WARSHIP LENA IS TO BE DETAINED

THE VESSEL WILL BE TIED UP AT 'FRISCO

Washington, Sept. 15.—Shortly after 3 o'clock to-day Acting Secretary of State Adee received a telegram from the President, at Oyster Bay, approving the program which had been arranged for the Lena. Capt. Pillsbury immediately telegraphed at San Francisco to tie up the ship. The disposition of the crew will be arranged later.

Tokyo, Sept. 15.—1 p.m.—The presence of the Russian warship Lena in San Francisco is exciting great interest here. Although the motive of the trip is not understood, one theory advanced is that the Russians are endeavoring to test the attitude of America upon the legal questions that will arise.

Another theory is that the Lena, which engaged in scouting call at Korskoff, learned of the scattering of the Russian fleet and the defeat of the Vladivostok squadron, took the Nova's crew on board, and fled to San Francisco. The telegraphic reports of the Lena's crew and number of guns on board indicate abnormal conditions for a ship of her class.

The Japanese government, while watching the incident with close attention, has not expressed its attitude upon the case publicly.

San Francisco, Sept. 15.—The Japanese consul here denies the charges made that he overstepped the bounds of official propriety in his efforts to obtain the release of the crew of the Lena. He has received a letter from Collector Stratton which disavows any reports of the kind.

REPORTED THAT THE SHEARWATER STRUCK Ramer in Circulation That Ship Went Ashore on Returning From Behring Sea.

(From Thursday's Daily.) H. M. S. Shearwater, which is due at Comox on Behring Sea to-day, is reported to have gone ashore somewhere up North. According to rumor, she was on the rocks at the mouth of the Skeena, and was lighted off all her guns and coal, as was done in case of the Flora a year ago.

The Shearwater is well known to the crews of the fishing boats in the Behring Sea on both sides of the Strait. The vessel met with a misfortune when on her return from the North-western fisheries. On her return she was wrecked on the rocks at the mouth of the Skeena, and was lighted off all her guns and coal, as was done in case of the Flora a year ago.

A special dispatch to the Times states that the Shearwater had not reached Comox at 2 o'clock this afternoon.

THEIR GOLDEN WEDDING. Many People Gather to Do Honor to the Bishop and Mrs. Crige.

People of all denominations were delighted to honor Bishop Crige and Mrs. Crige on the occasion of the fifth anniversary of their wedding, which fell on Wednesday. An informal gathering was arranged under the direction of Mrs. Bishop and Mrs. Crige many happy years ago. Among those present were Mr. and Mrs. Cran, son-in-law and daughter of the aged couple, who made a special trip from Ashcroft, where Mr. Cran is manager of the Bank of B. N. A., to attend the gathering.

A pleasing incident occurred in the afternoon, when a golden cake filled with gold pieces was presented to the Bishop and Mrs. Crige. Although deeply affected by this evidence of esteem the venerable clergyman made a neat little speech of acknowledgment. Many other presents were received by them, while a feature of the content of the tea table was a splendid wedding cake which was accorded liberal justice.

Chargemen from all the denominations in the city called and tendered their congratulations and good wishes, while both young and old Victoria, if the two generations were so described, were well represented in the large gathering at the Bishop's residence. Their expressions of good will and esteem undoubtedly reflect the sentiment of all Victorians who have enjoyed the pleasure of the Bishop and Mrs. Crige's acquaintance.

Miss Lillian Mowat, 40 Cadboro Bay road, left on Saturday last for Boston, Mass., to attend Edmund's College.
