TESTIMONY FROM FRANCE AND PRUSSIA TO THE MERITS OF SANDS' SARSAPARILLA. THE fame of this preparation is not confined to the limits of our own country, but by its powerful agency in arresting and curing disease, has won its way successfully into different countries in Europe as the following unsolicited testimonials from individuals of the highest respectability show in the most conclusive and satisfactory manner. The same happy success has attended its use there, which has always marked its course where ever adopted, and diseases have yielded to its health-restoring influence which Medical Men of profound skill had pronounced incurable. The most potent simples of the vegetable kingdom are united in this preparation, and the combination is such, that one modifies and improves the other, and under the name of Sands' Sarsaparilla is presented a compound differing entirely in its character and properties from any other preparation, and unparalleled in its operation on the system when laboring under disease. Its approval by Physicians and men of Science, and the uniform success which has marked its use, furnishes proof sufficient to convince every candid and discerning mind of its great superiority and value.

LEONARD THOMSON, Berlin, Prussia, April 8, 1846. Messrs. A. B. & D. SANDS, Halifax, J. Munson & Co., Gentlemen.—Having seen your Sarsaparilla used in this City with great effect in a severe case of Scrofula, I have been requested to order three dozen bottles, which please send, on the payment of the enclosed draft on Messrs. Linch & Usher with the least possible delay. I am inspired only by a feeling of philanthropy, in begging you to publish this unasked testimony to the value of a medicine which, widely as it is known, is not known as it ought to be. I am, gentlemen, Respectfully yours, &c. THOMAS S. FAY.

The following is an extract from a letter received from Mrs. Bevan, whose wife had been afflicted with a scrofulous affection of the nose, which baffled the skill of the best physicians in France, it commends itself to the attention of all. MESSRS. DEPARTMENT OF LILL & VLAISE, France, July 17, 1845. The Sarsaparilla sent has been received, and the great benefit my wife has derived from its use upon a short trial, as well as the high recommendations we have received, gives us great hopes of being able to cure with this medicine a disease that the most celebrated physicians of France have not been able to effect. My wife is fully determined to continue its use until a perfect cure is effected, and fearing what we now have will not be sufficient, please send us some more without delay, and be assured, gentlemen, we shall take pleasure in making known the great virtues to our friends and the public; and I do not doubt that it will soon be extensively used here, and all over the world, and that many afflicted sufferers will find with joy the knowledge that there is a vegetable preparation sufficiently powerful to eradicate their diseases. I have the honor to remain, Yours respectfully, J. MACE, No. 1, Rue Louis Philippe.

The following is an extract from a letter received from Mrs. Bevan, who had been afflicted for several years with Scrofulous Ulcers, Dyspepsia, &c. and recently with an affection of the Throat after several failures. BAILEYBERG, Va. Dec. 13th, 1845. Messrs. A. B. & D. SANDS.—Before I commenced using your Sarsaparilla my sufferings were almost past expression; my throat was completely ulcerated, I had a dreadful cough, and there were frequently weeks together that I could not speak more than a whisper, and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health improved, and my throat is now well, I am at ease from cough and tightness of the chest as ever I was, and can hear quite distinctly. My throat has been well about three months, the cure of which has been effected entirely by the use of your Sarsaparilla. For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis. Prepared and sold by A. B. & D. SANDS, Druggists, 100, Fulton-street, corner of William, New York. Sold also by T. WATER, & SON, St. John, N. B.; Munson & Co., Halifax; J. Munson & Co., Quebec; and by Druggists generally throughout the United States and British Provinces. Price \$1 per bottle. Six bottles for \$5. THE public are respectfully requested to remember that it is Sands' Sarsaparilla that has been and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other.

A NATURAL REMEDY. Suited to our Constitution, and competent to the cure of every curable disease, will be found in WRIGHT'S INDIAN VEGETABLE PILLS OF THE NORTH AMERICAN COLLEGE OF HEALTH.

THESE extraordinary Pills are composed of plants which grow spontaneously on our own soil; and are therefore better adapted to our constitution—a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body. When we wish to restore a swamp or morass to fertility, we drain the border of the lake; in like manner, if we wish to restore the body to health, we must cleanse it of impurity. The Indian Vegetable Pills will be found one of the best, if not the very best, medicines in the world for carrying out the GRAND PURIFYING PRINCIPLE, because they exert from the body all morbid and corrupt humors, the cause of disease, in an easy and NATURAL MANNER, and while they every day GIVE EASE AND PLEASURE, they drive disease of every name is readily driven from the body.

CAUTION. The citizens of New England are respectfully informed that in consequence of the great popularity which the above named Indian Vegetable Pills have earned by their successful operation, a number of counterfeiters are now industriously engaged in palming off the unsuspecting, a valuable and perhaps dangerous medicine, under the name of Indian Vegetable Pills. This is to inform the public that all genuine medicine has on the boxes WRIGHT'S INDIAN VEGETABLE PILLS (Indian Purgative). OF THE NORTH AMERICAN COLLEGE OF HEALTH And also around the border of the label, will be found in small type, 'Entered according to Act of Congress in the year 1840, by Wm. Wright, in the Clerk's office, of the District Court, of the Eastern District of Pennsylvania.' It will further be observed that the printed directions for using the medicine, which accompany each box, are also enclosed according to Act of Congress, and the same form will be found at the bottom of the first page. The public will also remember, that all who sell a certificate of Agency, signed by WILLIAM WRIGHT, VICE PRESIDENT of the North American College of Health, and that no person is ever in any case allowed to sell the genuine medicine. All travelling agents will be provided with a certificate of agency, which will be countersigned and attested by the President, and those who cannot show one will be known as base impostors.

Persons in this city and vicinity will also be on their guard against purchasing medicine purporting to be the Indian Vegetable or Purgative Pills, of Apothecaries or Druggists, as they are not allowed to sell my medicine, and any composition which they may offer as such, must be either COUNTERFEIT and injurious; therefore never purchase of them.
