A TUMULTUOUS MEETING.

Rev. Mr. Simmons's Lecture on Vaccination Abruptly Terminated Last Evening.

The lecture on the "Failure and Inquity of Vaccination," by Rev. Mr. Simns, of Vancouver, in the Zion tabercle last evening terminated in a maner which, safe to say, was in no degree ticipated by those who attended in the health, became nervous, could not sleep pe of hearing an instructive discourse., During the course of his remarks the peaker emphatically averred that he had fainting spells. fear of prosecution for what he was ying against vaccination, and he was rfectly willing to "break rocks" if nessary in the cause of truth and forbearance.

All this was received by the audience the most stoical manner, and it was dock Blood Bitters was doing for other not until the lecturer commenced to quote tatistics and on this authority vigorousattack the system of vaccination, that interputions came with great rapid. and persistency.

The speaker was just quoting from ome statistics referring to a city in ngland, when a voice advised him to tick to the truth." Another interroted Mr. Simmons as to where he had tained his statistics, and the lecturer olied that he had secured these from best medical authorities.

By this time interruptions were quite ent the lecturer remarking that all present who wished to speak inst vaccination could do so, but the ortunity to speak was certainly not ned to the other side.

At this juncture the gentleman who questioned Rev. Mr. Simmon's ments proceeded to make an exnation, when several trusty henchof the lecturer's bore down upon To counteract this manoeuvre. nds of the attacked gentlemen came the rescue and there was a general ee, in which many others of the audie joined.

Naturally in such a scrimmage some iolence was resorted to and gradually the pugnacious vaccinationists and anti-

O'Brien, the man who is held by the WHAT TO DO UNTIL THE DOCpolice under suspicion of having been implicated in the murder of the three my head began to get clear and I noticed men who have for so long been missing on the northern trail. The find of the blood and Canadian bills, which were said to have been taken from a hidden plugged hole in the sled and from the hilt of the accused man's revolver, was credited to a Pinkerton detective, who port was untrue. It was, however, true that Canadian bills of large denomination had been found on the accused man. O'Brien, but they had not been found by the Pinkerton man, but by the Mounted Policemen. The money was found in the sole of some felt socks worn by the accused man. One of the policemen noticed that the soles of the felts were unusually high and tapping them he felt paper, and search revealed the

hotel at Closeleigh, or as it is afterwards to be called White Horse. The hew northern depot is opposite the camp of White Horse, where Mr. Macaulay formerly had a tramway, and the order has been given by the Yukon council that the new town close by is to be called White

NOTES FROM OTTAWA.

(Special to the Times.) Ottawa, March 14.-In answer to Mr. Domville in the House to-day, Hon. W. S. Fielding said that Sir Charles Tupper during the time he was high commissioner drew for salary and allowances \$127,-

002. This included everything. To John McMillian (Huron), Hon. W. Patterson said that 21,046,394 pounds of butter were exported to Great Britain in 1898, as compared with about two million in 1891. For six months ending December 31st last there were exported 23,934,000 pounds, or more than for the previous twelve months.

When motions were reached, Sir Chas, Tupper asked that unopposed motions may be taken up first. Sir Wilfrid Laurier replied that when the courtesy was extended last time he

was abused for doing so, and therefore he decided not to grant it. This provoked lively discussion, started by Mr. Foster.

Political Situation

J. M. Kellie, M. P. P., Advocates a United Effort to Secure Dismisal of Governor.

Rumors That Dr. Lewis Hall Has Been Offered a Seat in the Cabinet.

(From Thursday's Daily.)

To the Editor:-That we are face to face with a political crisis goes without question, but we have also to meet a more eventful contingency, a paralysis of mining operations, if some radical and probably harsh measure is not taken at the present moment to avert the evil. It strikes me that no ordinary argument or pressure that may be brought to bear on His Honor the Lieutenant-Governor will have any influence with His Honor, Martin's defeat at the polls will place the Governor in an unenviable light. It practically means his removal from the honorable position he now holds, if the Dominion Premier's words indicate anything. Hon, Joseph Martin must have time to meet the electorate and win them over, if Fishsuch a thing can occur, therefore any excuse he can propose will be used to obtain delay. The revision of the voters list affords a pretence, and no doubt other excuses, after revision, will be taken to allow of his holding power for a longer period. To point out how business will suffer, and mining development will be checked, I wish to show up one incident that greatly affects a most promising section of my riding. Before the government's defeat, I asked Mr. Cotton to have a bridge constructed over Fish creek, seven miles from Comaplix, where the mountains cut off the valley by a perpendicular cliff 200 feet in height, and a crossing has to be secured at that point. Probably there are a score of mining companies operating up the river, and the bridge is an absolute necessity. After six weeks it would be impossible to build the bridge, as piles have to be driven to make the centre pier. This cannot be done after the middle of May, as the melting snows on the mountain slopes send down a tremendous volume of water that would make and Rae were suffering from severe any attempt to construct it during the hot summer months futile. I have pointed out all these circumstances to Hon. Joseph Martin on three occasions, but to no purpose. He distinctly refused, stating as an excuse that he had no power. The following section of the Consolidated

Governor-in-Council has unlimited powers to deal with such questions: "Chap. 166, an Act respecting revenue section 41, B., sub-section B. C.: If any ing rain without even their waterproof public work or building require an immed sheets, having received orders not to late outlay for the repair thereof, or any take them. I may mention that your other occasion arises when any expendicorrespondent has mended and patched ture not foreseen or provided for by the his pants several times, but all to no pur- legislature is urgently and immediately pose, so has now in deep despair given | required for the public good, then, upon Governor-in-Council may order a special warrant to be issued for the amount estimated to be required, and the issuance of such warrant shall be sufficient authority to the auditor to authorize the payment out of the treasury to the amount so or dered to be expended or paid."

legislature, and also shows the Lieutenant-
