Insurance Agency Corporation.

Capital is always looking for fresh, safe and profitable fields of investment, and in the writer's mind such is offered by the Insurance Agency Corporation, Limited, of Ontario. This is a company thru the agency of which money is loaned on the security of insurance policies issued by the regular companies. The profitable character of this channel of investment is easily seen, when it is remembered what a large field it opens. The class of men who desire to borrow money on life insurance policies is always large.

As to the safety of lending money thru this agency on life insurance policies, it should be pointed out that the corporation is limited by its charier to this mode of investment, and it will loan only on policies of companies of undoubted solvency, Insurance Agency Corporation.

A perfectly equipped Russian and Turkish bath establishment is a necessity in a large city. In Toronto the most modern and best fitted up is Pember's, at 127 and 129 Yonge-street. The success that has attended the proprietor's efforts to make his place of business second to none in Canada is well known, and now he enjoys a patronage which extends all over the country.

It was pointed out that a new tannery was being started at Sault Ste. Marie, on the American side, no doubt with a view of securing tan bark from Georgian Bay district. This new concern would depend entirely on bark from the Crown Lands timber. The supply in Outario has been greatly depleted in the old parts of the province, and the districts of Nipissing, Parry Sound and Muskoka are looked upon for the future supply of hemlock bark.

On Feb. 14, 1900, the Wabash Railroad Company will run a personally conducted and select party of fifty people for a 30-day four through old Mexico. This will be by far the grandest and most comprehensive tour ever run by any railroad in America. This will be a chance of your life to visit this ancient land of the Montezumas. Every point of interest will be visited. The train will be the finest ever seen in this country, consisting of dining car, sleepers, observation and baggage cars, built especially for this trip. The route will be over ten different roads, covering seven thousand miles of travel. Full particulars of this wonderful trip from J. A. Kichardson, District Passenger Agent, northeast corner King and Yonge-streets, Toronto.

Premier Ross in replying, said, of course, that he was delighted to meet such a representative deputation of the tanners. The Government's policy was, he said, to encourage the manufacturer of raw material. The Government would look into this case carefully, and would give a reply at an early date.

The probabilities are that what the tanners asked for, they will receive.

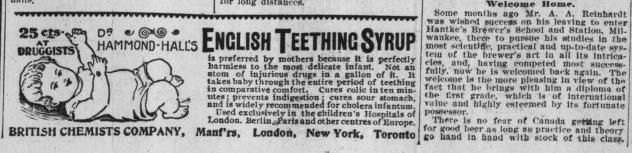

The gentlemen composing the deputation were: W D Beardmore, S R Wickett, A R Clarke, G P Beale, Edgar A Wills, Toronto; Charles Rowman, M.L.A., Southampton; Charles Rowman, M.L.A., Southampton; Charles Rowman, M.L.A., Southampton; Charles King, Whishy; J C Breithaupt, C H Laing, Berlin; G Beale, Lindsay; Mr. Marlatt, Oakville; W H McCordick, J S Woods, St. Catharines; James Newton, Newtonbrook; Joseph Covington, Kingston; Charles Robson, Oshawa; E T Daville, Aurora; C J Miller, Orilha; J J Lamb, Omemee. The Demon Dyspepsia—in oiden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that a valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready or the trial.
