

ARTICLE II

The Contracting Parties shall, as appropriate, exchange views regarding their priorities at both the national and the regional levels for industrial cooperation between the member countries of ASEAN and Canada. Such cooperation shall, inter alia, include:

- (a) the transfer, adaptation and development of technology and related training including in-plant training;
- (b) strengthening of research and development facilities in the member countries of ASEAN through various forms of technical cooperation;
- (c) research, pre-investment and pre-feasibility studies and other forms of project preparation;
- (d) greater participation and increased investment in the industrial development of the member countries of ASEAN;
- (e) cooperation between the respective governmental and non-governmental agencies and industries as well as the development of contacts and promotion of activities between firms and organizations in both the member countries of ASEAN and Canada;
- (f) related market development under the Canadian industrial development cooperation programme.

ARTICLE III

Canada, through the industrial cooperation programme of the Canadian International Development Agency and such other mechanisms that may be developed, will make every effort to support and to promote the industrial development of the member countries of ASEAN by identifying the opportunities for investment and for international linkages which will contribute to the fulfilment of the industrialization objectives of the member countries of ASEAN, including the following:

- (a) analysis of industrial information and presentation of opportunities for Canadian businesses and their counterparts in the member countries of ASEAN;
- (b) identification of industrial cooperation linkages between entities in the member countries of ASEAN and their counterparts in Canada and facilitation of collaboration through studies, missions and visits;
- (c) investigation of proposed collaborative ventures by financing starter studies and undertaking their assessment by viability studies;
- (d) enhancing the developmental impact of industrial ventures by providing assistance with such inputs as project preparation, training, market development and support for technological transfers.
