The managers of the two interprovincial professional soccer teams in this town last night, when interviewed, were so optimistic regarding the welfare of the new project that if their hopes are realized Toronto is to see somthing in the football line that will favorably compare with the game as played in the old country. Vague rumors have been current for some time past as to whether or not pro. soccer was a myth, but both the local organizers were so much in carnest over it and ventured the state metal the public would be as enthusiastic as themselves.

George Campbell, the manager of the Toronto team, and for the last seven years a member of the Thistles, said; "Not only am I satisfied that this thing will prove a success but it will be a move that will do more to put soccer on a firm basis than anything else, both pro. and amateur. The ground question is the only one that is bothering us, but we expect to have that settled in a very few days. using Dunlop Tires as their standard equipment for 1913, and remember, again, that the foreign-made tire is just as much an unknown quantity as the foreign-made bicycle.
