The "bar" is a recognized institution of the country, as firmly anchored in our social life as cur Public school system or our municipal institutions. What would the Canadian village be without its tavern? And what would the tavern be without its bar? Such a condition of the seaman; H. F. Clark, able seaman; R. E. Siegle, apprentice, 19 years old. Nine others of the crew were rescued by boats that were in the vicinity. The captain, John Crow, swam to the small boat lying astern and pulled himself to the landing. The Blairmore arrived from Newcastle, N.S.W., with a cargo of coal about a week ago, making the voyage in 56 days, the shortest time on record. things would surely turn the township into a desert without oases. The tavern at the cross roads is the very cening house of village gossip, the rosnetic attraction for each other. It has been noted by keen observers that wherever a crowd of men find themselves discussing politics a little investigation will reveal the existence of a bar near by. Much speculation has been indulged in as to the cause of this peculiar natural phenomenon, but it is now admitted by the highest authorities that it is the bar that magnetizes the crowd and not vice versa. A forcible exemplification of the magnetic influence of the bar is afforded by the House of Commons at Ottawa.

by the House of Commons at Ottawa.
We have it on good authority that during the present week members of Parliament, wearied with the prolonged session and dozing away in their seats, have been seen to frequently rise up as if actuated by some impelling force, leave their desks and, amid a labyrinth of rooms and corridors, to keep along a certain trail, like an Indian making his way through the woods. When the end of the trail is reached these members invariably have found themselves standing before a found themselves standing before a found the service of schools with a view to simbar. An act to repress treating has actually been carried by a vote of 33 to 8 in the Ohio Legislature, and it is stated the Senate will ratify the action of the lower house. The suppression of treating, of course, means the suppression of four-fifths of the hotels and bars of the country. Indirectly, therefore, this attempt to interfere with the laws of nature has a deep interest

to us, and the result of the experiment in Ohio, if it ever goes into force, will be anxiously awaited in this country.

cause they have tried it and been cured. One of them was from Mr. J. Gillan, B. A., 39 Gould Street, Toronto. Read how he writes:

GENTLEMEN, -During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success forsook me, and all my efforts were in vain. My skin became yellow, my bowels became inactive, my liver was lumpy and hard, my eyes became inflamed, my appetite was gone, and the days and nights

passed in unhappiness and restless For some months I tried doctors and patent medicines of every description, but received no benefit. - Being advised by a friend to try B.B.B., I am glad to have the opportunity of testifying to the marvellous result. After using three bottles I felt much better, and when the fifth bottle was finished I enjoyed health in the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B. B.B. to all poor suffering humanity who suffer, from impure blood, which is the beginning and seat of all diseases. J. GILLAN, B.A., 39 Gould St., Toronto

Those who have never had their gar-ments cleaned or dyed will and it a great boon to do so in these times or great boon to do so in these times of depression. A suit of clothes, if only soiled, can be made to look like new; or if faded, you can have it made a fresh color again, which will not rub off or be affected by wet weather. This kind of work must be taken to a first-class house, if you desire satisfaction. Stockwell, Henderson & Co. have the best reputation in the city for Going job dyeing and 2cleaning. They give the business their personal attention, and every job passes through their hands. They also do work quickly when necessary, finishing a job the same day when required. Goods sent for and returned, or leave them at any of their three stores, 103 King-street west, 250 Yonge-street, or 772 Yonge-street.

To get at the root of the matter is simple enough if you start right.

Sault Ste. Marie, Mich., April 9.—The warm weather of the past three days made great inroads into the snow and ice in this vicinity. Teams crossed the river for the last time yesterday. The channel is rapidly opening up and ferry boats will be running in the next week or ten days. Ice is now 20 inches thick in Hay lake and 16 inches thick in Mud lake. It is thought boats can reach here by April 25. Ice at Soult Ste, Marie.

Comparison is our hope, our mainstay. If folks were not wide awake and full of buying wit we might close our store.

We live, we prosper by cynical comparison and keen competition. Not one in 100 of the buyers in this store know the proprietors-never saw them-don't care whether they ever see them. This store does not appeal to your friendship only -it claims your shoe wisdom. Guinanes' claim your trade on a basis that appeals to your self-interest—on a value basis. When we cease to save you money, we'll close our store and surrender your friendship.

Guinanes have not built up this big shoe business. The people have built it they buy here because they are justly selfish of their own coin.
