The "A B C" Moist Air Dry Kiln

What Others Say About It.

The Holland (Mich.) Furniture Company Writes as follows:
"We take pleasure in stating that the two dry kilns we purchased from you last year have been operated by us in drying oak, elm, ash and basswood lumbers, with results entirely satisfactory to us. We are very much pleased with the operation of your Moist Air Kilns and consider them the best on the market."

Can we send you our catalog No. 177L? It tells of practical, profitable lumber drying.

THE STANDARD DRY KILN

READ THE RECORD

In so important a matter as the purchase of a drying plant, it is worth while to "read up" on the subject and learn thereby that

THE STANDARD DRY KILN

has made the one record worth the reading. It has been before the public nearly fifteen years. It leads, as it always has, in improvements. It is used by more representative concerns than all others.

It has met with a greater degree of success than all others, consequently it has many imitators. It is not an experiment—it does not infringe on anyone's patents.
