CIRCUIT COURT.

In the circuit court yesterday afternoon the case of the King v. Albert T. Holm, for cutting and stabbing Officer Charles Rankine was taken up. The testimony of Officer Rankine, Sergt. Baxter, Mrs. Holm and the prisoner was taken. The jury was out but a short time and returned a verdict of guilty.

The case of the King v. Albert Holm, William Holm, and John Tobin, charged with breaking and entering, was commenced last night and continued this morning. The witnesses for the prosecution, which was concluded this morning, were Officers White and Rankine and Sergt. Baxter. For the defence Albert Holm went on the stand and testified that he met a man, whom he knew as Shorty, at McAdam. He endeavored to obtain Holm's assistance in breaking into Cullinan's store, but Holm refused. He, however, stood outside while Shorty was inside. Mrs. Margaret Holm, Mrs. Ida McColgan, sister of John Tobin, and William McColgan, testified in regard to the good character of the prisoners and, H. W. Goss, bookkeeper at Haley's factory, testified that Tobin worked at that place. The court adjourned until 2.15 this afternoon. Hon. H. A. McKeown, K. C., for the crown; H. H. Pickett, for the Holms; and R. G. Murray, for Tobin.

YACHTING NOTES.

The R. K. Y. Club cruise up river on Tuesday next will not take the form of a regularly organized club cruise, but it is probable that many of the boats will participate in it. Originally it was intended to make a general cruise, but when the invitation from Digby to attend the races there on Dominion Day was received, and a number of yacht owners signified their intention of going across, the first of July cruise was somewhat neglected. Now, however, it has been decided that only a few boats, if any, will go to Digby, and efforts are being made to boom Tuesday's event.

The latest word from Rev. Lindsay Parker of New York is to the effect that on account of changed conditions he will probably be able to spend a portion of the summer on the river and will occupy his summer house at Gondola Point. His yacht, the Ormoriel, will not be launched.

POLICE COURT.**A Family Affair That Waked the Echoes This Morning.**

Two forlorn specimens sat on the bench this morning awaiting their doom. Stamped upon their countenances were expressions of dread lest the order in regard to working in the park should come into effect before they got clear, and mingled with these expressions were others of determination to do as little as possible.

First, simple, harmless Pat McQuillan, who can never refuse a drink and who always gets drunk when he has the chance, was picked up on Union street. He wanted to go to the alms house because he was sick and had no other place to go. But in spite of his pleadings, Patrick was sent to jail for two months.

James Doyle hails from Halifax and is here on a vacation. Instead of spending his time in the country, Doyle has remained about town getting into various kinds of trouble. He evidently believes with Billy Baxter that ten square feet of asphalt pavement in front of a barroom door has the green fields beaten from start to finish. Doyle was drunk in the north end last evening and used some vile language. He was sentenced to thirty days for the drunkenness and two months for using the bad language.

Antonio Vendetta sharpened knives and scissors without securing the necessary license. He had no intention of using them for any wrong purpose, for in spite of his name Tony is peaceable. Nor did he wish to take out a license. He wants to become a citizen of St. John, and asked that he be assessed on income. He was sent to City hall.

A grievance between Mrs. Secord and Mrs. Fish, who live on Brussels street, furnished some amusement for the court.

Secord was the original complainant, but Mrs. Fish wanted warrants for the arrest of the whole Secord family on charges of assault, abusive language and numerous other things which she did not fail to mention. Mrs. Secord took the stand, but before she had a chance to say a word the defendant denied everything and volubly explained how it all happened. Then Mrs. Secord started and the two poured forth a torrent of such unavailing language that the listeners leaned back and held their sides. Amid the uproar one of the women was heard to state that "Mr. Baxter said he never heard such a tongue as Mrs. Fish has."

This brought forth the remark from the magistrate that Baxter was no judge, and a listener added, "No—no, policeman."

Then someone suggested that the turmoil be ended and the women quieted, but the magistrate thought any person who could do that would be a public benefactor and might find work in other places than the courtroom. Just about here the husband of one woman and the young son of the other were brought forward to assist, and the volume of sound was doubled. All talked at once, and above the din could be heard the voice of the boy screaming, "He guzzled me!"

It was all due to the fact that one woman had emptied a bucket of water over the other and then used a broomstick on her. She had also beaten the latter's husband, but these acts were said to have been committed in defence of her offspring, who was being beaten by the husband. The case was allowed to stand over for one week, in order that Mrs. Fish might be given an opportunity to find another house, and the women parted with many uncomplimentary remarks concerning each other.

BURIED TODAY.

The funeral of the late Mrs. Isabella Bowes took place at half past two o'clock this afternoon from her late residence on Canterbury street. The body was taken to St. David's church, where the burial service was conducted by Rev. Dr. Morrison. Interment was in Fernhill.

This afternoon at four o'clock the funeral of the late Mrs. Mary Murray was held from her late home 421-2 Brussels street. Services were conducted by Rev. John de Soyres, and the body interred in the Church of England burying ground.

ORANGE PICNIC.

Gideon L. O. L. will hold a picnic at Watters' landing on Dominion Day. The steamer May Queen has been chartered and will make two trips at 9.30 in the morning and at one in the afternoon. A band has been secured and every thing possible has been done to make the outing a success.

TEACHERS' INSTITUTE.

(Special to the Star.)
FREDERICTON, N. B., June 28.—The closing session of the Teachers' Institute was held this morning. The special committee appointed to confer with the board of education about proposed changes in the text books and the courses of study are Dr. H. S. Bridges, St. John; B. C. Foster, Miss Annie Harvey, Fredericton; P. O. Sullivan, St. Stephen, and S. W. Irons, Moncton. The result of the election for members of the executive committee was announced as follows: B. C. Foster, Miss Ella Thorn, Fredericton; Frank Good, Woodstock; C. H. Acheson, Moncton; P. O. Sullivan, St. Stephen; C. J. Mersereau, Bathurst; E. W. Lewis, Campbellton; Miss Kate Bartlett, St. John; G. J. Oulton, Moncton, and R. D. Hanson, Pictou.

Crockett briefly addressed the Institute. The special committee to which was referred the matter of correct pronunciation of Latin reported through Dr. Bridges that the committee after conference had adopted the following resolution:—

"That a committee of teachers be appointed in regard to the best method of pronouncing Latin, to confer with the teachers of Latin in this province, and with professors of Latin in the dominion, United States and England, in order to assist them in reaching a decision."

The report was adopted and Dr. Bridges, William Brodie, of Sussex; and Principal Tuttle, of Bathurst, were appointed the committee.

AN X RAY PHOTO.

The first to be taken in this city is now being developed.

The first photograph to be made in St. John by the Roentgen ray apparatus will be finished on Monday. This morning the negative was developed by Roche & Davidson and is very satisfactory.

The X Ray apparatus was purchased for use in the General Public Hospital last fall, before the outbreak of smallpox, but during the period of quarantine it could not be tested. During the past few weeks experiments have been made and last evening Dr. Will Ellis took a photograph of his own hand. The plate used was an ordinary 50 sensimeter stanley, similar to those sold for everyday photography, and was placed in a pasteboard box. Dr. Ellis laid his hand on the outside of the box, between the tube and the plate, and allowed twenty seconds exposure.

This morning it was found that the plate was normal, the development being just as satisfactory as in an ordinary photograph and the details of the hand showing clearly. The experiment is considered as being most successful, and opens up a wide range of usefulness for the appliance in the hospital.

A WALL OF WOE.

A writer in this week's Freeman vigorously denounces the manner in which patronage is bestowed in this city and gives the following instance: "A Catholic liberal lately applied to the conservative head of a department seeking work as a digger. He brought with him a letter from the Catholic chairman of his ward recommending that work be given him, and stating that Col. Tucker had written the chairman authorizing him to engage some men for this purpose. He was told that no matter who recommended him he simply could not get work without George McAvity's endorsement."

The writer protests against a policy that "enriches a certain liberal firm," and calls upon Catholics "to come to their senses" and say things to Mr. Blair.

WOOD AS WELL AS COAL.

J. S. Frost has purchased from J. A. Mann his electric wood cutting plant on Lloyd's wharf, and will carry a stock of hard and soft wood, kindling, etc., in connection with his coal business.

Situated on a wharf, it is particularly fitted for this business; as wood can be delivered alongside at cheapest rates by woodboat or schooner; and in close connection with his office he can give it his special attention. He has arranged for, and expects in a few days, a full supply of different kinds of wood which he is prepared to deliver promptly in any quantities at lowest cash prices.

A GREAT EXCURSION.

The Canadian Pacific railway has issued a circular to school teachers, advising them of special round trip excursions from this province to Manitoba and the Northwest, on July 16th, at rates ranging from \$28 to \$40, according to destination. Rough stowaway privileges and tickets good to return till Sept. 16th. The Winnipeg exhibition will be held from July 21st to 25th, and that at Brandon, July 29th to Aug. 1st. For full particulars apply to C. P. R. ticket agents.

MEN'S REAL LISLE THREAD HALF HOSE 25c. per pair at Dykeman's.**CORONATION CONTINGENT.**

Letters were received yesterday from members of the coronation contingent. It was stated that the only St. John men who were not sick on the voyage across were Robertson and Anderson, and these two missed several meals by judiciously remaining on deck instead of going below. Rough weather was encountered off Newfoundland and again near Ireland, but on the whole the voyage was very enjoyable. The men expect to leave England on the Tunisian on July 3rd.

THAT NURSES' FUND.

The subscribers to the testimonial for the nurses have had their money returned to them, accompanied by a short note in which it was stated that the nurses had declined to accept the money from the Telegraph. In a number of cases the subscribers have sent their contributions to the matron at the hospital, asking that the money be either handed to the nurses with their compliments or else used in any way the recipients wish.

BEAUTIFUL BERRIES.

The finest strawberries that have reached the local market this year are those shipped by refrigerator cars from upper Canada to J. F. Estabrook & Son. These berries reach the city as fresh as when picked and with the dew and bloom still on them. Messrs Estabrook will have another shipment of one hundred cases Monday, which will be put on the market in the afternoon.

Thirteen burial certificates were issued this week. Death was due to the following causes: Old age, 4; consumption, 2; Pneumonia, 1; convulsions, 1; heart disease, 1; premature birth, 1; chronic bronchitis, 1; broncho-pneumonia, 1; intestinal obstruction, 1; total, 13.
