G.T. EARNINGS DECREASE.

The Grand Trunk auditors in their reports continue to show a decrease in the parnings. The decrease for the week ending August 21 was \$47,940. There was some liquidation of September figures compared with last year are as follows: 1914, \$1,096,476; 1913, demand for January deliveries and a fair one for spot.

Canadian Press Desnatch.
Liondon. Aug. 26.—David Lloyd George: the chancellor of the exchequer, today introduced in the house of commons a resolution as the basis for the fortheoming war loan bill. The bill; Mr. The chancellor added that he was considering whether or not he could arrange a limited moratorium without interfering with the interests of those who wished to abolish it. He said he had consulted bankers and traders in this connection. Out of 3000 replies, 4500 were in favor of ending the moratorium; the remainder with the interests of those who wished to abolish it. He said he had consulted bankers and traders in this connection. Out of 3000 replies, 4500 were in favor of ending the moratorium; the remainder wished its extension.

Issue of Treasury Bills.

The second issue of £15,000,000 (\$75.-000,000) in treasury bills has been another great success. The total applications, proceeding to the conditions prevailing.

Censured Banks.

English banks which have failed absorbit to assist the trade of the country in the present crisis were rapped sharply by the chancellor of the exchequer.

"At all costs we must keep the machine of commerce and industry going." he declared, and it is for this purpose that the sovernment came to the help of the banks.

Many banks have behaved well, but some

## HOPE TO INCREASE **GRAIN SHIPMENTS**

Market Narrow - Trading United States Bankers Take Further Steps to Meet Obligations Abroad.

> NEW YORK, Aug. 26.-Additional steps ooking to the relief of the foreign exlooking to the relief of the foreign exchange situation were taken by international bankers today, but definite details were lacking. It is understood that the \$3,000,000 of New York City obligations, which fall due the first week in September, will be met by the purchase of exchange in this market.
>
> Arrangements are under way also for the increased facilitation of shipments of grain and other commodities to Europe in larger volume. It is noteworthy in this connection that some banks have decided to issue long bills against future grain shipments. Most of the grain now going abroad is consigned to France, while England is taking small amounts of cotton.

Apropos of the cotton situation, southern banks were again active borrowers today, and aside from numerous renewals of loans which mature between this and the end of the month, many new loans were reported. In order to meet these fresh demands it is likely that local banks will have to increase their supplies of emergency currency.

will have to increase their supplies of emergency currency.

Steel Mills Active.

A review of the steel and iron industry indicates that the leading mills are no less active than a month ago, some even more so, but the buying power is steadily running behind production. There has been some inquiry from abroad, including Australia, without much actual buying. Nevertheless it is a prevailing opinion that exports must eventually assume large proportion because of the cutting off of the European suppliy.

Announcement by the Pennsylvania Raliroad of its intention to further curtail its passenger service along the main system was attributed to foreign conditions. Other roads are said to be contemplating similar action. In various lines of industry and utility there are indications of reduced activity, including the Monyaya copper region.

Money shows a tendency to harden, some loans being made, at as high as 9 per cent. Foreign exchange having visibly strengthened by the reported success.

per cent. Foreign exchange having visibly strengthened by the reported success of the German army. Demand sterling was quoted at \$5.04 to \$5.05, with cables at \$5.05½ to a point higher, while the little business done in Paris cables was between \$4.90 and \$4.95.

# WHEAT SCORED SHARP ADVANCE

CHICAGO. Aug. 26.—Board of trade markets affected by the war soared to new high levels today led by wheat, which closed 5%c to 6%c over yesterday. Corn advanced 1%c to 2c; oats, 1%c to 2%c, while provisions were 7%c down, to 57%c higher.

while provisions were 1750 down, to 1720 higher.

While fluctuations in wheat were spectacular the story behind them was simple, namely, the belief that the war means still higher prices. Lord Kitchener was quoted as saying the allies were prepared for three years of struggle, and millers were buying wheat said to be for the purpose of satisfying the foreign demand for flour.

The fact that Liverpool was higher other routine news was practically disretered.

The fact that Liverpool was higher other routine news was practically disregarded. A 3c bulge early brought out considerable profit-taking, but prices were not materially affected, and stop loss orders were uncovered within 5c of the top, and the price was bid up on a market practically bare of offerings. Advances in corn, oats and provisions were due mainly to the war as reflected in wheat, and the tone was strong. Country offerings of corn and oats were small and the eastern shipping demand good.

ending August 21 was \$47,940. There was some liquidation of Septem

## MONTREAL, Aug. 26.—The general market situation here today was unheard and oat prices did not induce any new business. The cables that were received here today were much out of line, and it is thought in some quarters that owing to the large quantity of grain that was diverted from the continent the present supply at Liverpool is ample for all requirements and a betterment in cable prices need not be looked for in the near future. There was some talk locally that the business that was done today at \$3.75; 1, 1040 lbs., at \$7.2, 1070 lbs., at \$3.75; 2, 1070 lbs., at \$3.75; 1, 1100 lbs., at \$5.50; 5, 1000 lbs., at \$5.1, 1200 lbs., at \$5.2, 1070 lbs., at \$5.2, 1050 lbs., at \$5.1, 1200 lbs., at \$6.75; 1, 870 lbs., at \$7.35; 14, 815 lbs., at \$7.35; 2, 990 lbs., at \$7.35; 1, 840 lbs., at \$7.35; 1, 910 lbs., at \$6.75; 1, 910 lbs., at \$6.75; 1, 920 lbs., at \$6.25; 1, 900 lbs., at \$6.50; 5, 1000 lbs., at \$6.50;
