MRS. REGULAR CUSTOMER—"Three fifty a yard? Why, I only paid two dollars for the very same goods last week!"

MRS. BARGAIN HUNTER—"Yes, but I bought this at a bargain counter."

Grain and Milling.

The Norquay grist mill, old style, has been moved to Manitou, Man., where it will be fitted up and some improved roller machinery will be added.

The Morden *Monitor* gives the quantity of grain marketed at that place and other points in the district as follows. Morden, 325,000; Gretna, 275,000; Miami, 110,000; Thornhill, 100,000; Plum Coulee, 120,000; Roland, 70,000 bushels.

The output of the Portage plains during the past season was as follows: 1,166,000 bushels of wheat, and 125,000 bushels more expected. Of this quantity 610,000 bushels were marketed at Portage la Prairie and the balance at other points in the district.

Neepawa, Man., has voted exemption from taxation for a proposed new flour mill at the place, for which bonuses are being asked from the rural municipalities of the district. J. J. Hamilton, proprietor of the Neepawa grist mill, has also been voted exemption from taxation.

In order to introduce two-rowed barley in Canada, the Government has purchased a quantity of a favorite variety to be distributed throughout the country. A bag of barley will be sent to any farmer, freight prepaid, for a peg bag, each bag containing 112 pounds. Only one bag will be sent to each applicant. Address Wm. Saunders, Experimental Farm, Ottawa.

A meeting was held at Douglas, Man., the purpose of considering the advisability of forming a joint stock company to build a flour mill. A letter signed by Mr. Plewis, of Bradford, Ont., was read, offering to take a 50 per cent interest in the mill providing the company could raise another \$5,000. The majority were unwilling to take any stock in a company. A number of farmers expressed their willingness to give a reasonable quantity of wheat per year for two or three years, gratis, to some competent man who would build a mill at his own expense.
