Nowadays the distribution of a load of potatoes amongst the poor would be considered a charitable act, but twenty years ago such was not the case. An oldtimer talking to an Advertiser reporter today quoted a case in point.

In 1897 a farmer named Blackwell, unable to dispose of his potatoes, decided to give them to the newsboys of London. He, therefore, piled several bags on Richmond street, near Dundas, where the newsies might partake bags on Richmond street, near Dun-das, where the newsies might partake of as many as they liked. But the boys were not partial to the charitable act and left them where they were placed. "Women must interest themselves in child welfare, thereby getting down to the root of all social and moral trouble, and in the problems of education and immigration. If they are to be worthy citizens they must keep the weapons of the vote clean, they must be healers and not ward heelers.

"The men who responded to the challenge in 1914 and subsequently gave their lives for the cause of liberty and empire, made the supreme sacrifice, but not for themselves, but to insure liberty and righteousness in the land. Those who have passed on are said to have joined the deathless army, the army of those who have become immortal, and there is no one in the world who does not at some time or other wish himself to be immortal. Is there any finer immortality than that of those who live because

It is perhaps interesting to consider the effect the war has had on prices of popular commodities, and to compare values of the past years with those prevailing at the present time.

Are the Four Fruits Used in Making "Fruit-a-tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh, ripe fruits. Thus, it is manifestly unfair to say: "I won't take Fruit-a-tives because I ve tried other remedies and they did me no good." On the other hand, the fact that "Fruit-atives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the St mach, Bowels, Kidneys or Skin. The granting of the province to a wider and more effective service, leading eventually to national service and service for all humanity." said Miss Armstrong. "The granting of the franchise came to the women as a challenge, just as did the call to service come to the men in 1914. Because the men had responded to the challenge, the women could not be shirkers.

"Because the franchise had come as a challenge, therefore it was incumbent upon the women to exercise it worthily, at it is impossible to exercise it worthily unless it is exercised intelligently. In order for women to prepare themselves to vote worthily, they must study history as a background, so that they will be able to see things in relation to each other. It is impossible to pass judgment on one section of Canada without taking into consideration the historical events which led up to the present situation. From a London (Middlesex) standpoint, it is impossible to settle intelligently the problems of the western country, for example.
