Spanish Government Cuts off all the Salaries of Officials.

A Slick American Spy—Spain Wants Peace but the Army is Still Belligerent.

London, July 16.—According to a despatch from Madrid the Government has decided to suspend the payment of salaries to all civil and military servants, as the money is needed for war expenses. Feverish preparations continue at the coast towns for the advent of the Americans. The Governor of Ceuta complains of the unfitness of the guns and defences there. All the guns that can be spared are being shipped to the Balearic Islands. Admiral Canaris's squadron, it is said, will be sent to Cartagena.

A SLICK SPY.

London, July 16.—A despatch to the Daily News from Gibraltar has a long story of a pseudo wealthy American who was lionized for six weeks at Madrid and Cadix, where he dined with Admiral Canaris, who inspected the fleet and defences, and in every way won the confidence of the officials, only to disappear the moment a warrant was issued for his arrest. He turned up afterwards in Tangier and confessed to the correspondent of the Daily News that his name was Fernandez and that he was a captain in the Second Texas Rangers. His Spanish descent, he said, enabled him to deceive all the Spaniards, while acting as the confidential agent of the American Government.

IN FAVOR OF PEACE.

Premier Sagasta is quoted as saying Spain wants peace, "but it must be an honorable peace, as Spain deserves." Continuing, the Premier is said to have remarked:—"The army is anxious to resist to the last. But the Government cannot consent to such a useless sacrifice. Had we only fleet, the situation would be very different." The Minister of War, Gen. Corrales, is quoted as declaring in an interview that he thought peace might be arranged on the following terms:—"The United States and Spain to agree to let the Cubans decide by a plebiscite whether they desire independence or autonomy under the suzerainty of Spain, the two Governments to agree to abide by the results of the plebiscite. In the event of the Cubans voting for independence, the United States to allow Spain nine months in which to withdraw her army, gradually and dignifiedly from Cuba. The plebiscite is impending. The general public take a favorable view of the suggestion that the powers should attempt the re-establishment of peace. But, it is said, contrary to the reports current, France has not taken the initiative.

MARKET PRICES.

How Produce Ruled on the Square This Morning.

New Vegetables Coming in—Potatoes are lower—Small Fruit Plentiful.

New corn, cucumbers and celery appeared on the market this morning. The former brought ten cents per dozen ears. Cucumbers sold for a cent each, while four small sticks of celery were worth ten cents.

Berries were plentiful, but for all that maintained their price, six cents per box or \$1.40 per crate. Cherries are about done. There were plenty of them on the market, however, and they sold at five cents per quart.

Potatoes are down. They were plentiful at 20 cents per peck. There is a very large quantity of the early variety and they will be cheap. The dry weather is interfering with the late potatoes, and unless rain comes, will seriously affect the crop. Other prices were unchanged.

THEY MAY FIGHT YET.

Spaniards Still Hesitate About Giving up Santiago to Shafter.

THEY WANT THEIR ARMS SENT BACK TO SPAIN WITH THEM—OUTSIDE GARRISONS MAY NOT RECOGNIZE GENERAL TOLAL'S AUTHORITY.

Washington, D. C., July 16.—After extended conference with the President last night, at which three other members of the cabinet were present, Secretary Alger said:—"The situation is just this:—The Spaniards at Santiago are prepared to surrender, but they want to carry their arms. We have determined to grant no such concession except the generosity of this Government to transport them to Spain."

Secretary Alger was asked if it was not the expectation that when it was known that when no other terms would be granted, the surrender would take place, and replied that such was the case. In any event no other concession would be offered by this Government. It was nearly 1 o'clock (Saturday) when the conference at the White House adjourned. Besides Secretary Alger, there were present Secretaries Bliss and Wilson, and Postmaster-General Smith. Adjt.-Gen. Corbin was present during the last hour of the conference. Gen. Shafter will be immediately instructed to carry out the determination of the President with whom the matter has been thoroughly discussed.

Secretary Alger did not say how much time would be allowed the enemy to reach a conclusion, but it is known that the administration will make it very short, and submit to no further parley with Gen. Toral.

The next move is surrender on the terms which the United States Government proposes, or immediate attack on the Spanish forces by the army and navy.

At 1:10 (Saturday) morning, when Gen. Corbin left the War Department for his home, he was yet without definite information from Gen. Shafter concerning the surrender of Santiago.

In accordance with the decision reached at the conference with the President, he sent instructions to Gen. Shafter that nothing but an unconditional surrender by Gen. Toral would be satisfactory to this Government. In view of Shafter's last despatch no fear is felt that the negotiations for the surrender of the forces in Santiago city will not be prosecuted to a successful conclusion. Gen. Toral, it is known, at first insisted that his men should be permitted to carry their arms with them to Spain. This concession Gen. Shafter declined to grant. Toral has modified his demand regarding the arms, and has presented a petition that the arms taken from his men be returned to Spain with the troops. As indicated in Secretary Alger's statement, above given, the petition has been denied by this Government.

The usual delay which has puzzled the war officials is accounted for by the difficulty which Gen. Toral is having in surrendering that part of the force under his command which is not in the city of Santiago. Gen. Shafter estimates that there are from 12,000 to 15,000 men in Santiago and nearly as many more in the province outside of the city. It is believed that the delay in the negotiations is made necessary in order to secure the surrender of the outlying garrisons, some of which may question Toral's authority to surrender them without definite instructions to that effect from Madrid.

THE KOLAPORE CUP.

The Guernsey Team Won It—Canadians 9 Points Behind.

London, July 16.—At the meeting of the National Rifle Association at Bilsley yesterday the "Rajah of Kolapore" challenge cup, seven shots at 500, 500 and 500 yards, was won by the Guernsey team (victor team), with a total of 744. The Victoria team, the winners of this trophy in 1897, scored 741. The British team scored 741, the Canadians scored 725, the Jersey eight had 719 to their credit, and the India riflemen totalled up 700 points. The scores of the Canadians in the shooting for the Kolapore Cup were:—Hayhurst, 95; McVittie, 90; Blair, 90; Forbes, 95; Ross, 95; Boardman, 95; Hutchinson, 90; Lieut. Smith 92.

RECORDS VS. HARDUPS.

Yesterday there was a baseball game between "The Hardups" and "The Records" on Harford's field. The following was the score: Records—J. Robert, c., 2 runs; P. Welsh, p., 4; M. Macaulay, 2b., 1; R. Pleasance, 3b.; P. Mulcahy, s.; G. Gordon, l.f.; S. H. Gordon, c.f.; S. H. Lafolie, r.f.; A. Tolal, 24.

MOORE SEEMS TO BE A MARK.

J. D. Moore, of St. Mary's, Ont., returned to Windsor last night from Sioux City, Ia., where he had been to identify an alleged swindler. A few months ago he was gold-bricked in Barrie by a man giving the name of J. Brown, and the other day he received word that a man answering his description had been arrested in Sioux City under the name of Blackwell. He at once went there, identified him and obtained permission to bring him to St. Mary's for trial, but while going from the jail to the train he escaped. Detectives Mahoney and Campau, of Windsor, are at work on the case.

LINERS VS. REDS.

A friendly game of baseball was played on the park yesterday between the Liners and Reds. Following is the score: Liners—3 0 1 0 2 0 1 0 0—7. Reds—0 0 1 4 0 0 6 1 0—13.

KILLED HIS BABY BROTHER.

Boy Played With His Father's Rifle With the Usual Results.

Peterboro, July 16.—An accident happened on Friday last at Apsley, in the northern part of the county, in which a little two-year old son of Mr. Geo. Cowley had got his father's rifle down from the barn where it usually hung. There were some cartridges in the magazine. By working the lever he managed to load the gun, and it went off, killing his little brother, aged about two years, who was playing on which floor a short distance away. He died before assistance could be procured, though from the terrible nature of the wound nothing could have saved his life. The boy who had the rifle is about nine years old.

RONDEAU.

July 16.—Arch. Campbell, M. P., paid a visit to this point on Friday for the first time and expressed the greatest surprise at the progress that has been made. Mr. Campbell predicts that in five years the East will become one of the most desirable summer resorts in Canada and that the value of the present property will be more than tripled. The Government appropriation when expended this fall will improve the appearance of the pier and add to the attractiveness of the place. Harry Hall is giving an excellent service at the Eau, and the Bungalow is being well patronized.

IN BAD SHAPE.

Arch. Campbell, M. P., and Collector Rufus Stephenson made a thorough examination of the pier at the Eau on Friday, and they express themselves as surprised that their condition is very much worse than would be gathered from the report of the engineer sent up to the Government, or the impression anyone would have from a casual inspection. Mr. Campbell is of the opinion that fully \$100,000 will be required to place the docks in a satisfactory condition and to do the dredging necessary to place the harbor in a first-class condition. He is doubtful if even that amount will be sufficient. The appropriation, based on the engineer's report, is \$5,000. Operations will commence about 1st Sept. At the next session Mr. Campbell will ask that an additional sum be placed in the estimates to provide for the proper completion of the work.

A FAULTY BOILER

It is Said to have been the Cause of the Explosion

Which did Such Terrible Work at Sycamore—An Inquest Opened.

The terrible explosion at Sycamore reported in yesterday's Planet has created a profound sensation throughout the entire community. Last evening Coroner J. L. Bray left for the scene of the fatality and opened an inquest. There was little to be done, however, as the doctor merely empaneled his jury, who viewed the bodies and the scene of the explosion and adjourned to meet in Courtsville at twelve o'clock next Tuesday to proceed with the enquiry.

The facts are as stated in yesterday's Planet and as yet no cause has been assigned for the explosion, but that the boiler was unsound and faulty. The men were all working near by when the explosion occurred. It is described by those in the vicinity as if the earth were torn from under them. James Fayson and John Rambo were instantly killed. While Charles Batts and Joseph Lee survived them but a few hours. Another survivor, named Collinson, is terribly injured and it is doubtful whether he will recover.

All the hands were paralyzed by the explosion and slightly injured either by the shock or by the flying debris. One huge piece of the boiler, weighing 80 lbs., was carried over 300 yards by the force of the bursting steam, while the whole engine was totally destroyed and practically annihilated. The mill is a total wreck, every vestige of its former outlines being destroyed.

Dr. Bray intends making a thorough enquiry into all the circumstances. Loss of property will amount to over \$5,000. It is not known what insurance, if any, is carried.
