The Western Fair Secretaryship.

Mr. Thomas Browne, who resigned called to the fact that among those who voted for handing the business over to the Executive and taking it from the Board were four members of the Executive themselves.

Whatever is finally done, and by whatever method, it is important that moderate counsels prevail with a due recognition of public opinion. The Western Fair is a great direct and indirect advantage to London, and should be the care and pride of all classes of our citizens.

The Strike Situation Up to Date.

In a word, the Company still continue obdurate; and the people still surburban trains.

The endeavors of the committee of the City Council have not as yet accomplished much, except to bring out somewhat more clearly the Company's autocratic conception of their relation to organized labor and to the convenience and opinions of the public.

Mrs. (Capt.) John Graham, of Ekfrid, was buried on Wednesday afternoon at St. Andrew's Cemetery, Glencoe. Miss Lulu, daughter of Mr. Alex. Lindsay, Glencoe, was buried on Tuesday at Kilmartin cemetery. She was a bright little girl, 14 years old. The high school teachers and scholars marched to the church and presented a lovely wreath of flowers. The Sunday school class also, of which she was a member, marched and carried beautiful wreaths, and the casket was entirely covered with flowers, gifts from friends. The pall-bearers were James Patterson, Martin McCreery, A. D. McAlpine, M. McGugan, W. Harrison and Jackson McLachlan.

the position of secretary of the Western Fair Board, to accept the Postmastership of London, is a man whose place it is difficult to fill. At the board meeting yesterday there were two views and two motions: (1) that the board proceed to elect a secretary; (2) that the selection be handed over to the executive committee. The vote resulted in a tie, and the chairman gave his casting vote in favor of the second view. Activity in the British Foreign Office-War Risks Rising.

A French Cabinet Has Been Seoured at Last.

Kipling Eludes the Curious Crowd-The Duke of Albany Secures a Throne-Doings of the Peace Con-

London, June 23 .- The Daily Mail this morning says an extremely brisk business is being done in Lloyds in war risks, at daily advancing rates. The Kolnische Zeitung publishes a dispatch from The Hague stating that Dutch official circles are aware that the Transvaal Government is preparing to make a most stubborn resistance in the event of war, and is arming fast. According to this informant Pretoria has just ordered 25 quickfirers and several heavy calibre guns for fort artillery from Krupp.

In accordance with the promise made by President Kruger to Sir Alfred Milner, British high commissioner for South Africa, at the recent conference Free State, the Transvaal executive has finally decided to increase the representation of the Gold Fields in the Volksraad. The government will probably give six members, instead of two,

the present representation.

There is activity in the war office, occasioned by near possibility of war with the Transvaal. Orders were is-sued today for two companies of engineers, and two companies of army service corps, with officers and men, from departmental corps, with ammunition and stores to proceed to South

THE PEACE CONFERENCE. The Hague, June 23.-A number of the delegates to the peace conference are suffering from a mild form of malaria, caused by the emanations of the canals which receive the sewage. Mrs. Holls, wife of Mr. Frederick Holls, secretary of the American delegation, has been obliged to go to Dusseldorf for a change of air.

The delegates declared in favor of

any state using any new explosives or new inventions for ordnance, Russia and Bulgaria alone refraining from voting. The question of dum-dum bullets was dicussed by Major Sir John Ardagh, of the British delegation, claring that Great Britain did not desire to use any projectile inconsistent with the principles of modern war, and that dum-dums should only be used against an uncivilized foe. The convention finally resolved in favor of prohibiting the use of bullets which usually flatten out in the human body. such as explosive bullets in a harden ed case, which does not entirely cover the point, or bullets with an incision. The British and American delegates alone voted in the negative. The use of any new explosives in projectiles from balloons was prohibited for five years. The question of restraining the introduction of new types of rifles was deferred. Count Soltyk's report was then taken up. It declared that the sub-committee, though unable to agree regarding the proposed abolition of naval rams, submarine torpedo boats and the use of explosives, had declared against the use of asphyxiatwas then taken up. Says a Late Dispatch From Cape Town.

Great Britain Must Soon Bring Matters to an Issue in the Transvaal.

London, June 23 .- A dispatch from Cape Town to the Outlook says: "The tension is extreme. Business is at a standstill and the general feeling is that Great Britain must promptly bring matters to an issue. The league will have no difficulty in preventing meetings supporting Sir Alfred Milner's attitude, the desire being to refrain from embarrassing the imperial

authorities. "The Orange Government is urging the Transvaal to make further concessions. Many people consider Sir Alfred Milner's franchise proposals are useless without the granting of twelve seats in the mining centers and the right to speak English in the Volksraad. Otherwise it will be impossible to select representative men. Failing these concessions the Johannesburgers say they prefer a treaty providing security and judicial and educational reforms."

Hope of Settlement Appears To Be Shattered.

Cleveland, Ohio, June 23 .- The hope of settlement of the street railway strike was shattered last night when the strikers rejected by a unanimous vote the proposition submitted by the company to the special committee of the city council, and to which the strikers' committee agreed in the afternoon. The proposition of the company states that it is ready and willing to take back into its employment such of its employes as its business demands, aggregating at the present time 80 per cent of such employes, and as vacancies occur will give preference to former employes, excepting those who have committed unlawful acts against the company, its property or employes

during the present strike. This action of the strikers came as a surprise. After rejecting the proposition of the company the strikers began to draw up a proposition of their own, which will be submitted to the

council committee. Disturbances took place in the after noon. Car windows were broken and

a motorman was assaulted. The city authorities are now open-ly preparing for trouble and the board control is considering means of protecting the company's property and preserving order. President Everett says that the company will run the cars and have no further dealing with the strikers.

Police Director Barrett said: "We are not going to wait for anything more to happen but prepare ourselves to meet any emergency. The lives and property of the people of the city are going to be protected at all cost." STRIKE IN CHICAGO.

Chicago, June 23.-Sixty men employed by Swift and Company joined the ranks of the 400 striking platform men and butchers employed by several stock yard firms. Thirty color-ed men who went to the yards expecting to be employed were compelled to flee by the angry strikers. The Chi-cago Packing and Provision Company agreed to the advance demanded, and the strikers from that house resumed

Men's Offer of Concessions Ignored-

Assurances of Support.

The meeting of the voluntary committee of the city council with the strikers' committee last night developed nothing new. Both the men and the company declare they will fight the matter to a finish. The offer of the strikers to strike out of the proposed agreement the clause requiring all employes of the street railway company to take out permit cards from the union, and also to strike out all reference to the Amalgamated Association made no impression on the company whatever. The latter said they had positions open for some 30 or 40 men and would give the preference in filling those positions to those among the strikers who had others depending on them for support. This offer was made with the reservation that the men who had committed overt acts against the company would in no case be taken back-
