# BELIEVE SCOTT ACT NOT SO EFFECTIVE

Deputation From Huron County Tells Commissioners of Inefficiency of the Law.

The first intimation that the Federal Scott Act is not as effective liquor legislation as the provincial local option law came to the members of the Ontario License Board yesterday when three representatives of Huron County, and more particularly the Town of Clinton, waited privately on the board and aired their troubles since the passing of the Scott Act in Huron County a little over a year ago The deputation consisted of Dr. A. J. Irwin, Wingham; J. A. Irwin, Clinton; and Dr. W. C. Thompson, Clinton. J. A. Irwin, speaking for the depu-tation, said that under local option everything worked well in the Town of Clinton. Subsequent to the enforce ing of the new legislation, however which took precedence over the provincial law, drunkenness once more prevailed in Clinton.

The three representatives also in-timated that the liquor inspectors in authority under the Scott Act were not altogether desirable. The deputation requested a ruling on the pro-per punitive measures to be adopted when both acts were really in force in the municipality. They pointed out that under local option law the minimum fine for drunkenness is \$20, whereas otherwise it is usually \$1.

The board was not prepared at the moment to pass on the knotty problem presented, but advised that they would
