The Dairy Markets. LIVERPOOL. Liverpool, Nov. 28.—Cheese steady; demand poor; finest American, white and colored, September, 51s. Butter-Finest United States, 98s;

good, 60s. NEW YORK. New York, Nov. 28 .- Butter-Choice firm; creamery, 14c to 22c; western dairy, 8c to 13c; do, creamery, 13 1-2c to 23c; do, factory, 7c to 12c; Elgin, 22 1-2c; to 23c; imitation creamery, 10 1-2c to 16c.

2 1-2c to 3c.

Watertown, N. Y., Nov. 28.-Transactoday: 1,060 at 9 3-4c, 180 at 9 5-8c, 950 at 9 1-2c. Leading and ruling, 9 1-4c. CANTON. Canton, N. Y., Nov. 28.—One thousand tubs of butter registered. No

sales at a late hour. LONDON. The market on Saturday was one of the largest of the season, but the sales only amounted to 100 boxes. One factory (Devizes) sold at 9 1-2c. The ruling prices were 9 1-4c for September, 9 1-4c to 9 1-2c for October, and 8 1-8c for November. Cable prices on Saturday were 51s for both white and colored. Over 11,000 boxes were of-fered for sale here, but buyers de-clined to bid above 9 1-2c. They perhaps feel that holders will soon tire of taking the risk and expense at-

tached to keeping the large stock of cheese on hand. The following fac-tories were represented: Holmesville.. oliver

After the third call the matter be-tween Mr. W. P. Hibbert and John Proof Line cheese factory, was taken up. The complaint laid by Mr. Hod-gins was that Mr. Hibbert had bought 150 cheese at 10 1-8c, and that when he had seen them he refused to take them, as they were not good in body. He then offered Mr. Hodgins 9 1-2c, which at the time was about the mar-

ket value. Mr. Hodgins said he had named his arbitrator, and wished Mr. Hibbert to name his, and settle the matter quickly.

Mr. Hibbert refused to submit to arbitration or appoint an arbitrator. He said the cheese was loose in body when he saw it, and that when he had refused to take it, the maker, Mr. Humphrey, had said he would sooner give him (Mr. Hibbert) \$50 than have Mr. Hodgins get into any trouble. He also produced a telegram, in which Mr. Hodgins had declined his offer of \$1-2c, as he had been offered. hen he saw it, and that when he more. That, he thought, was sufficient to let him out of the bargain.

Mr. Brown, the president, then read

the bylaw governing disputes, and which provides for the appointment of

what should constitute export cheese. He gave notice that next week he would move the following resolution:
"That all cheese bought and sold between members of this board be subject to inspection, and the standard of quality of the Montreal Butter and quality of the Montreal Butter and Cheese Association be the standard of this board, viz.: Flavor, clean and

pure, body close and good, texture silky or flakey, color good and uniform, finish of good shape and fairly uniform in size, neat in finish, with good rinds and clean surface; boxes strong and close fitting."

Mr. Hibbert gold that if a man who Mr. Hibbert said that if a man who Mr. Hibbert said that if a man who understood export cheese would say they were good, he would pay Mr. Hodgins 10 1-2c for them.

Mr. Humphrey explained the way in which he came to offer Mr. Hibbert the \$50. He had simply said after Mr. Hibbert had refused to take the cheese that he would sooner lose 5\$0 than

that he would sooner lose 530 than have Mr. Hodgins get into trouble with the patrons. He admitted the cheese were not of the best when Mr. Hibbert had seen them, but they were all right J. A. Nelles, the secretary, said the bylaw had been violated, and that it was in order that a committee be appointed to inquire into the matter.

This was done on motion of D. McMillen and John Gilmore.

THE CHEESE EXPORT TRADE. The cheese export trade for the seaisfactory. The volume of business done does not show much expansion compared with last year, but the price obtained for the goods were better, and that has made the export trade more canada this year amounted to 1,726,000 boxes, or 16,000 more than tast year. It is figured out that cheese in the country this year netted the producers \$6 a box, or 75 cents more than last year, that the producers received \$11,652,000 for their product this year, against \$10,260,000 last year, and that for the six and a half months exporters were engaged in moving season's output some \$12,000,000 season's output some \$12,000,000 was required to move it. This shows the importance of this industry to the country. The highest price paid in the country for the season just closed was 10 3-8c in October, and the loweest was 6 1-4c in May. Last year the highest price paid was 9 1-4c in October and November, and the lowest 6c in May, while in 1894 the highest was 11 3-8c in September, and the lowest 8 1-2c in June. The butter export trade also shows a gratifying port trade also shows a gratifying expansion this year, and this, no doubt, will encourage those at present engaged in schemes to further improve this important branch of our export trade. The total number of packages exported this year was 157,321, valued in the country at \$1,890,000, against

69,664 last year, valued at \$853,000, and 32,065 in 1894, valued at \$384,000.

An Excellent Exhibition of China Painting,

Under the Auspices of the Woman's Art Club.

In the upper story of the Free Library building the east half presents an appearance that is highly artistic. One of the finest exhibitions of china Cheese—Steady; large, 7 1-4c to One of the finest exhibitions of china to 10 3-8c; small, 7 1-2c to 10 1-4; part skims, 3 1-2c to 6 3-4c; full skims, this city is there displayed, tastefully this city is there displayed, tastefully arranged. Palms and flowers are so disposed as to greatly enhance the beauty of the scene, and the eosy corners, which are draped and fitted up very nicely, look most inviting.

This treat has been provided for the public by the Woman's Art Club, and the ladies on the china committee are Mesdames Hyman, Hunt, Mortimer, Leonard, Screaton and Lipsey. Among the exhibits is the work of ladies from outside the city. Several pieces, shown by Miss C. E. Galbraith, of Hamilton, are very beautiful and unique, particularly a couple of Royal Berlin vases of a peculiar pattern, which is not exported from Berlin unburnt. Miss Galbraith spent most of

some very fine jardinieres, tea sets and smoking sets.

Probably the finest collection is that of Miss Hesson, of Stratford. It contains a great variety of designs, and the workmanship is exquisite. Two or three jardinieres are particularly fine, and some tea sets show very delicate work. A tray, on which is painted a marine scene, with gold around the to their classes, none the worse, and border, looks, as it stands on an easel. like a picture in a heavy gilt frame. Miss Hatch, of Woodstock, exhibits a number of plates nicely done.

The exhibit of Miss Burnett's pupils shows good work and contains two or three large trays which are particularly worthy of mention. A special feature of the exhibition is the wood carving of Mrs. Lipsey, of this city. This work is very fine, and includes a cigar box, photo case, newspaper rack, brushes in ebony, delicately carved, and parts of an easel, on which the carving is of a very heavy pattern. Miss Burnett's work includes a particularly fine jardiniere. a number of plates with figures well done, and many dainty little pieces. Mrs. Mortimer shows a large tray with roses, which is very beautiful. The fish set in this exhibit is another special feature, and it also contains a large and handsome jardiniere.

Miss Bacon, of Stratford, shows some which the coloring and proportion is excellent. Miss Clark, of Stratford, is another exhibitor. Her work includes a tray

and large vase, very well done.

Mrs. J. A. I. Hunt, city, exhibits a pretty collection. One piece, a fern pot, with Dresden decoration, is of very delicate coloring. There are also There is a small exhibit of two or three pieces by Mrs. C. W. Davis. A large and excellent display—the work of Miss Proctor, of Toronto—

contains some figure pieces in which the coloring is dainty and correct. A tray with roses is particularly fine, and Miss Proctor seems to make a specialty of figures. Among the other exhibitors are Miss Robinson, of Stratford; Miss Fenwick, Miss Elsie Perrin (teapot and small articles very dainty in design), Miss Hanaford, of Toronto, and Mrs. A. Screaton and Mrs. A. B. Greer.

WM. STEINWAY DEAD. New York, Nov. 30.—Wm. Steinway, the wealthy piano manufacturer, died at 3:30 o'clock this morning at his

to chronicle the death of another old resident and Government official, Mr.

Patrick Kelly, governor of the county jail, who expired this morning at 6 o'clock. Mr. Kelly's health for some months past had been poor, and seven weeks ago Sunday. He was compelled to take to his bed, where he had remained ever since, and been a reported from the Imperial Institute great sufferer. Notwithstanding the best of skilled medical attendance and the thousand and one little delicacies and comforts which his best of skilled medical at-tendance and the thousand and one little delicacies and comforts which his loved ones provided, he passed away. During her husband's illness Mrs.

Kelly has been almost constantly by his bedside. During Mr. Kelly's time as turnkey and jailer there have been many changes in the surrounding country. He lived to see a great decrease of crime in the county, and when criminals and offenders came within his jurisdiction, he in his kind, gentle, yet firm way, imparted to those under his care a word in season, which no doubt had a salutary effect on their after lives. Mr. Kelly might have been characterized as a man of few words, but his words had weight. He was, even within the last few days, ready to meet his friends with a joke. Mr. Kelly died just as the wards were

being unlocked this morning.

The deceased was born in Dublin, Ireland, on March 5, 1829, and spent dreland, on March 5, 1829, and spent his boyhood days in the county of Wexford. Mr. Kelly, in his youth, learned several trades. His good nature and obliging ways gained for him the knowledge of many things, that it takes some people a lifetime to find out. In 1848 he married Miss Margaret Kinsellar, a native of Dublin, and, in 1855, with his wife and three children, he immigrated to Canada, salling from Liverpool, and landada, sailing from Liverpool, and landing in New York after a voyage of five weeks. He remained in New York for a few days, and then came direct-ly to London, where he had a sister living, and for some time was employed in the distillery. A little later on Mr. Kelly again betook himself to the carpentering trade, but times were so dull that he was forced to seek his fortune in another part, and conse-consequently left for Mississippi.

It was about this time that the civil war broke out, and Mr. Kelly return-ed to Canada in the spring of 1861. In the following September he was given the position of turnkey in the

county jail, wit ch position he held until July, 1883, when he succeeded the late Mr. Fysh, as governor. His only surviving daughter is Catherine, now wife of Mr. Hugh McLean, of the custom house. His only surviving son is Mr. Joseph Kelly, formerly one of the proprietors of the Omaha Times, and now of Erie, Pa. These two are all who remain of nine children by the first wife, who died

In 1884 Mr. Kelly married Miss Maria McLaughlin, whom he leaves to mourn his loss. Among Mr. Kelly's nieces, are Mrs. Thomas Coffey, Mrs. Thomas Payne (Buffalo), Miss Loretta McLaughlin, Miss Katie McLaughlin. Among his nephews are Messrs. Christopher and Charles Heavey, of London West. Mr. Kelly's last official act was the compilation of the last annual report, and the last entry in his books was made on Oct. 9. The funeral takes place on Wednes-

NOVEL PUNISHMENT.

Montreal School Teacher's Method Treating Bad Boys. Montreal, Nov. 30 .- A novel method of punishing pupils has been put into operation by Mr. W. A. Kneeland, the principal at Riverside school, Point St. Charles. He believes that constant repetition maketh the heart sick, and

when a boy breaks a rule, he is forced last summer in Germany and painted when a boy breaks a rule, he is forced the vases there. This exhibit also in-Recently the teacher found some of the boys with tobacco. He took some of it, put it in a glass of water and made each one of the boys take a sip. As the principal intended, the boys became very ill. He took them down to the basement, and they vomited, as bad boys should. They were returned

the teacher scored a triumph. SUIT INVOLVING \$200,000,000

Brought Against Greenwood Cemetery Corporation - Canadians Interested. Buffalo, Nov. 30.-Lawyer Philip V. Fennelly, of this city, is about to bring an action against the Greenwood Cemetery corporation, of New York city, to gain possession of a certain portion of the famous burying ground in South Brooklyn, which bears the name of the corporation mentioned. There are about 250 heirs to an estate supposed to have been left by one Montgomery. Most of these live in various sections of Canada. The property involved in the contemplated ac tion is said to be worth \$200,000,000.

Perry, Okla., Nov. 30.—News reaches here of a destructive cyclone at Ralsvery fine figure pieces, particularly a large tray and a picture in a frame, in which the coloring and proportion ton, a small town on the Arkansas River, 50 miles northeast of Perry. Hardly a whole house is left in the town. Mrs. Dorman and two small children were killed and many were injured.

In Payne county, 50 miles east of Perry, many farm houses were laid low and several persons were wounded. After damaging Ralston, the storm crossed the Arkansas River and struck the Osage Indian Nation, and for twenty miles northeast took everything in its path.

CANADIAN STONE WANTED

thing in its path.

Stirred Up. Buffalo, N. Y., Nov. 30.—Today bids were opened for the construction of the extension to the Government breakwater which bulwarks the harbor of Buffalo. Nearly all the bidders bid on furnishing Canadian stone from quarries in the township of Bertie, across the lake from the harbor, and

Provisional clauses were inserted that the stone is to be shipped from Canada in the name of the United States, a proceeding which will allow of the importation of the stone without duty.

The matter of using Canadian stone

STEAMER BURNED.

Two men overcome by Smoke Perish in the Flames-Three Escaped. South Haven, Mich., Nov. 30.—The steamer City of Kalamazoo, owned by the H. W. Williams Transfer Company, took fire at about 4:30 this morn-Robt. Van Ostran, of this place, and Joseph Long, of Covert, who were on the boat, were overcome by smoke and burned to death. Three other men escaped. The origin of the fire is un-known. There was a good insurance

LOW GOLD WAS DEPOSITED. An exhibition of the greatest interest to mineralogists and practical miners in relation to the much argued ed specimens of non-gold-bearing stones in which he has artificially introduced gold in interstices and on the face in such a manner as to defy de-tection, even by skilled experts. Some of these specimens were shown pri-vately to several distinguished geologists, who expressed great surprise at the remarkable character of the exhibition. The discovery some years ago that gold could be induced to deposit from its mineral salt to the metallic state on any suitable base, such as iron sulphide, led Mr. Johnson to experiment with various salts of gold, and by which he has produced most natural looking specimens of auriferous quartz from stone which from previous assay contained no trace of gold. Moreover, the gold, which penetrates the stone in such a thorough manner, assumes some of the more natural forms. In one specimen shown face, but penetrates each of the lammations, as was proved by breaking.
While this knowledge of how gold was
probably deposited may help to suggest how it may be economically exa power for harm it would be in un-scrupulous hands, for the fraudulent

W. S. GILBERT AND THE DUDE Gilbert of Bab Ballad and Pinafore fame is said to have had an amusing experience on the occasion of a London "function" which he attended. On taking his departure he was accosted in the hall by a monocled dude, who pretended to mistake him for a

servant, as follows: "I say-er-call me a four-wheeler, you know.' "Sir," immediately rejoined the wit, "you are a four-wheeler!"
"What do you mean, sir; do you wish to insult me?"
"Not at all." said Mr. Gilbert. "You

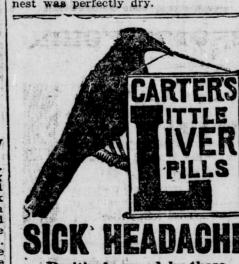

asked me to call you a four-wheeler, and I did so. I couldn't call you han-som, you know." PARALYZED IN THE PULPIT. B. Hill, formerly missionary to China. livering a sermon at the M. E. Church vesterday. The church was crowded and when the minister reeled and fell backward in the pulpit excitement ran high. The afflicted minister is still

alive, but slowly dying. HUMMING-BIRD'S UMBRELLA. A writer in the American Sportsman tells a remarkable story about the

In front of a window where worked last summer was a butternut tree. A humming-bird built her nest on a limb that grew near the window, and we had an opportunity to watch her closely. In fact, we could look right into the nest.

One day, when there was a heavy shower coming up, we thought we would see if she covered her young during the rain. Well, when the first drops fell, she came and took in her bill one of two or three large leaves growing close by, and laid this leaf over the nest so as completely to gover it; then she flew away. On examining the leaf, we found a

hole in it, and in the side of the nest was a small stick that the leaf was fastened to, or hooked upon. After the storm was over, the old bird came back and unhooked the leaf, and the nest was perfectly dry.

RADWAY'S

THE WONDERS OF MODERN CHEMISTRY SARSAPARILLIAN AND ITS ASSOCIATES.

DR. RADWAY'S SARSAPARILLIAN RE-SOLVENT cures with astonishing repidity diseases hitherto considered incurable, and invests those marked with the seal of death with new life, vigorous health and atrength, with the purest and richest blood that ever flowed through the veins of man, woman or

child.

For years Dr. Radway has been laboring in the vineyard of medical science in improving the process of obtaining the active properties from medicinal substances without heat. This great desideratum he has successfully accomplished, so that every ingredient used in Radway's Sarsaparillian Resolvent and the Ready Relief and Radway's Pills are the pure, unadulterated, active properties. In Radway's Sarsaparillian Resolvent one teaspoonful contains more of the pure curative principle of Sarsaparilla than will be found in a quart bottle of the weak decoctions of the advertised Sarsaparillas.

'RADWAY ON OVARIAN TUMORS'
In Tumors, Nodes, Hard Lumps and Syphiloid Ulcers; in Dropsy, in Venereal Sore
Throat, Ulcers, and in Tubercles of the Lungs; in Gout, Rheumatism, Rickets; in Mercurial Deposite—it is in these terrible forms of disease, where the human body has become a complete wreck, and where every hour of existence is a torture, wherein this great remedy challenges the astonishment and admiration of the sick. It is in such cases where all the pleasures of existence appear cut off from the unfortunate, and by its wonderful, almost supernatural agency it restores the hopeless to new life and new curistence, where this great remedy stands alone in its might and power.

in its might and power.

In the ordinary skin diseases that every one is more or less troubled with, a few doses will, in most cases, and a few bottles in the more aggravated forms, work a permanent cure. Dr. Radway. New York—Bear Sir: For the encouragement of others in similar circum stances to what I have been, I think it right for me to return my heartfelt thanks to you for the benefit I have received from the use of the Radway medicines. I had been afflicted over six years with tumor in the abdomen. Had been to six of the best doctors I could hear of in Iowa. They all told me the same story, that my trouble was out of the reach of medicine, and that it would in time kill me. I happened to see in your Almanac about tumors being cured. I immediately, as a last resort, resolved to try your treatment. To my great surprise I soon experienced good effects, and with only using three bottles of the Resolvent, one of the Ready Relief, and by continuing on with the Pills longer, I was completely cured. I was seenlarged that I was 4 feet 2 inches around, while now I measure 2 feet around. Before using your medicine I had not laid down in six months. Now, if this sketch will be of any benefit to suffering humanity, I am willing to have it published. Yours with respects.

M. HOCKETT,
