds of produce, than on any provious day during the present rea-son. The market squares were completely jammed, so to speak, with waggons, chiefly those of market gardeners. There was also a good turn-out of buyers, but the supplies were very large, and were not nearly all sold at noon. Prices were generally lower, especially for vegetables, than on last market day. Some very fine, large tomatoes, of Montreal production, were selling at \$3 50 per bushel. New potatoes were plentiful at 40c to 50c per bushel; new turnips were worth 60c to \$1 per dozen; green peas brought 25c per bushel; French beans, 50c to \$1 do, as to quality; cucumbers, 20c to 30c per dozen and cauliflowers, 50c to \$1 50 per dozen bunches. Eggs were dearer, 15c to 18c being asked for packing qualities, and 20c to 22c for new laid. Butter was unchanged. Fruit was rather plentiful; about 200 brls harvest apples arrived from Rochester yesterday, and another fresh lot is expected this evening. They are selling at \$3 to \$3 50 per brl. Bell pears from Rochester are worth \$5 to \$6 per brl; Delaware peaches from New York, \$3.50 per crate. Black raspberries were selling at 15c per quart, and red raspberries at 65c to 80c ner pail of 23 gallons; red cherries at \$1 25 per bucket, and Saguenay blueberries, the first arrival of the season, at \$1.50 per box. Chokecherries and marise were also offered in small lots for sale. The following are the prices current, corrected

70c \$1.00 per pair. THE CATTLE MARKETS.

Monday, July 28. The receipts of live stock at Point St. Charles during the week eading Saturday last were large, comprising about 27 carloads cattle, 68 cars sheep and 4 cars hogs; of these, 12 cars cattle and the 68 cars sheep were city, 4 cars cattle, bought of Fred Ritchings, It will be seen from the above that the shipments of sheep were infinitely larger than those of cettle, and the demand continues active for first-class sheep On Saturday night and this morning some 15 loads of cattle and a couple of loads of hogs arrived at the St. Gabriel market for sale.

The following were the entries made by the clerk of the market :- F. Ritchings, Toronto, 1 load of cattle and hogs; Thomas Cook, Edwardsburg, 1 do cattle; T. Garrison, Lindston, 2 do ; Jno. Elliott, jr., Port Perry, 1 do ; Patk. Brady, Perth, 1 do; McClanaghan, Perth, 1 do; Wm. Latimer, Bungerford, 1 do; Wm. Roberts, Granby, and Jno. Dyer, Forest, 20 head cattle. The supply of shipping grades of entile was

larger than on any other day during the past fortnight, and the demand for these was good, at firm prices. In fact, the quality Mr. Ald. McShane purchased 116 head of chaldron, \$3.50: cattle altogether :- 47 head from Robt Craig, of Brampton, for \$2,350; 10 from F. Ritchings, Toronto, averaging about 1,150 lbs. each, at \$46 50 each, or about 4c per lb.; 5 head from Mr. Latimore, Perth, at \$180; 17 head from Mr dale, at \$105; 8 from Matt Elliott, Kingston, to 2.25. at \$30 each; I from William Roberts, Granby, at \$23, and 20 very choice steers from Mr. Dyer, of Forest, Ont., on p. t., but at over 5c per lb. Mr. J. W. House bought some 95 head of cattle:—20 from John Elliott, jr., at 41c-per lb.; 28 head from Matt. Elliott, averaging 1,300 lbs each, at \$1,500; 20 head from Mr. Wilder, Lennoxville, averaging 1,400 lbs. each, at \$65 each, and 27 head from Wm Hearn, Guelph, averaging 1,500 lbs each, at 43c per lb. Mr A Armstrong, of Thorndale, had 1 load of cattle and 2 loads hogs; William Masterman bought one load at 5c per lb, and Wm Head the other at the same price. Mr. John Elliott had 17 hogs, unsold, at noon, and R. B. Scott, Colborne, had a load

of hogs, also unsold; he asked 5c per lb. SHIPMENTS.

To-day Mr. J. W. House was loading the steamship Waldensian, which leaves port to-morrow for Glasgow, with 54 head cattle, and 290 sheep; and on Saturday last Mr. Alderman McShane shipped 230 head cattle and 233 hogs to Glasgow, per the ss. Cybelle, of the Donaldson

Tuesday, July 29.

There was a good supply of fine stock offering at this market yesterday, the attendance of buyers was good, and under a moderately

\$2 to 4 for seconds, and from 75c to \$1.50 for inferior qualities. Sheep and lambs ranged from \$2 50 to 3 for first class spring lambs, and \$1 50 to 2 for second class. About 150 fat sheep were bought for shipment by J. W. House and S. Price at 42c per 1b., and for those for local use \$2 50 to 3 each was paid. The few hogs offering changed

hands at \$6 to 7 each. To-day about 30 milch cows were exhibited for sale at this market, but they were nearly all of inferior quality, and the demand being very poor, they were sold for almost any prices. First-class were worth about \$20 to \$25 each, and seconds from \$10 to \$15. About 20 sheep and lambs arrived, and all were sold at yesterday's quotations, the best lambs bringing from \$2 to \$3 each. There were scarcely any calves, and no hogs offered. There were only a few local butchers in attendance, and business was very dull to-day.

Montreal Horse Market.

Montreal Horse Market.

Savarday, July 26.

The shipments of horses from this city to the U. S. during the past week nignibered nearly double those of the week previous, being 402 at a total of \$4.757 for the week previous. Shippers, however, complained the great scarcity of first-class carriage beasts in this market; there have been a good many. American huyers at the American house during the week, but very few desirable horses offering, and only three carloads have been bought for shipment at these yards sine our last report. Messes Snow and Baker, of Boston, were the principal buyers. There are at present about half-a-dozen buyers at the American house, in search of good carriage beasts.

The list of horses exported to the United States through the consulate-general here during the week is as follows:—On the 19th instant—3 horses at \$295. On the 22ud—5 do at \$242. On the 23rd-17 do at \$1,161; 19 do at \$1,354. On the 24th-11 do at \$753; do at \$45750; 7 do at \$550; 9 do at \$679.50; and 20 do at \$1,828. On the 25th-3 do at \$260.

The number of horses shipped to the United States through the United States consulategeneral, for the year ending June 30, 1879, was 6.632, at a total value of \$491.235.90. Total for the preceding year, 5,145, at a total value of \$395,211,48; showing an increase for the past year of 1,487 horses, and \$96,-

Hozireal Hay Market. Tuesday, July 29.

The offerings of new hay at the market on College street during the past week have considerably increased, and prices are consequently easier, now ranging from \$6 to 7 50 per 100 bundles. The good qualities of old hay commanded \$10 per 100 bundles, readily. The recent heavy rains have materially damaged the new crop of hay in all parts of Outario and Quebec, a great deal having been either rotted or badly bleached. Straw is quiet and prices steady, at \$4 to 4 50 per 100 bundles. Altogether about 340 loads of hay and straw were sold on the market here during last week.

Montreal Fuel Market. WEDNESDAY, July 23.

The city coal dealers report a gradual full ng off in trade since the first of this month this is not unusual, since July is nearly always the dullest month of the year, as regards the demand. All the large orders usually given for tall and winter supplies of hard coal during the summer have been given, and dealers are now kept busy filling orders exshipped to Europe, and the rest for the ship, shead. From now until the local markets, the hogs being principally end of the year the orders are expected from Chicago. Among the shippers to to be small, and from parties who Europe were:—Messrs. Ald. Circulars received from New York yesterday announce an advance of 10c per ton for chestnut coal, but this is not sufficient to effect this market, and no changes in last week's prices have taken place. A few sales have taken place here during the last day or two at \$5 for egg and chestnut, and \$5.25 for stove.

The shipments of coal from Pictou, N. S: during the past week, by Pictou companies, say, 1 do; Williamm Hearn, Guelph. 1 do; amounted to 7,897 tons, making the total R. Craig, Toronto, 2 do; Matt. Elliett, King-shipment to date, 74,455 tons. During the week ending July 7th there were shipped from Pictou some 10,000 tons—the greatest week's shipments for many a year. The total to date was 59,244 tons.

The Quebec Markets.

QUEBEC, July 21-Lumber-A few rafts con-tinue to arrive, but they come to a we'y dull market. Notwithstanding the great falling off tinue to arrive, but they come to a we'x dult market. Notwithstanding the great falling off in last season's manufacture, there usevidently no room for what was made until the surplus stocks still in the European market are worked off. The great bulk of what timber is now arriving has a fair prospect of wintering over in coves and in the hands of makers. Merchants and shippers have evidently no present intention of buying. As oid stocks here are, however, being now preity well worked off, the anticipations are that some little business may be done if the fall fleet turns out fair; the aspect of such being the case is not very bright. The only transactions reported for the past ten days is a choice Kippewa rait of 55 feet le inches average, which was placed at the extremely lewrate of 17c per foot. There is no enquiry and nothing doing in red pine or hardwood, except oak, which is perhaps in a little better demand, and prices in the fall trade.

Freight are very dall, and the latest transactions are for a half-cargo of railway sleepers, the balance dry deas a at 61s, and a large ship for all dry deals at 58 3d, both to London. A ship has a se accepted 17s 6d to Greenock.

Coal arrivals are light. Scotch steam is worth

dry deals at 56 3d, both to Lowdon. A ship has a so accepted 1's 6d to Greenock.

Coal arrivals are ligh. Scotch steam is worth about \$4.50 per chaldron.

A cargo of Liverpoul coarse salt 10 to the ton, was sold at about 42c, with a good enquiry.

The pig from market is dull, summerice No. 1 selling at 418 per ton.

River Freights.—To Montreal—Salt, 6c to 7c per sack; coals, 90c to \$1 per ton; sawn number, per 1,000 feet, board measure. \$1 to \$1.18. From Montreal to Quebec.—Flour, 8c per harrel, 4c per bag; pork, 10c per barrel; heavy goods, \$1 per ton.

Freights to Gulf Ports—From Quebec to Mi-ramichi, Shedino, Gaspe, Pictou, &c., 50c per bar-rel and \$5 per ton per steamer; per schooner, 32 c to 35c per barrel.

Halifax Markets. Halifax, N.S. July 26, Breadstuffs-Flour firm and in fair request;

stocks small. Cornmeal, oatmeal and rye flour unchanged. Fish.—Dry fish quiet; arrivals have been

large during the week, but are now falling off; our quotations are from vessels. A few No. 1 were in active demand, and prices paid split herring have arrived, but there is no opening price yet. A few have been sold to grocers at \$3.75. Mackerel dull and unchanged. Salmon higher, and wanted at quotations. Alewives unchanged.

Oils.-Very dutt and lower; seal oil almost unsateable.
Cod Oil is in small receipt, only 28 casks

having come in, and none baving been shipped prices remain unchanged.

Provisions-Pork in fair demand at quotations. Beef quiet and unchanged.

Salt in good demand, but owing to several arrivals recently, prices have declined. West India goods-Molasses dull, and we have no cargo sales to report. Sugar firm and

unchanged. Sugar .- Unchanged in price. Receipts have been very large, of which the chief part would go to the refinery. We received in the week 9 cargoes, carrying 1,135 hhds, 10 tes. and 1,118 bris, besides 116 casks of Melado.

Molasses-Unchanged, and receipts only two direct cargoes, a total of 337 puns. 10 tes. and 26 bbls.

FLOUR-An instruction from the department at Ottawa has been sent to collector in these Provinces which will check what in many cases, has been an illicit trade in flour. As a large amount of flour is ground in bond by Ontario millers from American wheat, and then shipped out of the Canadian bend into United States bond at New York or Boston tor exportation to Europe or elsewhere, it followed that without due check by the customs on these provinces, the holders in these American ports could sell at a large profit to themselves and loss to the Dominion on wheat duty. In such case, legitimate transactions between the Ontario miller and Maritime flour merchant would be effected at a disadvantage as compared with the unscripulous dealer in bonded flour at Boston or elsewhere. This last instruction from the department at Ottawa requires payment of duty on flour received from the United States bond, unless it is accompained with a certificate, sworn to by the miller, that, first, it has been ground from Canadian wheat; or second, that it has been ground from American wheat that has paid duty. The effect of the regulation cannot but be that the illicit trade to small ports will be checked, and that our legiti-mate trade in Halifax, St. John, and other principal ports will be guarded from unfair competition.

-W. H. Vanderbilt says he has determined to build a railro d from Schenschady to Saratoga, but "I don't propose to build it this coming fall." He says, regarding the joint use by the treat Western and Grand Trunk railways, of the Lake Shore line between Tolego and Detroit, that he refuses to leave the valuation of the road to be determined by arbitration, and has, therefore, modified the valuation. With this change he convents to proposed agreements. It is probable consents to proposed agreements. It is probable a failure of nexotistic as will result in building an independent road between Toledo and Detroit.

OUR PRINTS.

SUMMER CLEARING SALE OF PRINTS!

"What crowds of people here to-day !" "What crowds of people here to-day! [Remarked a lady yesterday.]
"And working all like busy bees; What is the reason? Teil me please, I've passed by many stores of note, where flags and papers gaily float, Inviting all to step within—There was no noise, or busy din; But here all seem to be alive.
And people with each other strive To get the bargains which you sell. And people with each other sinve
To get the bargains which you well.
And which are advertised so well.
My own experience I must say,
Is, goods are never given away,
But here, I must confess to you,
Your Prints are cheap and very new,
I've come to day some Prin's to buy:
Show me your best—here, pl ase, and try
To find a pattern such as this;
Something to suit a little miss.
A friend, she told me here 'twas got,
O! what a large and varied lot!
Ah! here is just the thing for Loo,
These handsome sprigs or pink and blue."
In truth, your stocks of prints are grand,
Selected by a careful hand;
No mystery 'tist that indies here
Can buy without a dread or fear;
In many stores I looked at Prints,
Nome are like these—such lovely tints!
And then the prices we so low,
No wonder all to Carsley's go."
Her purchase o'er shad & depart,
With smiling face and easy heart,
Convinced that no where else could she
Such bargains in the city see.
This true, indeed, that many a store
In streets and lanes their bandbills pour,
And deck helt fronts with gaudy show;
They're whee that to such stores n'er go.
Such stores announce, Great Clearing Sale,
In drawing crowds they never fail;
People, disgusted, turn away,
Birect their steps some other way;
Birect their steps some other way;
But Carsley's Summer Clearing sale
Is no delusion,—idle tale;
The crowds that buy must clearly show
Where people must for bargains go.

SALESMAN. And which are advertised so well.

This morning we have thrown all the rem-nants of Prints on centre tables, to be cleared at specially reducedrates.
