

# HYMAN INSISTS NOW THAT HE RETIRE

Has Written Premier from Los Angeles Demanding His Release.

## OTHERS LIKELY TO GO

OTTAWA, June 7.—(Special.)—Hon. Charles S. Hyman has resigned his portfolio as minister of public works, and will retire into private life immediately.

He has written to Sir Wilfrid Laurier, insisting that his resignation be accepted, and that he be allowed to seek retirement. The letter is dated from Los Angeles, California, and is different from any other communication he has had with the government, in that it absolutely demands that his resignation be accepted.

And his resignation will be accepted, for those in the confidence of the government have come to understand that Sir Wilfrid Laurier proposes to clean house immediately after his return from the old land. In fact, before he left for the imperial conference, it was given out quietly that his stay abroad would afford an excellent opportunity for the weak vessels of his cabinet to either mend their ways or get broken.

**Frank Confessions.**

For the past six months men of prominence in the Liberal party in the various provinces of the Dominion have been coming to see Sir Wilfrid Laurier and tell him of the condition of the party in their districts. Each missionary, without exception, has been cordially received by the premier, and invited to open his heart. Some plain speaking has been indulged in, and so far as the Province of Ontario is concerned the premier repeatedly has been told that the Liberal party is dissatisfied with its representation in the cabinet and solicited of the welfare of the party.

**Time to Prune.**

With so much criticism being given to him from critics who have much interest at stake, it is not surprising that Sir Wilfrid Laurier should have taken thought as to the personnel of his cabinet and the future of the party which he has led so long.

Those who pretend to know declare that there will be another shake-up before an election, but certain stories are coming from the far west, indicative of industrial or financial depression, that may cause the Liberal party to reconsider their intention of postponing an appeal to the country.

It is an old story that when a country is prosperous in industry and commerce the government meets a grateful people, but when a bad harvest or the tumbling of industry spreads discontent in any section, the malcontents love to wreak their vengeance upon the government, tho' it may be as innocent as a newborn babe.

**Added Prestige, But—**

Then those who expect an appeal to the country shortly after Sir Wilfrid Laurier's return from abroad say that the added prestige he has gained by reason of the position he has taken on imperial questions makes the time most opportune for him to hold a general election and crown his career by sweeping Canada for the Liberal party.

Besides, they see in Hon. Clifford Sifton's all-red line a patriotic issue, which is national and imperial without giving offence to the good people of the Province of Quebec.

But whether the election is held before another session or not, still Sir Wilfrid Laurier believes that it is well for the honor of the Liberal party to be rid of those men whose conduct has caused him no little uneasiness, and the true friends of Liberalism great anxiety.

**Forced Out?**

With the passing of Hon. C. S. Hyman, the political atmosphere is more or less cleared, and a thorn in the side of true Liberalism is torn out. While ill-health is the excuse given by Mr. Hyman for resigning, still there is little doubt in the minds of those who know that the real reason for his cutting out is a demand from the Premier of Canada that he retire.

## You will count no convivial occasion complete without this pure charged water, once you discover the zest it adds to spirits and its thirst-quenching qualities. We vouch for its absolute excellence, even compared with the few imported waters which are nearly as good. Of course, you can pay more for them if you see fit, but why should you?

## CONSTABLE ASSAULTED BY BAD GANG ON STREET

William Lilly Barricades Himself in Room, Driving Police Off With Heavy Timber.

Two men are under arrest and more arrests will follow as the result of an assault committed on P. C. Kennedy at Queen and Jarvis-streets at 4:10 Saturday afternoon.

William Lilly, 98 Jarvis-street, and others, it is alleged, were insulting women at the corner. They refused to move on when told by the constable, and when he took Lilly into custody, Kennedy was assaulted by Harry Fraser, who lives at Jarvis and Queen-streets.

Kennedy was knocked down and severely beaten, but succeeded in getting hold of Fraser, when P.C.'s Allan and Griffith arrived on the scene. Lilly had fled to his home on Jarvis-street, where he took refuge in the attic and, armed with a heavy timber five feet long, drove P. C. Allan, who had followed him, down the stairs.

The constable dodged behind Lilly's club and felled him with a blow from his baton. He and Fraser were taken to the station.

Allan and Griffith caught a Church-street car at Queen and Victoria-streets, having heard of the fight. The motorman ran his car along Queen to Jarvis to hasten their arrival on the scene.

Lilly is charged with disorderly conduct, with assaulting the police and with assaulting John Hyslop, 95 Jarvis-street, who aided Kennedy. Fraser is charged with obstructing the police. The constable is severely bruised and has a wound on his left hand where he was bitten by Lilly.

## HEBREW SCHOOL OPENED.

Talmud Torah Will Teach Judaism and Patriotism.

The Hebrew school on Simcoe-street was opened on Sunday afternoon. President E. Fudman and Vice-President N. Smith, with Rabbi Gold of Uthra, N. Y., and Rebbe Winthrop and Gordon of Toronto, and Principal Nathanson, formerly of Rochester, gave addresses.

The staff of the new school will be as follows: Mr. Madursky, Mr. Steiner and Mr. Greenberg.

Rabbi Gordon stated that the Talmud Torah school had for its aims the teaching of Judaism and patriotism. Mrs. Brenner then formally opened the school with a golden key. She gave \$300 towards the founding of the school. The donations received at the meeting amounted to \$600.

## SHELTER FOR POOR CHILDREN

Society's Home is Overcrowded and Need of Extension is Urgent.

That the Children's Aid Society as an institution is deserving of the greatest support from the public at this week's benefit performances at the Princess is evident from the overcrowded condition of the home just now.

There are 58 inmates and every inch of the available accommodation is being utilized, yet on Saturday a woman who knows conditions as they exist in the city enquired of the superintendent if they were prepared to receive a hundred little ones. She had to be told no.

She went away and came back with seven more.

An instance was related of one woman with six children, who is about to be taken to a hospital, and for whose little ones there is no home offered.

**Mr. Fetherstonhaugh in Town.**

Mr. Fetherstonhaugh, patent solicitor of Montreal, recently spent a few days with his brother-in-law, Frank Plummer of Madison-avenue, on one of his many periodical visits to the Toronto end of his firm. Messrs. Fetherstonhaugh, Dennison and Blackmore, formerly of the York Chambers, Toronto-street, and more recently of the Star Building, King-street, Toronto.

**Making Pullman Statue.**

The eminent Belgian sculptor, Jef Lambeaux, who is regarded by many as Rodin's only rival, is busy on the monument to be erected in Washington to the memory of the late George M. Pullman, the former head of the Pullman Car Co.

**Attempts Suicide.**

Ernest Moore, 95 Jarvis-street, 20 years old, attempted suicide Saturday morning by cutting his throat with a pen knife. The wounds extend almost wholly around the throat. He was taken to St. Michael's. He will live.

**Wm. Anderson to Retire.**

PETERBORO, June 8.—(Special.)—Wm. Anderson, M.L.A. for East Peterboro, has announced that he will retire from parliament at the end of the present term.

## REV. R. MAGILL BECOMES NEW COLLEGE PRINCIPAL

Appointed by Assembly to Succeed Principal Falconer at Halifax.

MONTREAL, June 8.—(Special.)—Principal MacLaren presented Knox College report at the general assembly to-day. He stated for the information of the assembly that the late treasurer, Dr. Warden, had made some unfortunate investments of the college funds and a loss had occurred on three of these amounting to \$77,000. Considerable personal risk had been incurred by the treasurer, and the board had decided to take no steps to collect the amount from the late Dr. Warden's estate.

There were some other securities not of a legal nature, but revenue-producing, which would be sold as soon as possible, and the proceeds invested according to the charter. A committee of the general board of trustees would in future handle the college funds.

Sir Thomas Taylor seconded the adoption of the report. He thought they would have to accept the loss mentioned with equanimity and say nothing more about it.

Principal Gordon said that Dr. Warden's friends had legal advice that he was quite qualified to make the investments referred to.

The moderator remarked that while some of the investments were disastrous, others brought in more than legal securities would have done.

J. K. Macdonald pointed out that the members of the board were personally liable for the misdirection by the church's officer, and he as a member of the board desired to be relieved of that responsibility.

A motion was adopted burying the whole transaction.

Prof. Robert Magill, Ph.D., the brilliant young scholar from Belfast and for three years principal of the Knox college and systematic theology, was appointed president of Halifax College, to succeed Dr. Falconer.

In accepting the appointment Dr. Magill said that while his ambitions might not exactly have taken the form of a principality, he felt after the treatment he had received from the board for four years when they asked him, he could not otherwise.

**College Reports.**

The board of Knox College submitted the 63rd report. During the past session 53 students had been enrolled, making a total of 77. The purchase of part of the new site for the college at a cost of \$15,000 was noted. But for this purchase the whole site would have been lost. Receipts on capital account were placed at a total of \$131,157. The general income for the year was \$20,000. The total assets are figured at \$398,268, exclusive of the present college building and the accounts. John Macfarlane & Co., declined to accept responsibility for the intrinsic value of the securities held, particularly the mortgages and real estate, unless re-evaluated.

The board of Queen's reported a total of 1133 students in attendance, an increase of 97. The revenue is still deficient, and however the deficit of \$12,696 being included in the accounts. The revenue was over \$68,000. The committee appointed to secure additional endowment of \$250,000 promised up to May 15 last, and of this \$127,430 had been paid.

Montreal College had 54 students enrolled, but only three graduated. Principal Scrimgeour's report was of a routine character. The accounts showed a deficit of \$10,000. The college has a fund, while the balance sheet gives a total value of \$488,000.

The Halifax Presbyterian College board reported a deficit of \$10,000, and some increases of salaries were made. The details of Dr. Falconer's report were technical.

Theological college in British Columbia was unanimously favored by the committee on that behalf. A solid assurance of material support was anticipated.

An architect's estimate was made by G. W. Grant, in which the cost for the new college building was \$100,000, and equipments \$100,000 in all. This sum will be provided by Vancouver and surrounding districts.

St. Lawrence College had an extraordinary expenses, spent a considerable sum on improvements, and reported a balance of \$10,000. The college is being extinguished, and also for additional accommodation.

**TELEPHONE TRANSMISSION.**

Reason Why Speech by Wire is Sometimes Indistinct.

If human speech is to be transmitted with complete clearness, every constituent vibration must be reduced in intensity in the same proportion as the frequency of the sound. This is due to the fact that the effective resistance increases with the frequency, while the magnetic induction decreases. This has a serious effect upon distinctness, especially as the frequency of the constituent notes of human speech varies between 500 and 10,000 vibrations per second.

Another complication is introduced by the natural period of the telephone disc. According to Max Wien (Annalen der Physik), a Bell telephone reinforces the notes of 1100, 2800 and 6500 vibrations per second, and several higher pitches as well. A Siemens telephone has two successive maxima at 500 and 5400. The most characteristic notes of the human voice lie between 500 and 3000, and for these notes the telephones of Bell, Apol and Siemens are equally sensitive.

For higher notes, the sensitiveness often shows remarkable differences. Thus, a modern Siemens telephone will transmit the note 4000 vibrations per second as loudly as a Bell telephone. The author used an alternating current circuit for these investigations.

**DR. A. W. CHASE'S 25c CATARRH CURE**

Is sent direct to the diseased parts by the improved blowers. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers or Dr. A. W. Chase, Medicine Co., Toronto and Buffalo.

The constant Cigarette smoker will never fully enjoy a smoke until he has tried

## Sweet Violet Cigarettes

made of the purest blended Virginia and Carolina tobacco wrapped in the purest rice paper. Sweet Violet Cigarettes make a mild, pleasant smoke very gratifying to the taste, especially so on account of the absence of all irritation to the throat.

Sold by all dealers.

10 for 10 cents.

SWEET VIOLETS NEVER TIRE. SWEET VIOLETS NEVER IRRITATE.

Manufacturers Dominion Tobacco Co. MONTREAL

## Some Items Condensed From The Sunday World

Hon. Charles S. Hyman has written Premier Laurier, insisting that his resignation be accepted, and that he be allowed to seek retirement. It is understood it will be, and that Sir Wilfrid intends to "clean up" the cabinet on his return from Europe.

Representatives of the municipalities of the Rainy River district, at a meeting at Fort Frances, decided to take no action in connection with the resignation of a minister of public works. No action was taken.

At the Presbyterian assembly on Saturday, it was decided to take no action in the matter of alleged unauthorized investments by the late treasurer.

Prof. Robert Magill has been appointed principal of Halifax College. Eight hundred Toronto machinists went on strike Saturday.

The Canadian Colored Cotton Co., Fredericton, are reported to have absorbed the Marvella mill.

An attempt was made to wreck a Southern Pacific overland train near Los Angeles, by tying a log to the wheels.

At Weland, Judge Wells granted the extradition of Herman Barrels, wanted in Auburn, N.Y., on charges of arson and perjury.

Full reports of all the sporting events of Saturday.

## BARTELS EXTRADITED.

Millionaire Brewer Must Go to United States For Trial.

WELLAND, June 8.—(Special.)—Herman Bartels will be extradited. Judgment was given to that effect this morning. The case has been fought out point by point. Hartley Dewar and N. Sommerville, Toronto, have worked hard to prove that the prisoner was not guilty of perjury.

Bartels is a millionaire and had interests in half a dozen breweries in New York State. He was convicted of arson and allowed out on \$15,000 personal bail to appear for sentence. Instead of appearing he skipped to Canada. A man named Whittig was supposed to pour 200 gallons of coal oil to his warehouse and apply the match. But some pedestrians were attracted by the noise of moving the oil barrel. Bartels swore he does not know Whittig, hence the alleged perjury.

## ROOSEVELT AS A MASON.

Lays Corner Stone of Washington Temple—Relics Used in Ceremony.

WASHINGTON, June 9.—President Roosevelt, a member of the Blue Lodge of the Masonic fraternity, participated in the work, and made an address at the laying of the corner-stone Saturday afternoon of the new Masonic Temple, which is to be erected here at the corner of 13th-street and New York-avenue.

The gavel and trowel used were those used by President Washington in laying the corner-stone of the United States Capitol Building, Sept. 18, 1793, and the Bible was that used by Frederickburg Lodge, No. 4, of Virginia, when Washington became a member of the fraternity.

## FOUR KILLED BY LIGHTNING.

SAN LUIS POTOSI, Mex., June 9.—Four persons were killed by lightning and instantly killed here on Friday afternoon while sheltering themselves under a tree during a violent storm.

Four of their companions were also struck, and two of them may die.

## MARBLE CUTTERS' PRESIDENT.

BOSTON, June 9.—The international convention of Marble Workers closed on Saturday. Walter V. Price as general president.

Application Made For Receiver. SPRINGFIELD, Ohio, June 9.—Application was made yesterday for a receiver for the Farmers' Co-operative Harvesting Machine Company, located here. The company is capitalized at \$500,000, and was organized three years ago by Wm. H. Whittely, a well-known agricultural implement manufacturer.

IS IT WISE TO BUY INFERIOR GOODS WHEN YOU CAN GET IN EVERY STORE

## COWAN'S PERFECTION COCOA

(MAPLE LEAF LABEL) WHICH IS ABSOLUTELY PURE AND THE VERY FINEST QUALITY.

The Cowan Company, Limited, Toronto

## DUMONT'S NEWEST FLYER MOUNTED ON WHEELS

Fifty Horse-Power Motor Floated by a Cigar-Shaped Balloon.

PARIS, June 8.—Santos Dumont's new form of airship, or dirigible balloon, consists of a light frame practically floated above the ground by means of a cigar-shaped balloon, or gas bag, inflated with hydrogen, and having a maximum capacity of 100 cubic metres.

The gas bag is attached to a bamboo frame, strengthened towards the middle by an iron tubing. In this frame a 50-horsepower motor has been placed, and behind the motor is a small bicycle saddle for Santos Dumont, and the necessary controlling wheels.

The frame is mounted on small bicycle wheels, furnished with pneumatic tires, and under the balloon, both back and front, are two horizontal rudders. There is also a vertical rudder in the rear.

The entire apparatus weighs about 8 kilograms, and it is expected to overcome this dead weight by the forward movement through the air acting upon the horizontal planes or rudders.

## 250 PEOPLE DROWNED.

Typhoon and Tidal Wave Wrought Havoc in Caroline Islands.

SAN FRANCISCO, June 9.—The first details of the havoc wrought by a typhoon and tidal wave in the Caroline Islands in March reached here yesterday.

The Oeal group was devastated, the land being buried under sand. Fifteen hundred persons were made homeless and 250 were drowned on one island alone.

Twenty-five persons were lost on another.

The typhoon lasted three days. Hundreds of natives saved themselves by swimming about until the tidal wave receded.

## SIX MILLION DOLLARS DAMAGE

Caused by Cyclone in City of Kurrachi, India.

BOMBAY, June 8.—It is estimated that damage to the amount of \$2,000,000 to \$3,000,000 was caused by the cyclone which swept over Kurrachi June 6.

The lighting system of the city was wrecked.

## VILLAGE DESTROYED.

Earthquake Demolishes Seral, on Turco-Persian Frontier.

CONSTANTINOPLE, June 8.—The village of Seral, 50 miles east of Van, on the Turco-Persian frontier, was destroyed by an earthquake yesterday. Slight shocks were felt at Van.

## Falls to Floor Dead.

PETERBORO, June 8.—(Special.)—Mrs. James Taylor of Chemung was found dead on the kitchen floor of her home to-day. Mrs. Taylor was lifting a pall on the stove when she expired from heart failure. She was 65 years of age, and leaves a husband and large family.

## Emperor Grants Concessions.

ST. PETERSBURG, June 9.—Emperor Nicholas has approved a recommendation of the council of ministers in favor of granting a concession for the construction of a railroad from the station of Kamsk, in Siberia, to Berne Stralts, and a tunnel under the straits.
