THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, OCTOBER 21, 1918

## EXPENSIVE CAMOUFLAGE

How the Germans hide troop movements. A swarming road disguised to hide troop movements. The cost per mile is very heavy, but the results are said to justify the expenditure—Scientific American.

## DISTRICT REPORTS OF THE EPIDEMIC

The board of health authorities announced yesterday at noon that in the past twenty-four hours eighty-one new cases of Spanish influenza and one death had been reported to them close to 300 cases.

Reports received up to midnight respecting the prevalence of Spanish influenza throughout the province are as follows:

St. Hilare parish, Madawaska county, over 400 cases, twelve deaths, situation very serious.

Prince William parish, York county, no cases, no deaths; one case in gripe.

Parish of Bright, York county, fifty to sixty cases, three pneumonia, no deaths.

Dorchester, 600 cases, five deaths, twenty per cent. serious.

Hillsboro, Albert county, 200 cases, epidemic under control.

Chatham (19th inst.), eight cases (daily report).

Parish of New Maryland, York county, twenty-five cases, two pneumonia, one death.

McAdam, York county, ninety-two cases, twenty pneumonia.

Westmorland parish, Westmorland county, 102 cases, no deaths.

Perth, Victoria county, considerable number mild, one death.

Salisbury parish, 281 cases, one death.

Hopewell parish, Northumberland county, two cases, both mild.

Chatham (20th inst.), three cases, two deaths.

Southampton, York county, six cases, one pneumonia.

North East, Northumberland county, twenty-five cases, one death, three cases, very severe.

Blissfield, Northumberland county, no cases, few colds.

Maryville, York county, 26 cases.

Plaster Rock, Victoria county, one case, one death.

Victoria county, 200 cases, five deaths.

Fredricton to date, 375 cases, six deaths, 24 pneumonia.

**REV. H. T. MONTGOMERY RETURNING TO DERBY**

Newcastle, Oct. 19.—Rev. H. T. Montgomery has resigned the rectory of St. Barnabas' church, Calgary, to resume charge of the Derby churches, in this county, which he vacated seven years ago to relieve his father, Rev. H. B. Montgomery, of St. Barnabas', who was going overseas as a chaplain. All communications on the Miramichi will welcome Rev. Mr. Montgomery back.

**INDIA'S BIG PART IN WAR**

Has Sent More Than 1,000,000 Men to the Various Fronts.

London, Oct. 21.—(British Wireless Service)—General Allenby's great victories in Palestine and Syria, in which India has played a prominent part, make the time opportune to place on record the answer of India to the call to arms issued by the British Empire.

Indian troops have borne their share of the war in France, Mesopotamia, Egypt, the Dardanelles, Salonika, East Africa, and in Central Asia. Up to July 31, 1918, India had contributed no fewer than 1,115,189 men to the British army.

The first Indian war hero reached the sum of \$240,000,000 (\$200,000,000), and the second loan has reached even a greater amount.

India has sent to the various theatres of war more than 1,500 miles of railroad track, 250 engines, and 4,000 cars.

**NEW GOVERNOR**

Ottawa, Ont., Oct. 20.—The name of Sir Charles Fitzpatrick, chief justice of the supreme court, is mentioned in connection with the appointment of a lieutenant-governor of Quebec to succeed Sir P. E. LeBlanc, who died Friday night. No official step has yet been taken, however, nor has he been expected for some days.

**Feed From Quarantine.**

The soldiers at the Military Hospital, Fredericton, who have been held in quarantine about two weeks, were given their freedom on last Thursday.

### SOUVENIRS OF THE WAR

Smart Looking Trophies Made from Shells and Other Equipment in Spare Time of the Soldiers

(By Lacey Amy, Special Correspondent of The Times.)

With the Canadian Forces, France, Sept. 21.—The beauty of a shell case touches an unwarlike side of the fighting man. And the white of aluminum and the red of copper, both common metals of war, add the variety of color that arouses new instincts in men with periods of idleness on their hands and the desire to interest themselves when they may in things not of war.

The Germans ran extensively to rings. Two of three German prisoners wear home-made or cheaply made rings of aluminum or silver alloy, sometimes bearing the number of their regiment in brass or copper, sometimes with the regimental colors and the iron cross in enamel, often with "1914" at one side of the central shield and the year of its manufacture on the other.

The French soldier displays the greatest ingenuity of any of the fighting troops in the elaborateness of the souvenirs he produces, sometimes making them a source of revenue.

The Canadian unaccustomed in civilian life to any trade of an allied nature, has nevertheless taken to the manipulation of war material with surprisingly effective results. I have had soldiers produce from their dugouts—scarcely large enough to turn in lying down and accessible only on hands and knees—souvenirs of wonderful beauty and cleverness. During the recent days of comparative inaction there was much time for such occupation.

During a recent tour of a system of trench dugouts some miles behind the fighting lines, where there is nothing to live in but old German excavations and few improvements as our boys have made, more than one early home of two companions came two good examples of the work of natives. One was an ornamental vase made from a German field gun shell case, with crinkled edges, a few maple leaves in copper, and the names of some of the most famous Canadian battles engraved in a scroll. The other was a small pom-pom case and cut it into the replica of a Canadian soldier's cap. The leather band was of copper and the minute maple leaf on the front of a different color of brass. It was small enough to send by mail and being in shell brass engraved with his birthday gift to his mother in Canada.

But there are in the corps experienced metal workers and engravers whose productions may be viewed with satisfaction by the eye of the connoisseur. Today I have seen four riding crops, one for each of the division commanders. They are as neatly made as the kind on the market and much more interesting. The wood is cut from the ruins of the oak doors of the Cloth Hall at Ypres, the joint between the stock and the handle being in shell brass engraved with the name of the recipient and of the donor.

The most ambitious souvenir, however, is that possessed by the corps commander, the work of a Canadian soldier, made from the stock and the handle being in shell brass engraved with the name of the recipient and of the donor.

## FROM OCEAN TO OCEAN

Women Praise Lydia E. Pinkham's Vegetable Compound for Health Restored.

### IN ALMOST EVERY NEIGHBORHOOD

There is a woman who has tried this standard remedy for female ills and knows its worth.

Atthol, Mass.—"Lydia E. Pinkham's Vegetable Compound has done me a world of good. I suffered from a weakness and a great deal of pain every month and nothing brought me any relief until I tried this famous medicine. I am a different woman since I took it and want others who suffer to know about it."—Mrs. J. E. LAYTON, 529 Cottage St., Atthol, Mass.

San Francisco, Cal.—"I was in a very weak nervous condition, having suffered terribly from a female trouble for over five years. I had taken all kinds of medicine and had many different doctors and they all said I would have to be operated on, but Lydia E. Pinkham's Vegetable Compound cured me entirely and now I am a strong well woman."—Mrs. H. ROSEKAMP, 1447 Devisadero St., San Francisco, Cal.

For special advice in regard to such ailments write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its many years experience is at your service.

inch shell cases, one for each division. Only the First is done as yet.

The three handles are of copper wrought from the driving bands of shells. Around the lip is engraved in large letters in a single band "First Canadian Division." And each of the three spaces between the handles is devoted to one of the three brigades composing the division. The brigade number tops the space, and below are attached to the cup with small bolts the actual badges of the battalions in the brigade. And beautifully engraved about the badges are the names of the various battles in which the brigade figures. The first brigade is associated with the "Second Battle of

Ypres, Festubert, Givenchy, Ploegsteert, Mount Sorrel," and the years are "1914-1918." For the second there are "Somme, Vimy, Hill 70, Passchendaele." And attached to one handle is the badge of the 107th Pioneer Battalion which came across with the First Division but was later transferred to the Engineers.

Naturally the corps commander prizes the cup very highly, not only for its uniqueness and beauty, but for the expression of affection displayed in the gift and the sample it is of Canadian workmanship.

Were it not for the fact that the corps is so frequently on the move or in action when such work must be laid aside and the facilities for carrying are limited to the backs of the boys themselves, much more would be produced. But those

who are fortunate enough to receive samples of the handwork may know that they are wrought under difficulties that would discourage anyone but a soldier, in shelters only a soldier can make comfortable.

**THE CAFETERIA SYSTEM FOR HOGS**

Much of the drudgery is taken out of hog feeding by the use of the self-feeder. According to investigations carried on at the Experimental Farm at Ottawa, hogs, after they have reached a certain age, do better when fed in this way provided the proper mixtures are used. Strange to say, when properly handled, dangerous and wasteful over-feeding is not so likely to occur with the self-feeder as when meals are given at stated hours.

Laws. This bin-like receptacle is easily made at a cost of about \$10 even when new lumber is used in its construction.
