

Miramichi and the North Shore, etc.

FRANK'S BAD BOY as played at Chatham don't amount to much.

"KERRY GOV." played in Masonic Hall last Saturday night, was the best dramatic performance we have had in Chatham for years.

A GREAT LOSS.—St. John loses one of its best most promising, public-spirited and useful citizens by the death of John Magee, Esq., which took place on Monday night last.

LABRADOR HERRINGS.—Mr. C. Daws of Bay Roberts, Nfld., telegraphs that he is sending the Schrs. Flora to Miramichi with about six hundred barrels No. 1 Labrador herrings.

THANKS.—Messrs. L. Harris & Son, L. J. Tweedie and the owners of the Benson Block publish cards of thanks to those who assisted in saving their property from fire yesterday morning.

THE CAROLINE RAILWAY Company intend to buy a second-hand engine from the L. C. R. Twenty-five miles of the road remain to be built. About 37 miles have been sold to the company.

THE FLEET.—We can speak from personal experience of the superiority of the spectacles which Mr. Mackenzie advertises in this issue—and of the scientific manner in which he fits glasses to individual eyes.

WISCONSIN is the most humorous paper in America today. Gen. W. Peck, its editor and proprietor stands without an equal as a humorist. He believes in making people happy, and no one can be otherwise who reads his most excellent paper.

THE "SECTION 16" CLAIM.—Persons having claims against Mr. Gunn in connection with the construction of Section 16 L. C. R. are now promised a settlement of them, as it is announced that Mr. Gunn, Dominion Arbitrator, is to be forthwith for the purpose looking into them. Mr. R. B. Adams having had the matter in hand partially put it in shape for a settlement.

A VALUABLE COW in Yorkshire, England, having broken her leg, the veterinary surgeon was asked to amputate the limb and try to save the animal. This was done, and the stump of the leg healed naturally and completely.

STEEPLE PLATE.—Mr. Thomas Miller's machinery for rolling steel rails into pipe is now in operation. The tests so far have proved very satisfactory, and the rails made from the plate are said to be of a very superior kind.

THE MERRIMOTT BARBAR in Chatham Skating Rink on Thursday evening last was one of the most attractive and best managed affairs of the kind ever held in Chatham.

SHARK CAPTURED.—Sunday evening between 4 and 5 o'clock, a large shark was captured at Shediac in what is known as Cannon's shore, directly opposite Hainington's mill, by a man named Mark Babineau.

AN INDEBTER OF THE ELECTION.—The contest for a case in St. Malach's Hall fair between the friends of Messrs. McLeod and Everett created much interest last evening.

MR. MURRAY, who is on his way to Ottawa, and whose letters on the subject delivered here recently were so much appreciated, remains at Miramichi for two evenings and will deliver his celebrated Christmas piece "How John North Spent His Christmas," in Masonic

Hall, Chatham, this evening and in Newcastle-to-morrow evening. Messrs. Harper of New York illustrated this paper of Mr. Murray's some three years ago at a large expense, and it has been pronounced fully equal in strength, beauty and pathos to Hugo's best efforts.

PERSONAL.—Hon. Peter Mitchell, M. P. for Northumberland arrived at Newcastle last Thursday night. He was met at the station by a number of friends and the Cornes Band. He also visited Chatham during the week and went up river on Saturday, returning to Newcastle next day and leaving again for the North on Monday night.

THE CANADIAN ACCIDENT.—The St. John Globe's account of the Canadian accident was greatly overdrawn in almost every particular. It is a little strange that such a report should be quoted by a newspaper which was in no way connected with the facts.

THE GLOBE published a truthful account of the accident, the Times to the contrary notwithstanding. The American correspondent of the Telegraph states that Mrs. Tucker's injuries are more serious than was at first supposed; besides several flesh wounds, the cheek and jaw bones are broken and the right eye considerably injured.

HEAVY FIRE.—Morrison's mill, a short distance below Fredericton, was burned on Monday evening, together with two other buildings, eleven flat cars belonging to the N. B. Railway and about 500,000 feet of lumber. The mill was one of the finest in the Province, was employing 110 men, was running two sets of gang saws, two sets of planers and one strap machine, and turning out daily about 75,000 feet of long lumber, 75,000 laths and 2000 or 3000 pickets and strapping. It was the greatest fire seen in Fredericton for years.

A SERENITY IN CHURCH.—Says the North Sydney Herald: The prospects of witnessing a marriage drew an unusually large audience to the Episcopal church at Cove Bay C. S., Sunday evening last, but as the sequel proves, they were doomed to disappointment.

FARM TALK.—Says the Advance, a few weeks ago, the Station Farm, Chatham, received a fine young thorough bred Berkshire boar. This is the smallest boar ever imported for this farm in the past five years.

As well as pigs the owner has a nice lot of Ayrshire cattle and bull and heifer calves, all of which he breeds and sells. Persons in need of good stock would be well to write to this farm for prices before sending outside of the country therefor.

THE FREEDOM OF THE PRESS.—The Freedom of the Press is a principle which is as old as the hills, and it is one which is as sacred as the rights of life, liberty and property.

to move which he was positive that he spoke the sentiments of the ratepayers of the district. He then moved the following resolution which was seconded by Mr. J. Noble and was unanimously adopted.

That the ratepayers of School District No. 4, Parish of Hardwicke, learn with regret, as the Annual Meeting that Miss Robertson has resigned her position as teacher in this district, and that they take the present opportunity of recording that she has been an efficient and painstaking teacher and has always maintained a department becoming an instructor of the young, and has diligently given instructions according to the principles of her future life as she has attained as a teacher in this district.

A vote of thanks was then given to the Chairman and the meeting adjourned.

THE TWIN-BROTHERS OF THE KRACKEN, both in its marvellous size and in the incredibility of all its descriptions have excited the interest of the public.

Chatham has been very fortunate for a long time past in having a very fine long time from loss by fire, but an early hour yesterday morning there was an alarm caused by the discovery of smoke and fire in the rear of the store of Mr. Wm. Wyse's store at the head of Union Street.

Before water was got on from either of the engines Mr. Donald McLachlan's firestone on the opposite corner of the road leading to the wharf was on fire and burning brightly, the flames being about 100 feet high.

When the fire broke out it was about 10 o'clock, and the wind was blowing from the east, so that the fire spread rapidly in all directions.

The fire was extinguished by the fire engine and the hand engine, as well as the powerful fire pump of the town. The loss was estimated at \$1,200 and the building is almost totally destroyed.

Mr. Strang's warehouse is practically destroyed, together with 1,820 barrels of flour, 20 bbls. sugar, 30 bbls. coffee, 40 bbls. pork and 10 bbls. beef. He had no insurance and is the heaviest loser by the fire.

Mr. McLachlan's stock, on which there was no insurance, was also all saved. The building is almost totally destroyed—insurance \$2,000.

Mr. Tweedie, barrister, who occupies the upper floor of the McLachlan building, though the stock of all his wares, but lost some odds and ends of office furnishings and fittings.

The building next to Mr. McLachlan, owned by Mr. Harris & Son, was occupied by Messrs. Harris & Son, was a considerable danger but was saved by the exertions of the workmen.

Mr. McLachlan's house was quite unharmed, and he is now residing in it. He has found these calamities very distressing, and he says, "and so large that they could easily be said to be a disaster."

English Politics.—LONDON, Oct. 12.—Lord Randolph Churchill has issued his address to his constituents. It is in the same vigorous style that characterized his speeches.

A despatch from Quebec, dated the 8th inst., says:—A Government steamer will leave for Labrador this week loaded with fuel and flour to alleviate the sufferings of the poor fishermen and their families.

The exhibition of bad temper, bad taste, and pure blackguardism made by the World of Saturday last under the heading, "Smith's canvass," does not call for any further comment on our part.

will be found a great convenience in gathering and storing the potatoes. It is made eighteen inches long, fifteen inches deep in the clear at the sides, and ten inches wide, all inside measurements; this holding two thousand and seven hundred cubic inches, or thirteen cubic inches (about two good sized potatoes) over-leaved bush, which is two thousand and six hundred and eighty-seven inches. These boxes can be set one upon another, and then have a space left between the potatoes, and are thus well adapted for use in storing a part of the crop, or a small quantity for domestic use.

"My rod cracked and bent double," a "rod-faced" gentleman was saying; "and the birch upon like a toothpick. I tell you if Peter Cheave had not the presence of mind to grip the most convenient part of my trousers with the boat hook, I should have had my rod broken in two seconds or less."

"Nonsense," said a quiet little gentleman who sat opposite. "That is impossible."

The first speaker looked flustered at this, and colored with pleasure. "Nevertheless," he retorted, "in a fact, on my honor as a sportsman, you do not say it is impossible."

"Certainly not," put in a third speaker. "The bottom of the lake is a sieve—a sort of siltstone siltstone formation—no fish smaller than the fifty pounders fall through."

"Why doesn't the water drop through?" asked the stout patient, in a triumphant tone.

It is often well to emulate the bright examples of those who tempt fortune, and by bringing a little wind much. Here is an illustration of the result.

Examples of Venturous Ones Commanded.—It is often well to emulate the bright examples of those who tempt fortune, and by bringing a little wind much.

THE OWNERS of "Benson Block" beg to inform their tenants and the public that they have been notified by the Board of Health to remove their property by the 15th inst.

between the two countries. LORD LANSLOWNE'S AGENT.—A Dublin despatch of 12th inst., says:—"Aghade House, near Killarney, the residence of Mr. Samuel J. Hayes, agent for Lord Lansdowne, was attacked by moonlighters last night. A number of shots were fired but no serious damage was done. The police force has returned to guard the premises, but no arrests have been made."

POOR "LA."—The Indian tried at Redford for the murder of Payne and Tremont, have been found guilty. Judge Rouleau told the prisoners, in passing sentence, that he could hold out no hope of mercy. They will be hanged on 27th November. Three Conncillors who signed the celebrated Poundmaker's letter, were sentenced each to two years in the penitentiary. The two murderers of George Dill, of Freestaylor, were found guilty and also sentenced to be hanged on the 27th November. Sixteen Indian prisoners were set free during good behaviour, no direct evidence being available against them.

A CONSERVATIVE WATERLOO.—Saturday night the Conservative held a meeting at Massey's, and many Liberals attended. After Messrs. E. McLeod and W. Pugsley had spoken, Mr. Adams, from Northumberland, was on the programme, called on by Hon. R. J. Ritchie. The latter took the platform and arranged the policy of the Government so effectively that he carried the audience with him.

HE ANSWERED some personal charges against the Liberal candidate's friends in a manner that effectively silenced his opponents. Mr. Adams followed, but was unable to recover lost ground. The meeting was a pronounced success for the Liberal cause.

BELOARIA.—A London despatch says the Bulgarian question looks more hopeful. Delays tend toward success, as well as giving Turkey time to prepare as well as allowing Russia to influence felt by threatened parties. This view is not shared by the N. York Herald's correspondent, who, also from Buch, Serbia, that the Serbians really mean to fight and King Milan must become an oriental tyrant or be dethroned. The work of mobilization proceeds rapidly and the enthusiasm is great from the King down to the newest recruit. All agree that Serbia must assert her rights. The Italian ambassador at Vienna told the Herald correspondent that Serbia is undoubtedly resolved to open the campaign by attacking Turkey, if Europe does not allow her increased territorial compensation. Moreover, all warlike elements in Macedonia, Montenegro and Greece are gaining headway with every additional twenty-four hours' delay.
