LANDS IN EMPIRE

MUST BE POOLED

Australian Says Success of Back-to-Land Depends on This Feature.

Vancouver, April 11.—That unless the lands within the empire were all pooled in connection with the back-to-the-land scheme for the returned soldiers after the war, the plan for forming colonies of men not only in England, but also in the overseas dominions, would be a failure, was the belief expressed in an interview by H. E. Easton, secretary of the British Immigration League of Australia, who is on his way to Great Britain for the purpose of putting up this phase of the question before Lloyd George, Ericksen, and the other members of the cabinet.

The money requisite for this great undertaking must be raised by taxation, or special loans, and as that would be a heavy burden on the British Government must step in and make up the balance. While Australia is anxious to get men from all parts of the British Empire, under the scheme as it stood at present they could not entertain any representations from imperial service men to go to Australia, and the arrangements have been made for their absorption they would have to wait.

"I am going to say to you that to keep the people in England you will have to make drastic land laws. It will be necessary if you want to retain your people on the land and these laws be made at once. I will also tell him that he must pool all the lands within the empire, and that everything must be done on an equal financial basis, the Canadian would go to Australia, and the Australian would go to England the same process will apply; if both are enamored of the scheme, and the same similar arrangements had good there."

So far as Canada was concerned, the most popular had been made by Ontario, said Mr. Easton. He intends to ask the Canadian Government to form an imperial board.

CANADIAN FIRMS MUST SEND MEN FOR WOOL

Necessary to Send Representatives to Australia and New Zealand to Purchase.

Ottawa, April 12.—Canadian firms which desire wool from Australia and New Zealand are now obliged to send representatives to these countries to make the purchases. A cable from the British authorities in London, defining restrictions upon the export, has made it difficult to obtain supplies.

LET'S LIVE STOCK DIE.

Special to The Toronto World. April 12.—Charles Mott, a well-to-do farmer of Oakton, Town ship, at police court this morning was fined \$25 and costs for ill-treating his stock. Nine cats and two dogs were found lying dead in the household, all having died of ill-treatment. The food in the stables was unfit.

Live Stock Market

Receipts of live stock at the Union Stock Yards yesterday consisted of 47 cars, 702 cattle, 287 calves, 3901 hogs and 17 sheep.

Trade in butcher cattle was slow yesterday, and in most cases prices are considerably lower. In the early part of the day quite a number of cattle sold at prices steady with Wednesday. Packers, however, were not at all anxious, and later in the day did not appear to care whether they purchased any or not. On the day's trading the market sized up about as follows: Choice butcher steers and heifers, steady to 25c lower; fair to medium butchers, 25c to 35c lower. Packers cannot very well deny that the market was lower on this class of cattle, for the writer knows of more than one case where they did 200 to 300 lbs. lower than they had offered the same cattle earlier in the day. Cows and bulls were steady at Wednesday's prices. Trade in stockers and feeders was fairly good, and few, if any, are left over. Grass cows were strong yesterday, and in most cases prices are considerably higher. Sheep and lambs are very scarce, and prices are quoted below. There are so few arriving, however, that you can hardly call it a market.

Heavy steers—Choice, \$12 to \$12.55; good, \$11.25 to \$11.75. Butcher steers and heifers—Choice, \$10 to \$11; good, \$9 to \$10.50; medium, \$8 to \$9.75. Cows—Choice, \$9.75 to \$10.25; good, \$9 to \$10; medium, \$8.25 to \$9.15; common, \$7 to \$8. Canvess and cutters—\$5.10 to \$6.25. Sheep—Spring lambs, \$7 to \$14; heavy, \$10 to \$14; medium, \$8 to \$10; light, \$6 to \$8. Yearling lambs, choice, 14c to 16c lb.; good, 12c to 14c; medium, 10c to 12c; common, 8c to 10c. Heavy, fat, 7c to 9c lb.

DISCUSSION SETTLES RAILWAY ISSUE

Lines Must Be "For General Advantage of Canada," Says Committee.

By a Staff Reporter. Ottawa, April 12.—An amendment to the railway act which was approved by the special committee of the commons which met today at the Victoria Museum, provides that every railway or part of a railway, whether under Dominion authority or not, which is bought, leased or controlled by a company under the jurisdiction of the railway board, shall be deemed to be for the general advantage of Canada, which will definitely dispose of the question. Neither at the morning nor afternoon sittings of the committee was there a quorum.

The amendment also provides that any local road which comes under the control of a Dominion body shall be deemed to be for the general advantage of Canada, whether or not it has been declared to be for the advantage of Canada. Electric and tram lines are exempted from this order.

Neelbit's Opposition. Hon. Frank Cochrane said it would undoubtedly be in the public interest if the local lines of railway which are bought or leased by Dominion incorporated roads, brought under the jurisdiction of the railway board. Mr. Neelbit announced that he intended to oppose the clause which provides that the leave of the railway board must be secured before an application for the jurisdiction of the board is made. The object of this, it was explained, was to save the findings of the board from being possible. There was no objection in regard to the amendment in regard to the jurisdiction of the board.

Mr. Neelbit insisted that wider latitude should be allowed in regard to the questions of law, and it was decided to let the clause stand over for consideration by the full committee.
