

CAISTORVILLE P. O., Co. LINCOLN, Dec. 21, 1872.

MESSRS. GLASGOW, MACPHERSON & Co., Clinton.

GENTLEMEN,—We have worked one of the celebrated Climax Double Cylinder Threshing Machines for the last two seasons, and can truly say that as a fast thresher and a grain-saving machine, it cannot be surpassed in the Province. It threshers fast, runs easy, cleans well and separates the grain from the straw better than any other machine we ever saw work. We cheerfully recommend it to both farmers and threshers as the best in the Province.

Respectfully yours,

JAMES CROWN.  
GEORGE ROSNELL.

LOGAN, Co. PERTH, Nov. 21, 1872.

MESSRS. GLASGOW, MACPHERSON & Co., Clinton.

GENTLEMEN,—We, the undersigned, farmers, residents of the townships of McKillop and Logan, do hereby certify that Smith and Edmondson have threshed for us with a threshing machine of your manufacture, called the Climax Double Cylinder, and we consider the said machine in all kinds of grain, has no superior in the Province, and would recommend it to every person in want of a first-class machine.

Yours truly,

PATRICK WOODS,  
JOHN ROWAN,  
PETER HALFPENNY,  
FREDERICK BETTGER,  
JOHN KENNY,

WILLIAM BYRNE,  
JAMES NELMES,  
FRANCIS O'BRIEN,  
JOHN DARCEY,  
EDWARD ROACH,

J. REID.

MATLOCK P. O., Co. LAMETON, Feb. 28, 1873.

MESSRS. MACPHERSON, GLAGOW & Co., Fingal.

GENTS,—I am quite happy to inform you that I am highly satisfied in every point with the threshing machine I got from your firm, and I can positively say that the "Climax" excels all other threshing machines that I ever saw. All parties for whom I have threshed were highly pleased with its work. Wishing you success, I remain,

Yours truly,

WILLIAM HELPES.

BAILLIEBORO P. O., Co. DURHAM, Sept. 25, 1872.

MESSRS. MACPHERSON, GLASGOW & Co, Fingal.

GENTLEMEN,—In reference to the Climax Threshing Machine I bought from you, I would say that it cannot be surpassed. It will thresh more and do its work better than any other machine in this part of the country. I have threshed through four different townships, and every person who saw it work say there is nothing built in the country that can equal the "Climax."

Yours truly,

W. J. FISHER.
