Bave Wrong Verdict AGED FARMER HAS NARROW. ESCAPE FROM PREMATURE

One of the most ancient families of the British nobility has for its motto
"Dum Spiro Spero" ("While I
breathe I hope"); and surely this
might well be taken as the battle cry of every sufferer from Lung disease

in this fair Canada of ours. That many lives have been allowed That many lives have been allowed to sink into the grave by default, especially in cases of Lung trouble, is apparent from the constant testimony of those who after having received such a verdict, by the use of PSYCHINE have been restored. to complete health and vigor, and who have proved that the doctor's judgment was erroneous, by living to a good and robust old age.

Such a case is that of Mr. John

Radford of Ruskview, Co. Dufferin, Ont., who some years ago had reached such a low state of health that his medical attendant assured him that his Lungs were so seriously affected that it was absolutely useless for him to take any more medicine; and in fact that nothing more could be done for him. It was at this point that Mr. Radford started to use PSYCHINE. In a very short time his health began to improve, the Lung trouble disap-

peared, and he was soon able to go out to work on the farm again. On August 24th of this year Mr. Radford writes: "If it had not been for your PSYCHINE. I would have been in my grave years ago. I have had no need of any more medicine since, as I have enjoyed perfect health. I am now 82 years of age, and feel quite smart. I recommend PSYCHINE to all sufferers from Lung disease as

a SURE CURE" Such evidence as the above cannot be gainsaid. It is genuine, convinc-ing, and conclusive; but why not get a sample bottle and prove its merits

PSYCHINE is an infallible remedy for all disorders of Throat, Lungs and Stomach. Sold by all druggists and dealers at 50c. and \$1. Prepared only by Dr. T. A. WHEN YOU CAME.

Dear, when you came the day was bright:

The moments, roseate to my sight,
Flew by me; all my heart was glad
Without you; but I loved you, lad—
Loved, in my own despite!

As morn, I thought, so would be night.

Nor feared eclipsing cloud, nor blight—

Nay; fancied naught to life could Dear, when you came!

And now—the good I deemed my right— But you with love will still requite The follies that have made you sad! You smile—there—whisper!—nothing

Toronto sewage treatment problem no longer exists. Col. Sam Hughes, M. P., of Lindsay, has solved it. He is positive on the point.

The use of chlorine is an important feature in the process he proposes. So much in earnest is he that he has sent pamphlets to all the aldermen, show-

ing how it works out.

It is explained that the sewage would flow from the outlet of the trunk sewer into a pit, the solids going to the bottom, the liquid flowing thru a screen into perpendicular conduit pipes, the descending liquid causing a vacuum in each small pipe, drawing down the chlorine from its chamber above to mingle with the liquid. This passes thru the pipes, from which it passes thru the pipes, and then out thru a tank to the loke.

The solids would then be raised by a bucket pump to a conveyor in the bucket pump to a conveyor in the chlorine, where the liquid drains off into conduit pipes, and the solids are taken off to a dump box, to be used as fertilizer.
