Hitherto only those who have visited the Tower of London have had an opportunity of seeing the Crown jewels of England, but at present Ryrie Bros, are showing in their diamond exhibit in the centre of the Main Building an exact duplicate in one-half size of the Imperial crown of England. It is made of solid gold throughout and contains over 800 gems, including diamonds, pearls, emeralds, rubies and supphires. TIPS FROM WALL STREET. McIntyre & Wardwell (John J. Dixon) received the following despatch from New York to-day: York to-day:

A sensational rise in Omaha, over ten points above the opening price, was the feature of this afternoon's stock market. It was rumored that the Northwest would guarantee 4 per cent. dividends on the stock. The rise was very rapid and at no time was there any pressure of long stock. Rock Island was strong and Northwest higher. St. Paul and Burlington were distinctly heavy in tone. The general list was irregular. Sugar held its advance, closing about 157. The rumors to-day dwelt most upon an increase to 4 per cent. quarterly at the next dividend meeting. Exchange is firmer at \$4.85% to \$4.86.

gather strength. It ruled very firm all day and closed at about 4c advance. Several large shorts covered and the syndicate bought and sold, but accumulated some wheat in their trading. Cable news was firm and New York reported an improved export demand, but only 10 loads actually worked. Cable acceptances were said to be quite large. Foreign houses bought freely, both in New York and this market. Bradstreets reported a decrease in the stocks east of the Hockies 1,806,000 bushels, and an increase in amount affoat for and in Europe of 3,000,000 bushels. Clearances from the seaboard promise to make the weekly amount large again for three days they amount to about 2,400,000 bushels from Atlantic Coast alone. The situation looks stronger and with renewed speculative interest a further improvement in prices is quite likely.

Provisions—Opened weak and lower, then advanced with corn and wheat. Local operators principal buyers. At the advance longs sold October and December lard. The market closes steady. Estimated receipts of hogs to-morrow 30,000.
