

Part E

Keyword Index

This section is an alphabetically organized keyword index. Items listed in this section appear in the text of the annotations in parts A and B, and fit into at least one of the following categories: first, a nation or region which is mentioned in the text of a study; second, a group involved in the preparation or maintenance of the Register (e.g. the UN Secretariat); third, a weapons system covered by the Register (e.g. battle tanks); fourth, a concept or term used to discuss the Register (e.g. background information section); and, finally, a treaty or an agreement discussed in conjunction with the Register (e.g. Missile Technology Control Regime). In addition, following each keyword, serial number(s) corresponding to the annotation in which it appears are listed. As with the author index, the serial number(s) allow the researcher to determine in which year an article appeared. For example, the following reference appears in the keyword index:
