

EXTRACTS FROM LAST ANNUAL REPORTS OF COMPANIES IN
CANADA.

"The sustained attendance at the Bible Class, the hearty interest shown in its exercises, and the high moral tone and discipline of the Company are good evidence of the beneficial effects of the Brigade methods upon the character of the Boys."—A PRESBYTERIAN MINISTER.

"I think very highly of The Boys' Brigade and find it helpful in our Sunday School work. I find it creates a better acquaintance between me and the Boys, and I see a marked improvement in them."—AN ENGLISH CHURCH MINISTER.

"I can give The Boys' Brigade my highest commendation; as well as being highly attractive to the Boys, it provides a healthful exercise, and, best of all, it exerts a good Christian influence; in short, it seems in a very large degree to have solved the 'boy question' in our churches, inasmuch as it presents in an attractive way those varied influences which are so essential in laying the foundations of an all-round character."—A METHODIST MINISTER.

"I consider The Boys' Brigade movement one of the most blessed organizations of modern days. I believe the rules and aims of the Society have in them when properly enforced by wise and active officers the elements which will give the church which properly encourages and helps the movement great influence with the Boys. The Boys' Brigade has had a good influence with many of our Boys in the matter of punctuality at church and Sunday School and in the reading of the Scriptures. I thank God for The Boys' Brigade."—AN ENGLISH CHURCH MINISTER.

"I take pleasure in stating that I think very much of The Boys' Brigade as carried on by our Association; it has been the means of making the Boys better in many respects, especially in the way they conduct themselves; they appear more manly, and show more respect to those who are older. In many ways they seem much improved. I heartily commend this work for the good of boys."—A Y.M.C.A. PRESIDENT.

"The Boys' Brigade is one of the good things we have in connection with our Sunday School; it fills a long-felt want, and I am sure when I say that I can visit our Church parlor at 10.30 on Sunday morning and see the Boys of The Brigade assembled there studying the Word of God with their Captain, it is the best evidence of the good work being done. The effect for good upon both Church and Sunday School is clearly evident."—A METHODIST S. S. SUPERINTENDENT.

"My experience so far is that The Brigade has increased the attendance of Boys at the Sunday School, and brought us in several of a class and character who would not be likely otherwise to attend."—A PRESBYTERIAN S. S. SUPERINTENDENT.
